Northland Mall Gerald E. Naftaly, 2016 Revisit your favorite stores and memories of innovative Northland Mall in Michigan, once heralded as the future of shopping. When the Northland Mall opened in Michigan on March 22, 1954, it was the world's largest shopping center. Its innovative design was the vision of architect Victor Gruen and the Webbers, nephews of Joseph Lowthian Hudson and executives of the J.L. Hudson Company. Northland featured Hudson's flagship suburban store surrounded by other businesses selling a variety of merchandise and services. More than just a shopping destination, Northland Mall was a total experience of activity and relaxation, with colorful courtyards displaying sculptures such as the famous The Boy and Bear.

The Washington National Mall Peter R. Penczer,2007-01-01 The first general history of the National Mall in Washington, America's most important urban park. The Mall is home to the Smithsonian Institution, the largest museum complex in the world, and it is the location of memorials to America's most important heroes. It has become the nation's center stage as well, the venue for the country's largest demonstrations. The Washington National Mall details the history of the National Mall and its institutions, then tells the stories behind each of the monuments and museums.

Street Value Rosten Woo,Meredith TenHoor,2010-06-02 Downtown Brooklyn's Fulton Mall is one of the most bustling public spaces in New York City. A colossus of commerce, itwelcomes over one hundred thousand shoppers daily and ranks among the most profitable commercial real estate in the entire country, and is also home to some of the city's most recognized institutions, including cheesecake mecca Junior's, that have been immortalized in song, film, and culture. Despite its historic link to Brooklyn's past and its financial success as a shopping district, Fulton Street is rarely celebrated in New York. The street's hand-painted signs, customized jewelry, rare sneakers, mega-church, and vendors offer a special sampling of noncorporate commerce, but many consider its sensorial and physical density a sign of blight. Misunderstandings about race, class, and profitability have led Fulton Street to be characterized as run-down, dangerous, or underutilized, and as a result it has been subject to nearly continuous renovation. Recently rezoned and becoming increasingly attractive to national chain stores, Fulton Street is once again poised for big changes. Street Value is a challenge to creatively rethink the planning and urban design of Fulton Street and other urban shopping districts. Street Value explores the mall's historical and contemporary conditions through original essays, oral histories, new and archival photographs, historic documents, and interviews with

key planners, developers, city officials, historians, and activists from the 1960s to the present. Street Value probes the ideology of redevelopment and demonstrates how commercial, governmental, and activist forces have coalesced to produce one of Brooklyn's most legendary public spaces.

The Mall Don Handfield, James Haick III, 2021-07-27

Mall Maker M. Jeffrey Hardwick, 2015-08-18 The shopping mall is both the most visible and the most contentious symbol of American prosperity. Despite their convenience, malls are routinely criticized for representing much that is wrong in America—sprawl, conspicuous consumption, the loss of regional character, and the decline of Mom and Pop stores. So ubiquitous are malls that most people would be surprised to learn that they are the brainchild of a single person, architect Victor Gruen. An immigrant from Austria who fled the Nazis in 1938, Gruen based his idea for the mall on an idealized America: the dream of concentrated shops that would benefit the businessperson as well as the consumer and that would foster a sense of shared community. Modernist Philip Johnson applauded Gruen for creating a true civic art and architecture that enriched Americans' daily lives, and for decades he received praise from luminaries such as Lewis Mumford, Winthrop Rockefeller, and Lady Bird Johnson. Yet, in the end, Gruen returned to Europe, thoroughly disillusioned with his American dream. In *Mall Maker*, the first biography of this visionary spirit, M. Jeffrey Hardwick relates Gruen's successes and failures—his work at the 1939 World's Fair, his makeover of New York's Fifth

Avenue boutiques, his rejected plans for reworking entire communities, such as Fort Worth, Texas, and his crowning achievement, the enclosed shopping mall. Throughout *Hardwick* illuminates the dramatic shifts in American culture during the mid-twentieth century, notably the rise of suburbia and automobiles, the death of downtown, and the effect these changes had on American life. Gruen championed the redesign of suburbs and cities through giant shopping malls, earnestly believing that he was promoting an American ideal, the ability to build a community. Yet, as malls began covering the landscape and downtowns became more depressed, Gruen became painfully aware that his dream of overcoming social problems through architecture and commerce was slipping away. By the tumultuous year of 1968, it had disappeared. Victor Gruen made America depend upon its shopping malls. While they did not provide an invigorated sense of community as he had hoped, they are enduring monuments to the lure of consumer culture.

Kill the Mall Pasha Malla, 2021-02-02 Pasha Malla writes like a reincarnated Kafka. —Ian Williams, winner of the Giller Prize for Reproduction Douglas Adams meets David Lynch in this ingenious, witty fable about one of North America's most surreal inventions—the local mall. After writing a letter in praise of malls, our eccentric narrator is offered a residency at a shabby suburban shopping centre. His mission: to occupy the mall for several weeks, splitting his time between making work and engaging the public, all while chronicling his adventures in weekly progress reports. Before long, a series of strange after-hour events rattles our hero, and he sets forth on a nightly quest to untangle the mysterious forces at play in the mall's unmapped recesses. Things quickly get hairy, and our narrator's optimism about his mall residency descends into doubt, and then into a full-blown phantasmagoria of horror and (possibly) murder. With the aid of a weird and wonderful cast of mall-dwelling misfits—including a pony named Gary—our narrator is forced to conclude that his new residence may not be the temple of consumer bliss he initially imagined, but something far more sinister. And who, or what, is benefitting from its existence? Much like the shopping centres it praises and parodies, Pasha Malla's wildly adventurous novel follows its own internal logic, channeling its narrator's unshakeable innocence to explore the darker edges of human (and other) nature.
