Privacy in Context Helen Nissenbaum,2009-11-24 Privacy is one of the most urgent issues associated with information technology and digital media. This book claims that what people really care about when they complain and protest that privacy has been violated is not the act of sharing information itself—most people understand that this is crucial to social life—but the inappropriate, improper sharing of information. Arguing that privacy concerns should not be limited solely to concern about control over personal information, Helen Nissenbaum counters that information ought to be distributed and protected according to norms governing distinct social contexts—whether it be workplace, health care, schools, or among family and friends. She warns that basic distinctions between public and private, informing many current privacy policies, in fact obscure more than they clarify. In truth, contemporary information systems should alarm us only when they function without regard for social norms and values, and thereby weaken the fabric of social life.

"Keep the Damned Women Out" Nancy Weiss Malkiel,2016-09-20 A groundbreaking history of how elite colleges and universities in America and Britain finally went coed As the tumultuous decade of the 1960s ended, a number of very traditional, very conservative, highly prestigious colleges and universities in the United States and the United Kingdom decided to go coed, seemingly all at once, in a remarkably brief span of time. Coeducation met with fierce resistance. As one alumnus put it in a letter to his alma mater, Keep the damned women out. Focusing on the complexities of institutional decision making, this book tells the story of this momentous era in higher education—revealing how coeducation was achieved not by organized efforts of women activists, but through strategic decisions made by powerful men. In America, Ivy League schools like Harvard, Yale, Princeton, and Dartmouth began to admit women; in Britain, several of the men's colleges at Cambridge and Oxford did the same. What prompted such fundamental change? How was coeducation accomplished in the face of such strong opposition? How well was it implemented? Nancy Weiss Malkiel explains that elite institutions embarked on coeducation not as a moral imperative but as a self-interested means of maintaining a first-rate applicant pool. She explores the challenges of planning for the academic and non-academic lives of newly admitted women, and shows how, with the exception of Mary Ingraham Bunting at Radcliffe, every decision maker leading the charge for coeducation was male. Drawing on unprecedented archival research, "Keep the Damned Women Out" is a breathtaking work of scholarship that is certain to be the definitive book on the subject.

Warhol-isms Andy Warhol,2022-05-10 A unique collection of brilliant quotations from the legendary Pop artist One of the most influential artists of his time and ours, Andy Warhol is nearly as renowned for what he said as for what he did. Indeed, he is so quotable that things he never said are endlessly and plausibly attributed to him, including, fittingly, the most celebrated fake Warhol saying—"In the future, everyone will be world-famous for 15 minutes." Warhol-isms separates legend from fact to present a unique and comprehensive collection of authentic quotations from the Pop artist. Gathered from interviews and other primary sources, these deadpan, droll, ironic, and sincere gems—in which a superficial embrace of superficiality often disguises provocative, unconventional ideas—provide compelling insights into the life and work of an artist who has left an indelible mark on art and popular culture. Select quotations from the book: I think an artist is anybody who does something well.I went to [a psychiatrist] once, and he never called me back.They always say that time changes things, but you actually have to change them yourself.I've never met a person I couldn't call a beauty.New things are always better than old things.I'm still a commercial artist. I was always a commercial artist.
