*The Vegetarian's Guide to Eating Meat* Marissa Landrigan, 2017-04-29 Growing up in a household of food-loving Italian-Americans, Marissa Landrigan was always a black sheep—she barely knew how to boil water for pasta. But at college, she thought she'd found her purpose. Buoyed by animal rights activism and a feminist urge to avoid the kitchen, she transformed into a hardcore vegan activist, complete with shaved head. But Landrigan still hadn't found her place in the world. Striving to develop her career and maintain a relationship, she criss-crossed the U.S. Along the way, she discovered that eating ethically was far from simple—and cutting out meat was no longer enough. As she got closer to the source of her food, eventually even visiting a slaughterhouse and hunting elk, Landrigan realized that the most ethical way of eating was to know her food and prepare it herself, on her own terms, to eat with family and friends. Part memoir and part investigative journalism, *The Vegetarian's Guide to Eating Meat* is as much a search for identity as it is a fascinating treatise on food.

Go Public! Susanne Rubenstein, 1998 This book is intended for middle and high school teachers who are committed to the process-writing model and are eager to encourage their students in the last step of the process--publication. The book offers specific writing ideas and classroom activities that help students develop the confidence and ability to publish in a wide market, and it features an extensive list of commercial markets and writing contests open to young writers. The book also addresses the issue of evaluation and guides teachers in turning their classrooms into writing communities whose members work together to recognize and reward each writer. This book can serve as a handy reference guide to publishing opportunities for students (a comprehensive appendix lists nearly 150 publishing opportunities for young writers) and as a useful collection of writing ideas that teachers can use within their established English/language arts curriculum. Appendixes include: a comprehensive 150-item list of publishing opportunities--the Market and Control lists; electronic submissions; resources of technical advice for young writers; and sample formats for cover letters and manuscripts. The Other End of the Leash Patricia McConnell, Ph.D., 2009-02-19 Learn to communicate with your dog—using their language “Good reading for dog lovers and an immensely useful manual for dog owners.”—The Washington Post An Applied Animal Behaviorist and dog trainer with more than twenty years' experience, Dr. Patricia McConnell reveals a revolutionary new perspective on our relationship with dogs—sharing insights on how “man's best friend” might interpret our behavior, as well as essential advice on how to interact with our four-legged friends in ways that bring out the best in them. After all, humans and dogs are two entirely different species, each shaped by its individual evolutionary heritage. Quite simply, humans are primates and dogs are canids (as are wolves, coyotes, and foxes). Since we each speak a different native tongue, a lot gets lost in the translation. This marvelous guide demonstrates how even the slightest changes in our voices and in the ways we stand can help dogs understand what we want. Inside you will discover: • How you can get your dog to come when called by acting less like a primate and more like a dog • Why the advice to “get dominance” over your dog can cause problems • Why “rough and tumble primate play” can lead to trouble—and how to play with your dog in ways that are fun and keep him out of mischief • How dogs and humans share personality types—and why most dogs want to live with benevolent leaders rather than “alpha wanna-bes!” Fascinating, insightful, and compelling, *The Other End of the Leash* is a book that strives to help you connect with your dog in a completely new way—so as to enrich that most rewarding of relationships.

*Tales of the San Francisco Cacophony Society* Kevin Evans, John Law, Carrie Galbraith, 2019-06-27 A template for pranksters, artists, adventurers and anyone interested in rampant creativity, this is the history of the most influential underground cabal that has never been exposed by the mainstream media. Rising from the ashes of the mysterious and legendary Suicide Club, the Cacophony Society at its zenith hosted chapters in most major US cities and influenced much of what was once called the 'underground'. Packed with original art, never before published photographs, original documents and incredulous news stories this is an homage to the San Francisco group.

Born and raised in West Philadelphia, Kareem thought he and his siblings would always be stuck in “The Bottom”, a community and neighborhood devastated by poverty and violence. Riding their bicycles through Philly's Fairmount Park, Kareem's brothers discover a barn full of horses. Noticing the brothers' fascination with her misfit animals, Lezlie Hiner, founder of The Work to Ride stables, offers them their escape: an after school job in exchange for riding lessons. What starts as an accidental discovery turns into a love for horseback riding that leads the Rossers to discovering their passion for polo. Pursuing the sport with determination and discipline, Kareem earns his place among the typically exclusive players in college, becoming part of the first all-Black national interscholastic polo championship team—all while struggling to keep his family together. Crossing the Line: A Fearless Team of Brothers and the Sport That Changed Their Lives Forever is the story of bonds of brotherhood, family loyalty, the transformative connection between man and horse, and forging a better future that comes from overcoming impossible odds.

Edge of the Map Johanna Garton, 2020-04-01 Edge of the Map is equal parts inspiring, dramatic, and heartbreaking. One of America's greatest high altitude mountaineers, Christine Boskoff was at the top of her career when she and her partner died in an avalanche in 2006. Charismatic, principled, and humble, Boskoff was also a deeply loved role model to her climbing partners and the Sherpa community. Edge of the Map traces the sharp twists and turns in Boskoff's life, from her early years as a Lockheed engineer, through her first successes in the climbing world, to her purchase of Seattle-based Mountain Madness after owner and climber Scott Fischer died in the 1996 Everest disaster. Her life was one of constant achievement mixed with personal tragedy. The story follows Boskoff as she perseveres and moves on to even bigger peaks, earning acclaim as a world-class mountaineer, then later as she finds an alpine partnership with legendary Colorado climber Charlie Fowler.

*The Road to San Donato* Robert Cocuzzo, 2019-08-30 The Road to San Donato is an adventurous travel memoir of an American father and son tracing their Italian heritage by bicycle. With only the bare essentials on their backs, author Robert Cocuzzo and his sixty-four-year-old father, Stephen, embark on a torturous 425-mile ride from Florence, Italy, to San Donato Val di Comino, an ancient village hidden in the Apennine mountains from which their family emigrated a hundred years earlier. After getting lost, beaten down, and very nearly stranded, when they finally reach the village the Cocuzzos discover so much more than their own family story. For many Jews in the 1940s, the road to San Donato was one of exile; during World War II, dozens were interned in the village. When the Nazis came to ship them off to death camps, however, many of the villagers went to heroic lengths to save their lives. Walking and pedaling through this history, Robert Cocuzzo is determined to learn the role his family played at the time. The Road to San Donato is a story of fathers and sons, discovering lost cousins, valorous history, and the challenge and exhilaration of traveling by bicycle.

**Arctic Solitaire** Paul Souders,2018-09-01 Photographer Paul Souders considered himself a lucky guy. He traveled the world and got paid to take pictures. Yet at age fifty he seemed an unlikely explorer. Recently married, he was leading a generally contented life as an urban homebody, ending most days with a cold martini and a home-cooked meal. So how did he find himself alone aboard a tiny boat, enduring bad weather and worse cooking, while struggling to find his way across more than a thousand miles of Hudson Bay? It was all for a picture. He dreamed of photographing the Arctic's most iconic animal, the polar bear, in its natural habitat. It was a seemingly simple plan: Haul a 22-foot fishing boat northeast a few thousand miles, launch, and shoot the perfect polar bear photo. After an inauspicious start and endless days spent driving to the end of northern Canada's road system, he backed his C-Dory, C-Sick, into a small tributary of Hudson Bay. Battered by winds and plagued by questionable navigation, Paul slowly motored C-Sick north in the hopes of finding the melting summer ice that should be home to more than a thousand polar bears. He struggled along for weeks, grounding on rocks, hiding from storms, and stopping in isolated Inuit villages, until finally, he found the ice and the world was transformed. The ice had brought hundreds of walrus into the bay and dozens of polar bears arrived to hunt and feed. For a few magical days, he was surrounded by incredible wildlife photo ops . He was hooked. A hilarious and evocative misadventure, Arctic Solitaire shares Paul Souders exploits across four summers, six hundred miles of a vast inland sea, and the unpredictable Arctic wilderness--and also offers an insightful look at what compels a person to embark on adventure. The accompanying images of the landscape, people, and wildlife of the remote Hudson Bay region are, in a word, stunning.

Dragons in the Snow Ed Power,2020-08-12 Edward Power sets the reader down in the midst of a February 2017 blizzard that raked Utah's Uinta Range as nine snowboarders made their way into the backcountry for a day of intense adventure. As the boarders were taking their first turns, expert avalanche forecaster Craig Gordon was tracking the storm and its impact, posting one of the most dire avalanche forecasts and warnings in his career. In Dragons in the Snow, Power delves into the research and science behind avalanche forecasting and rescue, weaving in the art of backcountry skiing as well as dramatic tales of avalanche accidents, rescues, and recoveries. And he paints compelling portraits of the men and women who have made the study of avalanches their life's work. The tales told by these avalanche forecasters, as well as the stories of the backcountry riders who may wake the dragon make for not just a compelling read, but also a powerful tool for raising avalanche awareness in everyone who plays in the winter backcountry.

But this year, Toby Harbinger, a regular kid with Discount Warehouse shoes, is determined to win the \$5,000 prize-even if he has to go up against terrorists to do it. With the help of his best friends, Tamara and Micah, Toby takes on Assistant Principal Paul Parmit, aka The Armpit, a laser-eyed stuffed owl, and two eBay buyers named Darth and the Wookiee who seem to think that the Harrison-Ford-signed BlasTech DL-44 blaster Toby sold them is a counterfeit. What transpires is a hilarious adventure filled with mystery, suspense, and levitating frogs.

This ensemble story unfolds as these half-dozen hikers--including Barney and his wife, Sandy--trode north, slowly forming relationships and revealing their deepest secrets and aspirations. They face a once-in-a-generation drought and early severe winter storms that test their will in this bare-knuckled adventure. How will these very different hikers, ranging in age, gender, and background, respond to the hardship and suffering ahead of them? **All My Rivers are Gone** Katie Lee,1998 David Brower, who has always regretted the Sierra Club's failure to save the Glen Canyon, called it The Place No One Knew. But Katie Lee was among a handful of men and women who knew the 170 miles of Glen Canyon very well. She'd made sixteen trips down the river, even named some of the side canyons. Glen Canyon and the river that ran through it had changed her life. Her descriptions of a magnificent desert oasis and its rich archaeological ruins are a paean to paradise lost.In 1963, the U.S. Government's Bureau of Reclamation (the Wreck-the-nation bureau, Katie calls it) shut off the flow of the Colorado River at Glen Canyon Dam, beginning the process of flooding this natural treasure. Two generations have been born since the dam was built, and in a few more decades there may be no one alive who will have known the place. Katie Lee won't forget Glen Canyon, and she doesn't want anyone else to forget it either. She tells us what there was to love about Glen Canyon and why we should miss it. The canyon had great personal significance for her: She had gone to Hollywood to make her career as an actress and a singer, but the river kept calling her back, showing her a better way to live. She very eloquently weaves her personal story into her breathtaking descriptions of the trips she made down the canyon.In recent years, Katie has found allies in her struggle to restore the canyon. The Glen Canyon Institute has been joined by the Sierra Club in calling for the draining of Lake Powell (Rez Foul, in Katie's words), and the idea is being debated on editorial pages across the country and in congressional hearings. All My Rivers Are Gone celebrates a great American landscape, mourns its loss, and challenges us to undo the damage and forever prevent such mindless destruction in the future.
