### *Chess Tactics - Volume 1* Carsten

Hansen, 2020-01-20 Are you ready to seriously improve your game? It has been said that chess is 99% tactics but whether that is an accurate reflection is hard to tell. Nevertheless, it is important. But if you are like most players, you only discover the tactics after you come home and run through your game with a chess engine. So what to do? In the present book, you will be challenged 404 times but unlike most tactics puzzle books you don't know what your objective is: do I need to find a mate, find an opportunity skewer or pin a piece, use a tactical turn to gain a positional advantage and how far do I need to calculate? These questions are you are faced with when you play your own games and therefore this book tries to replicate this position. Your one advantage over the players in the respective positions is that you know that there is supposed to be something in there for you to find. The puzzles vary a lot in difficulty, some are relatively easy, some are incredibly difficult, but most are somewhere in between. However, most of the puzzles are layered so that even when you think the answer is obvious, it is worth looking further because your idea may be the decoy left there for you to get distracted from the actual solution. Working through the puzzles and then carefully play through the thoroughly annotated solutions will help you to up your tactical radar as well as your calculation skills. So if you are up for the challenge, here is the opportunity to take the leap forward. Good luck!

Warhol-isms Andy Warhol, 2022-05-10 A unique collection of brilliant quotations from the legendary Pop artist One of the most influential artists of his time and ours, Andy Warhol is nearly as renowned for what he said as for what he did. Indeed, he is so quotable that things he never said are endlessly and plausibly attributed to him, including, fittingly, the most celebrated fake Warhol saying—"In the future, everyone will be world-famous for 15 minutes." Warhol-isms separates legend from fact to present a unique and comprehensive collection of authentic quotations from the Pop artist. Gathered from interviews and other primary sources, these deadpan, droll, ironic, and sincere gems—in which a superficial embrace of superficiality often disguises provocative, unconventional ideas—provide compelling insights into the life and work of an artist who has left an indelible mark on art and popular culture. Select quotations from the book:

I think an artist is anybody who does something well. I went to [a psychiatrist] once, and he never called me back. They always say that time changes things, but you actually have to change them yourself. I've never met a person I couldn't call a beauty. New things are always better than old things. I'm still a commercial artist. I was always a commercial artist.
