Triple Shot A.R. Knight,2017-10-31 A few drinks, a couple unexpected murders, and now Davin and his crew are the most wanted band in the Solar System. Running security on an isolated Europa outpost should have been easy, but when a surprise inspection puts Davin and the Wild Nines on the wrong side of both the law and the lawbreakers, the mercenary crew has to fight and fly with all they've got to stay alive. Soon Davin's making deals and blasting double-crossers as he tries to uncover the plot behind the murders, and find who's setting up his crew. The Wild Nines dash from Earth to Neptune and back again, searching for answers with sarcastic smiles and quick trigger fingers. Fundamentals and Applications of Acoustic Metamaterials Vicente Romero-Garcia,Anne-Christine Hladky-Hennion,2019-09-11 In the last few decades, metamaterials have revolutionized the ways in which waves are controlled, and applied in physics and practical situations. The extraordinary properties of metamaterials, such as their locally resonant structure with deep subwavelength band gaps and their ranges of frequency where propagation is impossible, have opened the way to a host of applications that were previously unavailable. Acoustic metamaterials have been able to replace traditional treatments in several sectors, due to their better performance in targeted and tunable frequency ranges with strongly reduced dimensions. This is a training book composed of nine chapters written by experts in the field, giving a broad overview of acoustic metamaterials and their uses. The book is divided into three parts, covering the state-of-the-art, the fundamentals and the real-life applications of acoustic metamaterials.

Survey of English Dialects Michael V. Barry,2013-10-08 First Published in 1994. The Survey of English Dialects (SED) is the only detailed nationwide dialect survey which has ever been conducted in England. The SED is a unique repository of data on the traditional dialects of England in the mid-twentieth century. This remarkable record is a valuable resource for scholars in the fields of British English dialectology, sociolinguistics, and English historical linguistics. The SED fieldwork was undertaken in predominantly rural communities in England in the middle of the twentieth century, at a time when social, domestic and working life was undergoing very significant changes. The SED is thus a record of speech which reflects a society different in many ways from today, and as such affords the possibility of comparison which is instructive to those engaged in all types of study of linguistics today.

The Determination of the Elastic Modulus of Rubber Mooring Tethers and Their Use in Coastal Moorings James D. Irish,Walter H. G. Paul,David M. Wyman,2005 Compliance must be supplied to any surface mooring to allow the buoy to move with the waves and currents, and remain moored in position. This can be supplied with a traditional chain catenary or newer compliant elastic tether or stretch hose technologies. Some applications of each of these three techniques are shown, with the emphasis placed on the use of compliant elastic tethers. For modeling and designing these moorings, the elastic modulus of the tether material must be known. Therefore, a new and used piece of elastic material was terminated, tested for the stretch-strain relationship under set conditions, and the elastic modulus calculated. For these tests, the elastic tether was stretched out to a mean elongation between 100 and 250%, then cycled about that stretch by +/-25 and +/-50% to duplicate a moored application. The resultant elastic modulus is presented to aid in mooring design. At low elongations, the elastic modulus is constant at about 125 PSI, but as the mean elongation increases the modulus increases, and as the cycle tension increase the modulus also increases, reaching a maximum of 900 PSI at 275% stretch.

Desk Encyclopedia of Plant and Fungal Virology Marc H.V. van Regenmortel,Brian W.J. Mahy,2009-10-13 This volume consists of 85 chapters that highlight recent advances in our knowledge of the viruses that infect plants and fungi. It begins with general topics in plant virology including movement of viruses in plants, the transmission of plant viruses by vectors, and the development of virus-resistant transgenic plants. The second section presents an overview of the properties of a selection of 20 well-studied plant viruses, 23 plant virus genera and a few larger groups of plant viruses. The third section, which is abundantly illustrated, highlights the most economically important virus diseases of cereals, legumes, vegetable crops, fruit trees and ornamentals. The last section describes the major groups of viruses that infect fungi. The most comprehensive single-volume source providing an overview of virology issues related to plant and fungi Bridges the gap between basic undergraduate texts and specialized reviews Concise and general overviews of important topics within the field will help in preparation of lectures, writing reports, or drafting grant applications

A Perfect Christmas & Other Horse Stories Hilary Walker,2019-12-04 "Candle flames flicker in the lamps on the flanks of our governess cart as a silver moon and sprinkled stars illuminate the driveway ahead." This collection of short stories begins with Christmas snow and a pony and is followed by many more tales of horses. They are based on Hilary's personal experiences with her son's naughty Welsh pony and her own equines. An avid rider, Hilary has accumulated many embarrassing incidents in the saddle and out and these provided the fodder for the fiction and non-fiction tales in this book. They include humorous accounts of what can go wrong at a horse show, swimming pool accidents, uninvited horse entry into church, rescuing an unwanted racehorse and how a skinny neurotic Thoroughbred mare became the author's equine soulmate. If there's one thing Hilary has learned, it's that you never know what might happen next with horses.

DREAMLAND (THE WORTH OF MAN) Thomas J. Thiel,2013-11 An extraordinary tale of power, love, and deception. The author has captured the joy and consternation in the human experience, recording an astonishing study of detail, and an uncommon observation of wonder and vulnerability. When asked to give an account of the origins of Dreamland, Mr. Thiel states, I am not sure if I am ready to uncover every influence with an intrusive eye. Fascination with the complexity of life had led me to write a story about the struggle for freedom, and how the rise of unchecked power can rattle the core of society.

Tether Romy Shinn Piccolella,2007

Tether Severed Matthew Green,2022-12-02 The strongmen strained against the giant wheels, sweat dripping and hearts pumping. Gaining purchase in the loun-wood decking, their steel-spiked boots could break a man's leg clean in two. As the horizontal wheels began to slowly turn, a keen eye would barely perceive the five hundred metre long bridge begin to separate in the middle, above the great tracks below. Stragglers with business on the other side of the gulch hastily made their way across the widening gap, some on foot, some urging reluctant and finicky horses dragging carts full of wares onwards. Many had plunged into the gulch below here, the lust for commerce and profit overcoming rational fear. And if the fall didn't kill

them, then what was soon to follow most assuredly would. The strongmen paused to catch their breath, but briefly as any longer would bring catastrophe. They were presently heaving again. Latecomers stood at the widening gap, debating whether they could still make the jump. Most turned back, resigned to the fact that it would be several hours before they could resume their business, whatever it may be. But one man did not. Steeling himself for the jump, his pack of wares tied firmly to his back, he ran towards the edge. The two halves of the bridge were no longer in direct alignment, as they were swinging apart, approaching their own mutual sides of the chasm. He veered sideways, attempting to transfer his momentum into the vector required for his leap. At the last second he lost his footing, a look of panic passed across his face as he realised his error before plunging to the tracks below. Such was the lack of friction on the metal that his remains didn't lose what momentum they possessed until they crashed into the far wall, and then they still retained enough to bounce back and forth between the girders of the track. They would soon be destroyed beyond all recognition. On both sides of the tethergulch lazy workers stared out of their office and shop windows at the slowly moving bridge. Many did this every single day, mesmerised by the sheer elbow grease necessary to move such a gigantic structure. Many, also, wished for it to fail. To be destroyed by an infinitely greater structure. Midday drew close. Humans, fruit-vampires and big-heads gaped in anticipation. Only strongmen continued work during these crucial moments. The bridge was separated. The strongmen collapsed to the decking, unable to breathe. But they would recover quickly. The tether appeared in the distance, a shiny filament reaching up towards the sun. It grew quickly, and in minutes could be identified as consisting of huge chain links, two hundred metres tall and a hundred wide. The countdown to noon started... Five... Four... The true majesty of the tether became apparent, the size staggering to any who haven't seen it before. Three... Two... A brief wind blew, though not as strong as one might expect. One... Zero. The tether flew past at one thousand one hundred miles per hour, with a barely discernible whoosh. The strongmen picked themselves off the floor, and prepared the turn the bridge back.

The Tether Carl Phillips,2014-09-02 Graceful and resonant new work by a lyric poet at the height of his skill. Like something broken of wing, lying there. Other than breathing's rise, catch, release, a silence, as of some especially wounded animal that, nevertheless, still is conscious, you can see straight through the open eye to where instinct falters because for once it has come divided --from Chamber Music In the art of falconry, during training the tether between the gloved fist and the raptor's anklets is gradually lengthened and eventually unnecessary. In these new lyric poems, Carl Phillips considers the substance of connection -- between lover and beloved, mind and body, talon and perch -- and its the cable of mutual trust between soaring figure and shadowed ground. Contemporary literature can perhaps claim no poetry more clearly allegorical than that of Carl Phillips, whose four collections have turned frequently to nature, myth, and history for illustration; still, readers know the primary attributes of his work to be its physicality, grace, and disarming honesty about desire and faith. In The Tether, his fifth book, Phillips's characteristically cascading poetic line is leaner and more dramatic than ever.
