Run Like Hell Nadine Macaluso,2024-01-09 Change your present and seize your exceptional future by escaping your painful trauma bond, healing, and thriving! At age twenty-two, Nadine married Jordan Belfort, the nefarious stockbroker portrayed in the Hollywood blockbuster The Wolf of Wall Street. Their marriage began as a fairy tale, but once they were bonded, Jordan's "mask" began to slip, and acts of infidelity, narcissistic abuse, insatiable greed, and uncontrollable drug addiction became Nadine's nightmare. The horrific relationship gave Nadine the inspiration to become a psychotherapist specializing in narcissistic abuse, trauma bonds, and complex PTSD. Her private practice quickly flooded with women recounting an all-too-familiar story of abuse with a pathological partner. Perhaps this scenario resonates with you. In Run Like Hell, Nadine brings you her personal experience and years of expertise to explain • the mental health of the narcissistic pathological lover (PL), • the traits of women who are the perfect "victims" of these PLs, • how you can leave a trauma bond safely, and • how you can heal. Nadine also shows how you and other women can be surthrivers of these trauma bonds and go on to have healthy, positive relationships and lives, armed with knowledge and awareness. So Run Like Hell from damaging trauma bonds and live with awareness, practice self-love and care, and thrive, regardless of your past.

A-Z of Digital Research Methods Catherine Dawson,2019-07-10 This accessible, alphabetical guide provides concise insights into a variety of digital research methods, incorporating introductory knowledge with practical application and further research implications. A-Z of Digital Research Methods provides a pathway through the often-confusing digital research landscape, while also addressing theoretical, ethical and legal issues that may accompany each methodology. Dawson outlines 60 chapters on a wide range of qualitative and quantitative digital research methods, including textual, numerical, geographical and audio-visual methods. This book includes reflection questions, useful resources and key texts to encourage readers to fully engage with the methods and build a competent understanding of the benefits, disadvantages and appropriate usages of each method. A-Z of Digital Research Methods is the perfect introduction for any student or researcher interested in digital research methods for social and computer sciences.

The Conversion Code Chris Smith,2016-02-11 If you need more traffic, leads and sales, you need The Conversion Code. Neil Patel co-founder Crazy Egg We've helped 11,000+ businesses generate more than 31 million leads and consider The Conversion Code a must read. Oli Gardner co-founder Unbounce We'd been closing 55% of our qualified appointments. We increased that to 76% as a direct result of implementing The Conversion Code. Dan Stewart CEO Happy Grasshopper The strategies in The Conversion Code are highly effective and immediately helped our entire sales team. The book explains the science behind selling in a way that is simple to remember and easy to implement. Steve Pacinelli CMO BombBomb Capture and close more Internet leads with a new sales script and powerful marketing templates The Conversion Code provides a step-by-step blueprint for increasing sales in the modern, Internet-driven era. Today's consumers are savvy, and they have more options than ever before. Capturing their attention and turning it into revenue requires a whole new approach to marketing and sales. This book provides clear guidance toward conquering the new paradigm shift towards online lead generation and inside sales. You'll learn how to capture those invaluable Internet leads, convert them into appointments, and close more deals. Regardless of product or industry, this proven process will increase both the quantity and quality of leads and put your sales figures on the rise. Traditional sales and marketing advice is becoming less and less relevant as today's consumers are spending much more time online, and salespeople are calling,

emailing, and texting leads instead of meeting them in person. This book shows you where to find them, how to engage them, and how to position your company as the ideal solution to their needs. Engage with consumers more effectively online Leverage the strengths of social media, apps, and blogs to capture more leads for less money Convert more Internet leads into real-world prospects and sales appointments Make connections on every call and learn the exact words that close more sales The business world is moving away from belly-to-belly interactions and traditional advertising. Companies are forced to engage with prospective customers first online—the vast majority through social media, mobile apps, blogs, and live chat—before ever meeting in person. Yesterday's marketing advice no longer applies to today's tech savvy, mobile-first, social media-addicted consumer, and the new sales environment demands that you meet consumers where they are and close them, quickly. The Conversion Code gives you an actionable blueprint for capturing Internet leads and turning them into customers.

Social Media and Genre Studies Thomas Kenny, 2023 This book investigates whether Facebook and Twitter have become a genre, particularly for higher education institutions. The author examines the purpose, form, and functionality of higher education's institutional web pages on these platforms through a combination of content analysis and interviews.

Reducing Gun Deaths and Injuries Nancy Lee, 2023-08-16 This book highlights Social Marketing strategies that have been successful in reducing gun deaths and injuries. Readers will be able to advocate for, develop, and/or implement similar strategies in their communities. Each case story includes a summary of successfully applied behavioral change theories and practices The cases are supported by literature reviews, prior research studies, and interviews with professionals working in agencies including sheriff's departments, public health, and county and city governments. The book shows how voluntary behavior change strategies addressed towards this "wicked problem", need to be influenced by several critical components including priority audience segment profiles, a clear and specific desired behavior, barriers to change, desired benefits for change, and key motivators, including perceived social norms. Case selection will be inspired by those that have used a Social Marketing approach, which applies proven marketing principles and techniques to create, communicate, and deliver value to influence priority audience behaviors that benefit society, as well as the individual. Key audiences are those working in governmental agencies in positions such as communications and program management. It is also a valuable text for college and university researchers and students, on degree programs including public health, public administration, marketing, social science, psychology, and communications.

Doing Research in the Real World David E Gray, 2021-11-17 From first planning to writing up your research, this complete guide will help you push your project forward. The Journalist's Toolbox Mike Reilley, 2023-12-22 Focusing on the how and why of digital reporting, this interactive textbook equips readers with all the skills they need to succeed in today's multimedia reporting landscape. The Journalist's Toolbox is an extension of the JournalistsToolbox.ai website, which provides links to tools, organized by beats and topics, as well as social channels, a newsletter, and more than 95 training videos relevant to journalists. This handbook offers a deep dive into these digital resources, explaining how they can be manipulated to build multimedia stories online and in broadcast. It covers all the basics of data journalism, fact-checking, using social media, editing and ethics, as well as video, photo, and audio production and storytelling. The book considers digital journalism from a global perspective, including examples and interviews with journalists from around the world. Packed full of hands-on exercises and insider tips, The Journalist's Toolbox is an essential companion for students of online/digital journalism, multimedia storytelling and advanced reporting. This book will also make an ideal reference for practicing journalists looking to hone their craft. This book is supported by training videos, interactive charts and a pop-up glossary of key terms which are available as part of an interactive e-book+ or online for those using the print book.

La Intervención de las Comunicaciones Electrónicas, Evolución Normativa y Análisis Jurisprudencial Belén Burgos Garrido, 2021-10-21 En esta monográfica se aborda el régimen jurídico de la intervención de las comunicaciones electrónicas (telefónicas e informáticas. Medida de investigación que, en el contexto actual, ha de ser conocida por todo jurista que se precie, dado que la misma ha adquirido una importancia sin precedentes como resultado de la sociedad tecnológica en la que vivimos y donde la cibercriminalidad se ha disparado hasta límites insospechados (estafas en el comercio electrónico, robo de identidades, phishing, pharming y grooming, son tan sólo algunos ejemplos). Igualmente, se efectúa la delimitación legal y jurisprudencial del derecho al secreto de las comunicaciones y se analizan, pormenorizadamente, los presupuestos que han de aglutinarse para su intervención; cuestiones ambas cuyo conocimiento resulta tremendamente útil para plantear la validez o invalidez de la prueba. Asimismo, se concreta el ámbito subjetivo y objetivo de la intervención electrónica de las comunicaciones, así como su ejecución. Es decir, se determina sobre qué sujetos puede recaer la medida y qué datos son susceptibles de ser intervenidos y, todo ello, analizando la rica y variada casuística al respecto (correos electrónicos, claves IMSI e IMEI, listado de llamadas entrantes y salientes, SMS y MMS, videollamadas y videomensajes, obtención de la ip, etc.). Finalmente, se expone un tema crucial para los ejercientes del Derecho: las comunicaciones electrónicas como prueba en juicio, desarrollando una interesante guía práctica con varios supuestos que pueden suscitarse.

Handlungsempfehlungen f"ur eine verbesserte Entscheidungsqualit"at von Digitalisierungsprojekten Vinzenz Jeglinsky, 2022-04-28 In einem von hoher Dynamik geprägten Umfeld operieren produzierende Unternehmen im ständigen Wettbewerb. Die Unternehmen erhoffen sich von Projekten zur Digitalisierung in der Produktion notwendige Effizienzgewinne. Der Verlauf solcher Projekte lässt sich von der ersten Projektidee bis hin zur Umsetzung und Kontrolle der Zielerreichung als Entscheidungsprozess beschreiben. Doch verlaufen solche Projekte selten optimal. Vielmehr bringen herausfordernde Entscheidungssituationen zahlreiche Hindernisse mit sich. Diese Hindernisse müssen im Sinne einer verbesserten Entscheidungsqualität auf strukturierte

Weise aufgelöst werden. Mit gängigen Ansätzen, zum Beispiel aus dem Bereich des Projektmanagements, ist das nicht auf angemessene Weise möglich. Das Konzept zur Entwicklung und Priorisierung von Handlungsempfehlungen greift diese Problemstellung auf und zeigt aus der Perspektive der angewandten Wissenschaft, wie die Entscheidungsqualität bei Digitalisierungsprojekten verbessert werden kann.

The Outdoor TV Show's Guide to the Industry Dustin Vaughn Warncke, Learn the secrets outdoor industry won't tell you from TV show co-host, outdoor industry consultant, and TV show marketing director Dustin Vaughn Warncke in *The Outdoor TV Show's Guide to the Industry*. In this groundbreaking book, Warncke covers a wide variety of subjects such as: Prospecting and building relationships with sponsors and earning their favor. Airing your show on multiple traditional TV and Web TV platforms. Mistakes that most TV show teams make in the industry. How to build and audience and keep them coming back to your content. Producing quality content across multiple platforms. And MORE! *The Outdoor TV Show's Guide to the Industry* is filled with photos, screen shots, and several real world examples of proven techniques to grow your audience and film and produce quality content. This book was written to provide valuable insight for current and aspiring Outdoor TV Show Hosts. The inspiration for writing this book came through a partnership with the Co-Founders of DK Outdoor Adventures Outdoor TV Network and through a long standing relationship with the hosts of Mac and Prowler TV. This book provides valuable industry knowledge that has been gained through first hand experience. In this book, we will cover how to begin the journey of starting an Outdoor TV program on any budget, what separates home videos from actual TV shows and how networking to create benefit results in opportunity. Readers will learn strategies on how to achieve sponsorships, how to earn revenue through their programs, and how to dominate their industry by creating beneficial partnerships that offer massive exposure for their programs and for their sponsors. I hope this book will provide valuable insight into the world of Outdoor Industry Entertainment. While there are many verticals to begin gaining exposure for an outdoor show, there are very few that deliver the exposure level necessary to actually create income and value for the show host to sustain. This book will highlight different avenues to consider when trying to create income through an Outdoor TV program. After purchasing this book, we invite readers to contact us for assistance in beginning their journey to start their very own Outdoor TV Program.

Research Skills for Journalists Vanessa Edwards, 2016-03-02 *Research Skills for Journalists* is a comprehensive, engaging and highly practical guide to developing the varied skillset needed for producing well researched, quality journalism across a range of platforms. Illustrated with original interviews and case studies, the book guides readers through a clear understanding of sources of news, as well as illustrating the skills needed to undertake successful digital and non-digital research and to conduct interviews for a variety of media. It examines the skills needed for basic data journalism and presents an in-depth exploration of the different research skills specific to producing print and online text, as well as those for broadcast and multimedia journalism. Key research skills explored in the book include: Developing digital research skills, including researching through search engines, messages boards, discussion groups and web forums, social media, apps, and using user generated content Working with data, including sourcing, auditing and analysing data, data visualisation and understanding the importance of accuracy and context Essential non-digital research skills, including telephone technique, using libraries and working with librarians, understanding copyright, working with picture libraries and research services, and producing freedom of information requests Working directly with people to research stories, including the power of persuasion, tracking down great contributors, managing and protecting sources, planning and managing interviews, and interviewing vulnerable people Researching for multimedia production of stories, including researching a radio story, podcast or video story, and planning for outside broadcasts. *Research Skills for Journalists* also explores specialist research skills needed for working overseas and investigates new areas, which could be used for journalism research in the future. The book is illustrated with original contributions by journalists from a variety of backgrounds; including veteran investigative journalist John Pilger, pioneering data journalist Simon

Rogers and The Bureau of Investigative Journalism's award-winning reporter Abigail Fielding-Smith. It is an invaluable guide for students and practitioners of journalism to the skills needed for finding and developing original news stories today.

Broadcast Journalism Ray Alexander, Peter Stewart, 2016-01-29 This seventh edition of Broadcast Journalism continues its long tradition of covering the basics of broadcasting from gathering news sources, interviewing, putting together a programme, news writing, reporting, editing, working in the studio, conducting live reports and more. The authors have brought the material further up to date with the integration of social media, uses of mobile technology, the emergence of user-generated content and updated examples, illustrations and case studies throughout. End-of-chapter exercises are also included. New for this edition: Updated with new examples, quotes and pictures. Restructured with end-of-chapter summaries, exercises for students, notes for tutors, links for further reading and references to invaluable websites and smartphone apps. Extended chapters on ethics, responsibilities, interviewing, mobile newsgathering and filming. New additional information on coping with reporting traumatic stories, and how news organisations use Twitter and Periscope.
