Complex Age Yui Sakuma, 2017 A NEW BEGINNING With Kimiko out of the cosplay game, Nagisa is forced to confront her own feelings about the hobby she loves. Her mother arranges for her to meet someone who has been in Nagisa's shoes, and this woman challenges her to find where her passion truly lies, and discover where it can take her. Can Nagisa really cosplay forever, or will she be forced to abandon her dearest hobby? Final volume!

Intellectual Property Rights in China Zhenqing Zhang, 2018-12-25 Over the past three decades, China has transformed itself from a stagnant, inward, centrally planned economy into an animated, outward-looking, decentralized market economy. Its rapid growth and trade surpluses have caused uneasiness in Western governments, which perceive this growth to be a result of China's rejection of international protocols that protect intellectual property and its widespread theft and replication of Western technology and products. China's major trading partners, particularly the United States, persistently criticize China for delivering, at best, half-hearted enforcement of intellectual property rights (IPR) norms. Despite these criticisms, Zhenqing Zhang argues that China does respect international intellectual property rights, but only in certain cases. In *Intellectual Property Rights in China*, Zhang addresses the variation in the effectiveness of China's IPR policy and explains the mechanisms for the uneven compliance with global IPR norms. Covering the areas of patent, copyright, and trademark, Zhang chronicles how Chinese IPR policy has evolved within the legacy of a planned economy and an immature market mechanism. In this environment, compliance with IPR norms is the result of balancing two factors: the need for short-term economic gains that depend on violating others' IPR and the aspirations for long-term sustained growth that requires respecting others' IPR. In case studies grounded in theoretical analysis as well as interviews and fieldwork, Zhang demonstrates how advocates for IPR, typically cutting-edge Chinese companies and foreign IPR holders, can be strong enough to persuade government officials to comply with IPR norms to achieve the country's long-term economic development goals. Conversely, he reveals the ways in which local governments protect IPR infringers because of their own political interests in raising tax revenues and creating jobs.

The British Army Guide: 2012-2013 Charles Heyman, 2012-03-19 In 1984 the first edition of the British Army Guide was published and in May 2011 the 12th edition will be on sale. This invaluable information resource which deals with all aspects of British Army organization, recruitment and training, has been extremely popular with service personnel, the defense industry, military libraries and other groups who are interested in the British Army worldwide. Copies can be seen on desks throughout the UK Ministry of Defense and it would be fair to say that almost every foreign defense attach in London has a copy in his briefcase. Chapters include a Defense Overview; Army Organization; International Commitments; Armor, Infantry, Artillery, Army Aviation, Engineers, Communications and Combat Service Support; Units of the Army; Recruiting and Training; Reserve Forces plus a final Miscellaneous Chapter which deals with a number of items essential to understanding how the British Army functions on a daily basis. Lavishly illustrated throughout there is no comparable publication available on the market.

Changing the Food Game Lucas Simons, 2017-09-08 By 2050, the world's population is estimated to grow to 10 billion. To feed everyone, we will have to double our food production, to produce more food in the next 40 years than in the whole of the last 6,000. *Changing the Food Game* shows how our unsustainable food production system cannot support this growth. In this prescient book, Lucas Simons argues that the biggest challenge for our generation can only be solved by effective market transformation to achieve sustainable agriculture and food production. Lucas Simons explains clearly how we have created

a production and trading system that is inherently unsustainable. But he also demonstrates that we have reason to be hopeful – from a sustainability race in the cocoa industry to examples of market transformation taking place in palm oil, timber, and sugarcane production. He also poses the question: where next? Provocative and eye-opening, *Changing the Food Game* uncovers the real story of how our food makes it on to our plates and presents a game-changing solution to revolutionize the industry.

Liberalism at Large Alexander Zevin, 2021-03-23 The path-breaking history of modern liberalism told through the pages of one of its most zealous supporters In this landmark book, Alexander Zevin looks at the development of modern liberalism by examining the long history of the *Economist* newspaper, which, since 1843, has been the most tireless—and internationally influential—champion of the liberal cause anywhere in the world. But what exactly is liberalism, and how has its message evolved? *Liberalism at Large* examines a political ideology on the move as it confronts the challenges that classical doctrine left unresolved: the rise of democracy, the expansion of empire, the ascendancy of high finance. Contact with such momentous forces was never going to leave the proponents of liberal values unchanged. Zevin holds a mirror to the politics—and personalities—of *Economist* editors past and present, from Victorian banker-essayists James Wilson and Walter Bagehot to latter-day eminences Bill Emmott and Zanny Minton Beddoes. Today, neither economic crisis at home nor permanent warfare abroad has dimmed the *Economist's* belief in unfettered markets, limited government, and a free hand for the West. Confidante to the powerful, emissary for the financial sector, portal onto international affairs, the bestselling newsweekly shapes the world its readers—as well as everyone else—inhabit. This is the first critical biography of one of the architects of a liberal world order now under increasing strain.

Interaction in Educational Domains Kirsi Tirri, Elina Kuusisto, 2013-11-19 In this volume, we take a holistic approach to education, viewing human beings as lifelong learners who need interaction in all educational domains – cognitive, affective, psychomotor – to actualize their full potential. The chapters are based on presentations given at the 2012 conference of the Finnish Educational Research Association (FERA), whose theme was Interaction in Educational Research. Prof. David Clarke, from the University of Melbourne in Australia and the conference's keynote speaker, opens our symposium with a discussion of international comparative research in educational interaction by constructing and concealing differences. The chapters that follow, arranged in three parts, deal with interaction in cognitive, affective, and psychomotor domains. In Part I, theoretical and philosophical approaches to interaction are examined through ontological, epistemological, and semiotic perspectives. Part II presents a series of empirical studies on educational interaction. Together, these show regional differences in cognitive and psychomotor learning outcomes, the importance of academic emotions in learning, cultural aspects in understanding the visual arts, and interactive learning for gifted science students. Part III introduces three programs that promote educational interaction: one enhances teacher education with interdisciplinary integration; another explores the benefits of Finnish-Russian cooperation; and a third uses musical concerts as an interactive tool for special education. All of the chapters contribute to the current research and discussion on learning and interaction. In this field inquiries need to be carried out in different learning domains and in various cultural contexts. In particular, cross-cultural comparisons are useful in validating the findings of empirical studies and testing the culture-dependent and culture-invariant dimensions of educational interaction.

The Inevitable City Scott Cowen, Betsy Seifter, 2014-06-10 The president of Tulane University traces the story of New Orleans' inspiring rebuild after Hurricane Katrina, describing how civic, business and nonprofit leaders worked together to restore and improve the city in ways that can inform other cities recovering from disasters. 35,000 first printing.

Taylor's 7th Teaching and Learning Conference 2014 Proceedings Siew Fun Tang, Loshinikarasi Logonnathan, 2015-06-01 These conference proceedings showcase a rich and practical exchange of approaches and vital evidence-based practices taking place around the world. They clarify the complex challenges involved in bringing about a holistic educational environment in schools and institutes of higher learning that fosters greater understanding and offer valuable insights on how to avoid the pitfalls that come with rolling out holistic approaches to education. To do so, the proceedings focus on the subthemes Support and Development, Mobility and Diversity and Networking and Collaboration in Holistic Education.

Blackstone's Civil Practice 2013 Prof Stuart Sime, Derek French, 2012-09-20 Providing detailed commentary of unrivalled quality on the process of civil litigation, this is the only major civil work to adopt a narrative approach based on the chronology of a claim. Written by a team of expert practitioners and academics, it provides authoritative analysis on the process of civil litigation from commencement of a

claim to enforcement of judgments, addressing civil procedure in the county courts, the High Court, the Court of Appeal, and the Supreme Court. The book also considers more specialist matters such as insolvency proceedings, sale of goods, and human rights, providing expert analysis on a comprehensive level. Commentary is combined with the text of the Civil Procedure Rules (CPR), Practice Directions (PD), and Pre-Action Protocols and Procedural Checklists, all fully cross-referenced to the text to ensure ease of use for the busy practitioner. As well as a detailed and user-friendly index the quick-reference guide inside the front cover provides an alternative point of access for those more familiar with the CPR. Also available, Blackstone's Civil Practice: The Commentary 2013 is a concise new book providing the unique commentary independently from the CPR, PD and other appendix materials. Electronic versions of the Procedural Checklists in Blackstone's Civil Practice 2013 are available from IRIS Laserform.

Towards Green Campus Operations Walter Leal Filho, Fernanda Frankenberger, Patricia Iglecias, Roberta Consentino Kronka Mülfarth, 2018-05-14 Matters related to sustainable development, albeit global in nature, are best handled at the local level. This line of thinking is particularly true to the higher education context, where the design and implementation of sustainability initiatives on campuses can demonstrate how a given university translates the principles of sustainable development into practice, at the institutional level. Yet, there is a paucity of specific events where a dialogue among sustainability academics and practitioners concerned with a) research, projects b) teaching and c) planning and infrastructure leading to campus greening takes place, so as to allow a transdisciplinary and cross-sectoral exchange of ideas and experiences on the issues, matters and problems at hand. It is against this background that this book has been prepared. It is one of the outcomes of the “First Symposium on Sustainability in University Campuses” (SSUC-2017) organised by the University of São Paulo in Brazil, Manchester Metropolitan University (UK), the Research and Transfer Centre “Applications of Life Sciences” of the Hamburg University of Applied Sciences (Germany), and the Inter-University Sustainable Development Research Programme (IUSDRP). This book showcases examples of campus-based research and teaching projects, regenerative campus design, low-carbon and zero carbon buildings, waste prevention, and resilient transport, among others. It also demonstrates the role of campuses as platforms for transformative social learning and research, and explores the means via which university campuses can be made more sustainable. The aims of this publication are as follows: i. to provide universities with an opportunity to obtain information on campus greening and sustainable campus development initiatives from round the world; ii. to document and promote information, ideas and experiences acquired in the execution of research, teaching and projects on campus greening and design, especially successful initiatives and good practice; iii. to introduce methodological approaches and projects which aim to integrate the topic of sustainable development in campus design and operations. This book entails contributions from researchers and practitioners in the field of campus greening and sustainable development in the widest sense, from business and economics, to arts, administration and environment.

Father, Son, and Constitution Alexander Wohl, 2013-04-30 When Supreme Court Justice Tom Clark resigned his seat on the bench at the youthful age of 67 after 18 years, his decision was unique in the annals of Court history: he was leaving so that his son Ramsey, just nominated as Attorney General, could assume the job Clark himself had once held without conflict of interest. As Alexander Wohl shows, Tom and Ramsey Clark had a profound impact on American law and society. For nearly three quarters of a century, they influenced presidents, policies, and legal rulings, during careers that tracked closely with some of the most significant and controversial episodes in modern American history. Highlighting their consistent effort to balance individual liberties with government power, Wohl examines how their work reflected the

tensions that continue to resonate in today's legal and policy battles. The two men, however, evolved quite differently. As a young government lawyer, Tom Clark was a key figure in enforcing the relocation of Japanese Americans, and as Attorney General he was vilified by civil liberties advocates for the Cold War policies he implemented, even as he promoted a progressive strategy on civil rights. Ramsey began his career to the ideological left of his father, was intimately involved in enforcement of civil rights laws during the turbulent 1960s, as Attorney General fought to expand protections of individual rights, and as a private attorney represented clients on the farthest reaches of the individual rights-government power spectrum. A unique approach for understanding our nation's history during the second half of the twentieth-century, Wohl's study addresses such salient issues as civil rights, free speech, government surveillance and rights of privacy, presidential power, and the role of judges in interpreting the Constitution. The Clarks' lives and careers also offer a veritable who's who of 20th-century American law and policy: from Tom's close relationships with Harry Truman, Lyndon Johnson, Sam Rayburn, and Earl Warren, to Ramsey's connections with Robert Kennedy, LBJ, and Martin Luther King Jr. Both men befriended and battled J. Edgar Hoover and both were targets of political attack—twenty years apart—by Richard Nixon. At its fundamental core, however, Wohl's book presents a moving and intimate portrait of a unique father-son relationship that endured through triumph and tribulation and that should appeal to anyone interested in how the personal and the political intertwine in a highly public setting.

Globalization and Transnational Capitalism in Asia and Oceania Jeb Sprague, 2015-12-15 News headlines warn of rivalries and competing nations across Asia and the Pacific, even as powerful new cross-border relations form as never before. This book looks behind the Asia-Pacific curtain: at the new forms of social, economic, and political integration taking place through a global capitalism that is rife with contradictions, inequality, and crisis. We are moved beyond traditional conceptualizations of the inter-state system with its nation-state competition as the core organizing principle of world capitalism and the principal institutional framework that shapes the makeup of global social forces. These important studies examine and debate over how there is a growing transnationality of material (economic) relations in the global era, as well as an emerging transnationality of many social and class relations. How does transnational capitalist class fractions, new middle strata, and labor undergird globalization in Asia and Oceania? How have states and institutions become entwined with such processes? This book provides insight into a field of dynamic change.

Black Hawks Rising Opiyo Oloya, 2016-07-19 “Black Hawks Rising” tells the story of the formation and deployment of the African Union Mission to Somalia (AMISOM) in March 2007. Initially confined to peacekeeping within the Mogadishu enclave, it transformed into a peace-making mission. Many - including the author, who predicted the mission was DOA (Dead on Arrival) - gave the mission little chance of success. As a fighting force, however, AMISOM took on the Somali insurgents in 2010; expelled them from Central Mogadishu on Saturday, 6 August 2011; and expanded control of territory under the Somali Government in the succeeding years to most of Somalia. The opening chapters of the book take the reader behind the scenes to highlight the inconsistent - and sometimes disastrous - US policy in the Horn of Africa generally, and in Somalia (specifically dating back to the Kennedy administration in the early 1960s). Under President George Bush, the US strongly and vigorously opposed deployment of regional African troops in Somalia - instead sponsoring Somali factions to fight against each other and, when that flopped, egged on Ethiopia to invade Somalia in December 2006, which caused the rise of violent insurgency that spilled across borders. Young jihadists streamed from the heart of USA to fight the invaders. To clean up the mess, the Bush administration finally supported the deployment of regional troops. **Black Hawks Rising**

captures intimately the stories of the men and women who made up AMISOM: their triumphs, setbacks and victories. The spotlight focuses on the Uganda People's Defence Forces (UPDF), whose Herculean efforts supported by Burundi National Defence Forces (BNDF) - and later the Kenya Defence Forces (KDF), Forces Armées Djiboutiennes (FAD), Ethiopian National Defence Forces (ENDF) and Republic of Sierra Leone Armed Forces (RSLAF) - were pivotal to the success of the mission. Their dedication, professionalism, ideological commitment, hard work and humanity turned Somalia from a wasted nation to one with hope for peace, stability and a better future for the Somali people. Like Heru - the Hawk-God of Ancient Egypt - AMISOM's new breed of African peace-warriors have demonstrated the capacity to work across borders regionally, continent-wide and globally to help resolve conflicts whenever and wherever they arise - protecting lives and property, and preventing genocides before they happen.

Blackstone's Civil Practice 2013: The Commentary Prof Stuart Sime, Derek French, 2012-09-20 Adopting a distinctive narrative approach based on the chronology of a claim, Blackstone's Civil Practice 2013: The Commentary provides authoritative guidance on the process of civil litigation from commencement of a claim to enforcement of judgments. It addresses civil procedure in the county courts, the High Court, the Court of Appeal, and the Supreme Court as well as more specialist matters such as insolvency proceedings, sale of goods, and human rights, providing expert analysis on a comprehensive level. The narrative commentary is supported by the comprehensive Blackstone's Civil Practice 2013 Procedural Checklists. 38 Procedural Checklists summarize the steps to be taken, and include invaluable information on documentation, time limits, and required actions, as well as applicable Civil Procedure Rules (CPR) and Practice Directions (PD) in a concise format to provide an additional research tool. Straightforward navigation is ensured by a detailed and user-friendly index as well as a quick-reference guide inside the front cover, providing an alternative point of access for those more familiar with the CPR. Written by a team of expert practitioners and academics, it is an ideal tool for those requiring quality and in-depth analysis. The text is fully referenced to the CPR and PD making the book easy to use alongside other sources at your desk as well as in court. Turn to Blackstone's for reliable commentary from a team of experts on unfamiliar points of procedure and all your research needs. You may be interested to know that The Commentary is directly taken from the established full service volume, Blackstone's Civil Practice 2013 which includes the text of the CPR and PD, Pre-Action Protocols, selected legislation, and court fees orders. Electronic versions of the Procedural Checklists in Blackstone's Civil Practice 2013 are available from IRIS Laserform.

The Political Economy of Kidnapping and Insecurity in Nigeria J. Shola Omotola,

Think Again Sydney Finkelstein, Jo Whitehead, Andrew Campbell, 2009-02-03 Why do smart and experienced leaders make flawed, even catastrophic, decisions? Why do people keep believing they have made the right choice, even with the disastrous result staring them in the face? And how can you be sure you're making the right decision--without the benefit of hindsight? Sydney Finkelstein, Jo Whitehead, and Andrew Campbell show how the usually beneficial processes of the human mind can become traps when we face big decisions. The authors show how the shortcuts our brains have learned to take over millennia of evolution can derail our decision making. Think Again offers a powerful model for making better decisions, describing the key red flags to watch for and detailing the decision-making safeguards we need. Using examples from business, politics, and history, Think Again deconstructs bad decisions, as they unfolded in real time, to show how you can avoid the same fate.

Lord Mansfield Norman S. Poser, 2013-09-01 In the first modern biography of Lord Mansfield (1705-1793), Norman Poser details the turbulent political life of eighteenth-century Britain's most powerful

judge, serving as chief justice for an unprecedented thirty-two years. His legal decisions launched England on the path to abolishing slavery and the slave trade, modernized commercial law in ways that helped establish Britain as the world's leading industrial and trading nation, and his vigorous opposition to the American colonists stoked Revolutionary fires. Although his father and brother were Jacobite rebels loyal to the deposed King James II, Mansfield was able to rise through English society to become a member of its ruling aristocracy and a confidential advisor to two kings. Poser sets Mansfield's rulings in historical context while delving into Mansfield's circle, which included poets (Alexander Pope described him as his country's pride), artists, actors, clergymen, noblemen and women, and politicians. Still celebrated for his application of common sense and moral values to the formal and complicated English common law system, Mansfield brought a practical and humanistic approach to the law. His decisions continue to influence the legal systems of Canada, Britain, and the United States to an extent unmatched by any judge of the past. An illuminating account of one of the greatest legal minds, Lord Mansfield presents a vibrant look at Britain's Age of Reason through one of its central figures.
