AIR ASIA Massimo Morello,2020-01-15 It's hard to understand Asia. Glimpses of it can be gained by giving in to the sensations it arouses, without trying too hard to find an explanation. Like meditation, following the flow of the breath. This is still a place of hidden, if not invisible, presences that can rise up or be generated by the breath of wind, or dissolve the thoughts you had in your mind like wisps of cloud vanishing on the breeze. In that instant, sensations and intuitions often take the shape of a symbol.

February: Within hours of the outbreak, the quarantine was sabotaged. Within days, the world was gripped by civil war. March: When the lights finally went out, billions were dead. Millions more had joined the ranks of the undead. May: Anglesey has become home to nearly ten thousand survivors from across the Atlantic. Sergeant Branofski and Chester Carson venture into northern Wales to set up a network of safe houses that will provide a route to Anglesey for those still trapped in the wasteland. Though they find survivors, they discover something far worse. September: Nowhere is safe from the living dead, not even The Tower of London. The ancient fortress has become home to nearly a hundred people. Food is scarce and the undead are many. The survivors are doomed unless help can be found, but the only place it can come from is Anglesey. Eamonn Finnegan sets out alone to seek their salvation. He never reaches Wales. November: In her heart, Greta knows that Eamonn is dead, yet she has to look for her lost love because he would look for her. Chester joins her in the futile quest to ensure the search doesn't cost Greta her life. Before their journey has barely begun, they discover an old foe that they thought was dead. Horror Films of 2000-2009 John Kenneth Muir,2023-03-22 Horror films have always reflected their audiences' fears and anxieties. In the United States, the 2000s were a decade full of change in response to the 9/11 terrorist attacks, the contested presidential election of 2000, and the wars in Iraq and Afghanistan. These social and political changes, as well as the influences of Japanese horror and New French extremism, had a profound effect on American horror filmmaking during the 2000s. This filmography covers more than 300 horror films released in America from 2000 through 2009, including such popular forms as found footage, torture porn, and remakes. Each entry covers a single film and includes credits, a synopsis, and a lengthy critical commentary. The appendices include common horror conventions, a performer hall of fame, and memorable ad lines.

The Wayfinders Wade Davis,2009 Many of us are alarmed by the accelerating rates of extinction of plants and animals. But how many of us know that human cultures are going extinct at an even more shocking rate? While biologists estimate that 18 percent of mammals and 11 percent of birds are threatened, and botanists anticipate the loss of 8 percent of flora, anthropologists predict that fully 50 percent of the 7,000 languages spoken around the world today will disappear within our lifetimes. And languages are merely the canaries in the coal mine: what of the knowledge, stories, songs, and ways of seeing encoded in these voices? In *The Wayfinders*, Wade Davis offers a gripping and enlightening account of this urgent crisis. He leads us on a fascinating tour through a handful of indigenous cultures, describing the worldviews they represent and reminding us of the encroaching danger to humankind's survival should they vanish.

The Sexiest Elbows I'd Ever Seen David Hadley,2015-03-14 When we first met she was Emeritus Professor of Post-Colonial Marmalade at the University of Ffestiniog, and she had the sexiest elbows I had ever seen. We met at the Annual Ffestiniog Tapioca-Ignoring Convention, back in the late summer of '83. At the time neither of us had a Tapioca-Ignoring partner, so naturally – once we found our handicaps were compatible – we teamed up for that autumn's preliminary Tapioca-Ignoring Cup rounds. Of course, with both of us being amateurs we never expected to get to the finals. Her name was Plenitude Cleavage and she came from the Welsh valleys, in fact she had quite a Welsh valley herself, never in my experience had I ever seen such a splendid example of nominative determinism in a woman's body before [...] So, begins one of the greatest love stories of our age told here for the first time. A tale of adventure and excitement within a forgotten temple of one of the world's oldest forgotten civilisations. 'The Famed Vegetable Killer of Grimsby'. Murder most foul. Some claim there are aliens out there, waiting to invade Earth. Some say this has already happened. Plus other stories, such as: 'Feeling

Betrayed', 'The Aftermath', 'The Perfect Woman' and others the like of which you will never have read before.

Uneasy Dreams Gary A. Smith,2015-09-03 There has been a tremendous amount of renewed interest in the output of Britain’s Hammer Films. But there remain a great number of worthwhile British horror films, made at the same time by other companies, that have received little attention. The author provides a comprehensive listing of British horror films—including science fiction, fantasy, and suspense films containing horror-genre elements—that were released between 1956 and 1976, the “Golden Age” of British horror. Entries are listed alphabetically by original British title, from Vincent Price in The Abominable Dr. Phibes (1971) to Zeta One (1969). Entries also include American title, release information, a critique of the film, and the film’s video availability. The book is filled with photographs and contains interviews with four key figures: Max J. Rosenberg, cofounder of Amicus Productions, one of the period’s major studios; Louis M. Heyward, former writer, film executive and producer; Aida Young, film and television producer; and Gordon Hessler, director of such films as The Oblong Box and Murders in the Rue Morgue.
