Bestselling author and master reader Cassandra Eason will guide you through this rich variety of spreads so you can get a more precise answer to your question. Address a lingering anxiety by laying down a 10-card Celtic Cross. Buying a house? About to undergo surgery? Confused by a flighty love interest? Look to this book for 1,001 different ways to draw and place cards that will give you clues about the future, context for the present, and insight into the past.

Easy Guide to the Tarot Dayanara Blue Star, 2015-03-02

The tarot is a pack of 78 playing cards used by mystics and occultists for foretelling the future as well as for giving you a peek into your spiritual and mental pathway. Tarot cards have existed since the mid-15th century in various parts of the European continent. However, at that point it was basically used to play card games, such as French tarot or the Italian tarocchini. The word itself is derived from the Italian word tarocchi, a word which has no known origin. Some believe that the word is related to the Taro River in northern Italy. Others believe that the word originated from an Arabic word, turuq, which means ways. The cards seem to have come from Mamluk, Egypt in the 14th century. At that point in time, the suits were Staves, Cups, Coins and Swords; quite similar to the suits that exist these days. In Europe, the first tarot card deck was created in Milan, Ferrara and Bologna in northern Italy. This was between the years 1430 and 1450. The original purpose of the tarot was to play games. In the 18th century, the tarot began to be

used for divination purposes. Manuscripts from the era reveal that there was a specific way of laying out the cards and there was a divinatory meaning associated with each card. The tarot has four suits, but this can vary depending on the region. Jean-Baptiste Alliette, popularly known as Etteilla, was the first to create a tarot deck especially for the purposes of divination. This 78-card deck has two distinct parts. Take advantage of this great opportunity to understand the tarot quickly and easily!

The Tarot Minor Arcana: Learning the cards without memorizing their meaning Antares Stanislas, 2016-09-22 Yet another work by Antares Stanislas, famous card reader and astrologer. The Tarot Minor Arcana: Learning the cards without memorizing their meaning. This book is the second integral part of the complete text of The Tarot, the prediction of the future, and is appropriate for those who just want to complete the part concerning the Minor Arcana. The text maintains its professionalism in its discussion of the concepts and sets the goal of bringing its readers into the world of the Tarot through a book that is easy to read. As always, the title is original for the author's works, because he, in his practice, receives invitations from his own clients and acquaintances to write works that fill the gap for those who want to practice or to go into this field. The problem with many, and by no means a secondary one, is that of memorizing the many meanings of the Tarot. The author has taken on the burden and the honor to help fill this gap. Following this book on the Minor Arcana is its correspondent volume on the Major Arcana. 109 pp.; second edition. Antares Stanislas has been an astrologer, card reader and researcher for over 20 years. Website: Astroamore2000.altervista.org
