K. Thor Jensen

After Ellen Datlow, Terri Windling, 2012-10-09 Some of the biggest names in YA and adult literature explore the lives of teen protagonists raised in catastrophe's wake—whether set soon after disaster or decades later. New York Times bestselling authors Gregory Maguire, Garth Nix, Susan Beth Pfeffer, Carrie Ryan, Beth Revis, and Jane Yolen are among the many popular and award-winning storytellers lending their talents to this original and spellbinding anthology.

X-rays, Gamma-rays United States. National Aeronautics and Space Administration, 1977

Ernie Tony Mendoza, 2001-02 With 55 black-and-white photos, this is an intimate look at the absurd shenanigans and perverse expressions of the author's cat Ernie, and is now back in print for the first time in years.

Technology and the Logic of American Racism Sarah E. Chinn, 2000-09-01 In this book, Sarah E. Chinn pulls together what seems to be opposite discourses--the information-driven languages of law and medicine and the subjective logics of racism--to examine how racial identity has been constructed in the United States over the past century. She examines a range of primary social case studies such as the American Red Cross' lamentable decision to segregate the blood of black and white donors during World War II, and its ramifications for American culture, and more recent examples that reveal the racist nature of criminology, such as the recent trial of O.J. Simpson. Among several key American literary texts, she looks at Mark Twain's *Pudd'nhead Wilson*, a novel whose

plot turns on issues of racial identity and which was written at a time when scientific and popular interest in evidence of the body, such as fingerprinting, was at a peak.

The Acid-Alkaline Food Guide - Second Edition

Susan E. Brown, Larry Trivieri, Jr., 2013-09-02 *** OVER 200,000 COPIES SOLD ***

In the last few years, researchers around the world have increasingly reported the importance of acid-alkaline balance. The Acid-Alkaline Food Guide was designed as an easy-to-follow guide to the most common foods that influence your body's pH level. Now in its Second Edition, this bestseller has been expanded to include many more domestic and international foods. Updated information also explores (and refutes) the myths about pH balance and diet, and guides the reader to supplements that can help the body achieve a healthy pH level. The Acid-Alkaline Food Guide begins by explaining how the acid-alkaline environment of the body is influenced by foods. It then presents a list of thousands of foods and their acid-alkaline effects. Included are not only single foods, such as fruits and vegetables, but also popular combination and even common fast foods. In each case, you'll not only discover whether a food is acidifying or alkalizing, but also learn the degree to which that food affects the body. Informative insets guide you in choosing the food that's right for you. The first book of its kind—now updated and expanded—The Acid-Alkaline Food Guide will quickly become the resource you turn to at home, in restaurants, and whenever you want to select a food that can help you reach your health and dietary goals.
