Technology Is Not Neutral Stephanie Hare, 2022-02-22 It seems that just about every new technology that we bring to bear on improving our lives brings with it some downside, side effect or unintended consequence. These issues can pose very real and growing ethical problems for all of us. For example, automated facial recognition can make life easier and safer for us - but it also poses huge issues with regard to privacy, ownership of data and even identity theft. How do we understand and frame these debates, and work out strategies at personal and governmental levels? *Technology Is Not Neutral: A Short Guide to Technology Ethics* addresses one of today's most pressing problems: how to create and use tools and technologies to maximize benefits and minimize harms? Drawing on the author's experience as a technologist, political risk analyst and historian, the book offers a

practical and cross-disciplinary approach that will inspire anyone creating, investing in or regulating technology, and it will empower all readers to better hold technology to account.

Woodwind Basics Bret Pimentel, 2021-11-09 Woodwind Basics: Core concepts for playing and teaching flute, oboe, clarinet, bassoon, and saxophone is a fresh, no-nonsense approach to woodwind technique. It outlines the principles common to playing all of the woodwind instruments, and explains their application to each one. The ideas in this book are critical for woodwind players at all levels, and have been battle-tested in university woodwind methods courses, private studios, and school band halls. Fundamental questions answered with newfound clarity include:- What should I listen for in good woodwind playing?- Why is breath support so important, and how do I do and teach it?- What is voicing? How does it relate to ideas like air speed, air temperature, and vowel shapes?- What things does an embouchure need to accomplish?- How can I (or my students) play better in tune?- What role does the tongue really play in articulation?- Which alternate fingering should I choose in a given situation?- How do I select the best reeds, mouthpieces, and instruments?- How should a beginner choose which instrument is the best fit? Woodwind Basics by Bret Pimentel is the new go-to reference for woodwind players and teachers.

Grand Dishes Iska Lupton, Anastasia Miari, 2021-03-04 This is not a book about what it's like to be

old. It's about what it's like to have lived. There is no food quite like a grandmother's time-perfected dish. Inspired by their own grandmothers – and the love they shared through the food they served – Anastasia Miari and Iska Lupton embarked on a mission: from Corfu to Cuba, Moscow to New Orleans, and many more in between, they set out to capture cooking methods, regional recipes and timeless wisdom from grandmothers around the world. The result is *Grand Dishes*, a journey across four years of cooking with the world's grandmothers, a preservation not just of recipes but of the stories – told through the dishes – that have seasoned these grandmothers' lives. Featured alongside are contributions from celebrated chefs and food writers, each with their own grandmother's recipe to share. Rich with the insight that age brings, elegant portraits, diverse recipes, and techniques unique to a region, a grandmother and her family, this is a book to pass down through generations.

New business models and control management architectures, as well as the

communication infrastructure required to integrate electric vehicles as active demand are presented. Finally, regulatory issues of integrating electric vehicles into modern power systems are addressed. Inspired by two courses held under the EES-UETP umbrella in 2010 and 2011, this contributed volume consists of nine chapters written by leading researchers and professionals from the industry as well as academia.

Searching for Whitopia Rich Benjamin, 2009-10-06 As America becomes more and more racially diverse, Rich Benjamin noticed a phenomenon: Some communities were actually getting less multicultural. So he got out a map, found the whitest towns in the USA -- and moved in. A journalist-adventurer, Benjamin packed his bags and embarked on a 26,909-mile journey throughout the heart of white America, to some of the fastest-growing and whitest locales in our nation. Benjamin calls these enclaves Whitopias. In this groundbreaking book, he shares what he learned as a black man in Whitopia. Benjamin's journey to unlock the mysteries of Whitopia took him from a three-day white separatist retreat with links to Aryan Nations in North Idaho to exurban mega-churches down South, and many points in between. A compelling raconteur, bon vivant, and scholar, Benjamin reveals what Whitopias are like and explores the urgent social and political implications of this startling phenomenon. Benjamin's groundbreaking study is one of few to have illuminated in advance the social and political forces propelling the rise of Donald Trump. After all, Trump carried 94 percent of America's Whitopian counties. And he won a median 67 percent of the vote in Whitopia compared to 46 percent of the vote nationwide. Leaving behind speculation or sensationalism, Benjamin explores the future of whiteness and race in an increasingly multicultural nation.

Night Soldiers Alan Furst, 2008-11-19 Bulgaria, 1934. A young man is murdered by the local fascists. His brother, Khristo Stoianev, is recruited into the NKVD, the Soviet secret intelligence

service, and sent to Spain to serve in its civil war. Warned that he is about to become a victim of Stalin's purges, Khristo flees to Paris. *Night Soldiers* masterfully re-creates the European world of 1934-45: the struggle between Nazi Germany and Soviet Russia for Eastern Europe, the last desperate gaiety of the beau monde in 1937 Paris, and guerrilla operations with the French underground in 1944. *Night Soldiers* is a scrupulously researched panoramic novel, a work on a grand scale.

Do It Like a Woman Caroline Criado-Perez, 2015-05-07 Doing anything 'like a woman' used to be an insult. Now, as the women in this book show, it means being brave, speaking out, and taking risks, changing the world one step at a time. Here, campaigner and journalist Caroline Criado-Perez introduces us to a host of pioneers, including a female fighter pilot in Afghanistan; a Chilean revolutionary; the Russian punks who rocked against Putin; and the Iranian journalist who uncovered her hair.

Butchered by Healthcare Robert Yoho, 2020-09 HOW YOU CAN SURVIVE HEALTHCARE, THE LARGEST AND MOST CORRUPT INDUSTRY IN AMERICA. ?? Learn what works. ? See through the lies. ? Handle hospitals. ? Find trustworthy doctors. ? Master your drugs and quit them with confidence. ? Consider holistic medicine. Healthcare is the top cause of all our overdue debts and personal bankruptcy. Our medical spending per person is double that of other countries', but fully half the treatments are ineffective or harmful. Immense, predatory industries such as angioplasty and coronary artery bypass surgery victimize us. These procedures cause complications and deaths, but few patients survive even a day longer. Most back and endoscopic knee surgeries are equally worthless. Seventy percent of us are on prescriptions, and 20 percent take over five. One in six uses psychiatric medicine, which commonly causes irreversible brain damage and premature death.

Millions are now addicted to prescription opioids. Fifty-thousand people die each year from overdoses. The FDA allows big Pharma to falsify the studies required to patent drugs. These corporations hire armies of ghostwriters to stuff websites and medical journal articles with marketing lies. Finding the truth is now nearly impossible. But all this gets overlooked as the companies pay billions of dollars in criminal settlements nearly every year. Money short-circuits everyone's integrity, but there is an alternative. Patients and doctors can still prevail. Learn the system, and you can too.
