Shoot to Win Chris Cheng,2018-05-01 A surprising journey from tech support to professional marksman in front of the cameras. Chris Cheng won the title of “Top Shot,” a \$100,000 cash prize, and a professional marksman contract with the show sponsor, Bass Pro Shops. How did a tech support guy who didn’t shoot a lot of guns beat out seventeen other competitors—including seasoned military veterans, law enforcement officers, and pro marksmen—in History Channel’s Top Shot season 4? An excellent guide for beginning shooters, Cheng focuses on the basics and ammunition of pistols, rifles, and shotguns, marksmanship fundamentals, and buying a firearm. Other chapters include: Dry Fire Practice Firearm Accessories Safely Storing Your Firearm Cleaning and Maintaining Your Guns And much more! Additionally, Cheng covers his approach to staying calm under pressure, teamwork, sportsmanship, and leadership. These traits contributed to his coming out on top and staying above the fray. With a foreword written by Top Shot season 3 champion Dustin Ellermann and an afterword written by the original Top Shot champion Iain Harrison, Shoot to Win is sure to please shooters of all stripes, but especially fans of History Channel’s program Top Shot. Cunningham,2020-05-26 All other factors being equal, it is your ability to read the wind that will make the most difference in your shooting accuracy. The better you understand the behavior of the wind, the better you will understand the behavior of your bullet. Now, champion shooters Linda K. Miller and Keith A. Cunningham reveal everything they wish they’d known about reading the wind before they started shooting (instead of having to learn as they went along) in concise, easy-to-read terms and accompanied with handy ninety-five diagrams. The Wind Book for Rifle Shooters contains straightforward guidance on the simple thought process they use to read the wind, the techniques and tactics they use to win matches, and the underlying skills that support both. Let these champions show you how to put together a simple wind-reading toolbox for calculating wind speed, direction, deflection, and drift. Then learn how to use these tools to read flags and mirage, record and interpret your observations, and time your shots to compensate for wind. Other topics covered include: Analyzing shot placement Recording and record keeping Confidence and following

your hunches And much more! The essential wind-reading basics taught in this book will absolutely improve your shooting skills, whether you're a target shooter, a plinker, a hunter or a shooting professional.

Art of Shooting Philip Treleaven,2014-06-04 This handbook is a 'primer' for the new target shooter: introducing the firearms, shooting disciplines and firearm technology, and drawing on the expertise of Bisley, the home of British and Commonwealth target shooting.The book is organized into nine sections and over 60 deliberately short chapters. First the basics:Part A - Target Shooting Basics – introduces the different shooting disciplines available. Part B - Firearms and Shooting Equipment – covers the different rifles, handguns, shotguns, black powder and airguns used by target shooters.Then we look at the major shooting disciplines which I have grouped into:Part C - Target Rifle Disciplines – provides a short overview of each of the main target rifle disciplines, such as Fullbore, Smallbore, High Power, Benchrest and Air Rifle.Part D - Target Pistol and Gallery Disciplines – covers target pistol shooting on so-called Gallery ranges.Part E - Historic Arms Disciplines – introduces shooting with black powder and muzzleloader firearms.Part F - Military and Practical Disciplines – provides an introduction to disciplines involving service weapons and military-style competitions.Part G - Field Sports Disciplines – as the name suggests, target disciplines based around field sports, such as Clay Pigeon and Field Target (Air Rifle).And finally we cover:Part H - Shooting Techniques – introduces marksmanship with rifles, handguns, shotguns and airguns.Part I - Specialist Skills – a group of chapters introducing skills and knowledge, such as the correct cleaning of firearms, hand loading ammunition, and the selection and fitting of sights.We have tried to keep each 'chapter' as short as possible, and provide references to further information (especially on the

Web). More importantly we provide contact details for each of the target shooting disciplines. We hope you enjoy this handbook and it helps you get the most from target shooting.
