Stewart Anderson

German Television Larson Powell, Robert Shandley, 2016-08-01 Long overlooked by scholars and critics, the history and aesthetics of German television have only recently begun to attract serious, sustained attention, and then largely within Germany. This ambitious volume, the first in English on the subject, provides a much-needed corrective in the form of penetrating essays on the distinctive theories, practices, and social-historical contexts that have defined television in Germany. Encompassing developments from the dawn of the medium through the Cold War and post-reunification, this is an essential introduction to a rich and varied media tradition.

The Development of Television into a Mass Medium from 1945 to 1960 and its Influence on Society Franziska Schüppel, 2012-12-28 Seminar paper from the year 2010 in the subject American Studies - Culture and Applied Geography, grade: 1,7, University of Leipzig (Philologische Fakultät), language: English, abstract: 1. Internet Protocol Television in Germany - Analysing Business Models for

Market Success Nikolas Fritz, 2008-12-12 Bachelor Thesis from the year 2008 in the subject Business economics - Marketing, Corporate Communication, CRM, Market Research, Social Media, grade: 86 %, Cologne Business School K ln, 57 entries in the bibliography, language: English, abstract: The medium Television in Germany looks back on a more than 70-years old history. Since the first regular television programme was broadcasted in 1935 - which has been the first worldwide - television was subject of permanent change. Broadcasting and recording techniques, end devices, public perception and acceptance and content developed significantly over the decades. Starting with a single channel broadcasting black and white free-to-air, today consumers with the proper equipment can receive hundreds or even thousands of different channels that serve every imaginable need. Free-to-air broadcasting was little by little replaced by cable and satellite broadcasting, starting in 1983 respectively in 1988. Hand in hand with the digitisation era a new medium arose in the 1990's: broadcasting via the internet. Due to high bandwidth requirements this distribution channel developed slowly. Even nowadays this represents the bottleneck of the potential TV of the future, called Internet Protocol Television (IPTV). However, IPTV has yet earned an early round of applause which is legitimated by the numerous advantages it offers for the consumer as well as for the distributor, content provider and advertiser.

A European Affair - a Comparison of 1950's Dutch and German Television Dirk

Schmelz, 2007-08 Master's Thesis from the year 1995 in the subject Communications - Media History, grade: A-, University of Amsterdam (Film, Theater), 200 entries in the bibliography, language: English, abstract: Die in englisch verfasste Arbeit gibt einen Überblick über die Anfänge des Fernsehens in den 50er Jahren in den Niederlanden und in Deutschland und zieht anhand von demographischen, politischen, gesellschaftlichen, soziologischen und technischen Aspekten einen Vergleich, um die Frage zu beantworten, was die frühe Entwicklung des Fernsehens maßgeblich bestimmt hat. Zusätzlich sind viele zeitgenössische einmalige Quellen enthalten.

Entertaining German Culture Stephan Ehrig, Benjamin Schaper, Elizabeth Ward, 2023-08-11 Audiences for contemporary German film and television are becoming increasingly transnational, and depictions of German cultural

history are moving beyond the typical post-war focus on German's problematic past. *Entertaining German Culture* explores this radical shift, building on recent research into transnational culture to argue that a new process of internal and external cultural reabsorption is taking place through areas of mutually assimilating cultural exchange such as streaming services, an increasingly international film market, and the import and export of Anglo-American media formats.

Envisioning Socialism Heather Gumbert, 2014-02-10 *Envisioning Socialism* examines television and the power it exercised to define the East Germans' view of socialism during the first decades of the German Democratic Republic. In the first book in English to examine this topic, Heather L. Gumbert traces how television became a medium prized for its communicative and entertainment value. She explores the difficulties GDR authorities had defining and executing a clear vision of the society they hoped to establish, and she explains how television helped to stabilize GDR society in a way that ultimately worked against the utopian vision the authorities thought they were cultivating. Gumbert challenges those who would dismiss East German television as a tool of repression that couldn't compete with the West or capture the imagination of East Germans. Instead, she shows how, by the early 1960s, television was a model of the kind of socialist realist art that could appeal to authorities and audiences. Ultimately, this socialist vision was overcome by the challenges that the international market in media products

and technologies posed to nation-building in the postwar period. A history of ideas and perceptions examining both real and mediated historical conditions, *Envisioning Socialism* considers television as a technology, an institution, and a medium of social relations and cultural knowledge. The book will be welcomed in undergraduate and graduate courses in German and media history, the history of postwar Socialism, and the history of science and technologies.

A Dramatic Reinvention Stewart Anderson, 2020-04-09 Following World War II, Germany was faced not only with the practical tasks of reconstruction and denazification, but also with the longer-term mission of morally “re-civilizing” its citizens—a goal that persisted through the nation’s 1949 split. One of the most important mediums for effecting reeducation was television, whose strengths were particularly evident in the thousands of television plays that were broadcast in both Germanys in the 1950s and 1960s. This book shows how TV dramas transcended state boundaries and—withstanding the ideological differences between East and West—addressed shared issues and themes, helping to ease viewers into confronting uncomfortable moral topics.

The Reorganisation of Radio and Television in Germany's Five New Federal States Hermann Meyn, 1992

Reich TV Jeff Pearce, 2011 The Germans had television in the early years of the Hitler regime. Now see what happens when TV changes the history of Nazi

Germany and World War Two! The BBC has lured the Marx Brothers away from America to London so they can perform a variety show each week that's transmitted all the way into Berlin. Their producer is the young, hard-drinking, womanizing Dylan Thomas, who goes from hating foreign politics to being obsessed with stopping the Nazis. Meanwhile, on the night of the Reichstag Fire, young English correspondent George Orwell manages to explore the ruins and makes a startling discovery: the burned bodies of five men handcuffed together, one of them a Brown Shirt and another a high-ranking army officer. Orwell has to team up with a roving band of pirate signal broadcasters to expose the truth about the fire-and the secret of a terrifying new weapon in Nazi hands. Espionage, murder, sabotage and betrayal. They'll all be exposed on Reich TV, culminating in the most sensational trial of the century.
