How to Fix a Broken Record Amena Brown, 2017-11-07 Allow God to heal the broken record of your soul, so you can step into your calling, speak up for what's right, and dance your own story of God's grace. What does the soundtrack in your head sound like? The hurtful words of others and the failures of your past often determine what record you play the most in your mind. Those painful repetitions often keep us from speaking up, standing up for what's right, being loved, pursuing our dreams, and growing closer to God. Spoken word poet Amena Brown's broken records played messages about how she wasn't worthy to be loved. But after years of playing those destructive rhythms over and over, *How to Fix a Broken Record* chronicles her journey of healing as she's allowed the music of God's love to play on repeat instead. From bad dates to marriage lessons at Waffle House, from learning to love her hair to learning to love an unexpected season of life, from discovering the power of saying no and the freedom to say yes, Amena offers keep-it-real stories your soul can relate to. Along the way, you'll discover how to . . . Recognize the negative messages that play on repeat in your mind Replace them with the truth that you are a beloved child of God And find new joy in the beautiful music of your life.

Studies on Large Branchiopod Biology and Conservation Marie A. Simovich, Clay Sassaman, Denton Belk, 2011-01-28 This volume is a collection of papers concerning the biology of large branchiopod crustaceans: Anostraca, Conchostraca, and Notostraca. Many of the individual papers were first presented at the Third International Large Branchiopod Symposium (ILBS-3) held at the University of San Diego, CA, USA, July 15-18, 1996. Contributions on additional topics from participants at the symposium, and from colleagues not able to join us in San Diego, are also included. In addition, there is a supplement to the 1995 'Checklist of the Anostraca'. The theme of the ILBS-3 was 'understanding and conserving large branchiopod diversity'. Researchers from around the world presented papers on a variety of topics related to conservation of large branchiopods, with contributions ranging from alpha-taxonomy and zoogeography to community structure and studies of ecology and evolution. One important issue developed in many of the papers in this volume is the need to advance our understanding of basic aspects of branchiopod biology throughout the world in order to enhance our efforts to conserve them. Although we have made important strides in understanding the biology of large branchiopods, we have, with few notable exceptions, made little progress in assuring the conservation of their diversity. We hope this volume will supply the reader with new ideas, and generate enthusiasm for research and public education efforts on behalf of branchiopod conservation.

Twelve Years a Slave Solomon Northup, 2024-01-04 Filmatized in 2013 and the official recipient of three Oscars, Solomon Northup's powerful slave narrative 'Twelve Years a Slave' depicts Northup's life as he is sold into slavery after having spent 32 years of his life living as a free man in New York. Working as a travelling musician, Northup goes to Washington D.C, where he is kidnapped, sent to New Orleans, and sold to a planter to suffer the relentless and brutal life of a slave. After a dozen years, Northup escapes to return to his family and pulls no punches, as he describes his fate and that of so many other black people at the time. It is a harrowing but vitally important book, even today. For further reading on this subject, try 'Uncle Tom's Cabin' by Harriet Beecher Stowe. Solomon Northup (c.1807-c.1875) was an American abolitionist and writer, best remembered for his powerful race memoir 'Twelve Years a Slave'. At the age of 32, when he was a married farmer, father-of-three, violinist and free-born man, he was kidnapped in Washington D.C and shipped to New Orleans, sold to a planter and enslaved for a dozen years. When he gained his freedom, he wrote his famous memoir and spent some years lecturing across the US, on behalf of the abolitionist movement. 'Twelve Years a Slave' was published a year after 'Uncle Tom's Cabin' by Harriet Beecher Stowe and built on the anti-slavery momentum it had developed. Northup's final years are something of a mystery, though it is thought that he struggled to cope with family life after being freed.

Sonic Bodies Julian Henriques, 2011-09-08 The reggae sound system has exerted a major influence on music and popular culture. Out on the streets of inner city Kingston, Jamaica, every night, sound systems stage dancehall sessions for the crowd to share the immediate, intensive and immersive visceral pleasures of sonic dominance. *Sonic Bodies* concentrates on the skilled performance of the crewmembers responsible for this signature sound of Jamaican music: the audio engineers designing, building and fine-tuning the hugely powerful sets of equipment; the selectors choosing the music tracks to play; and MCs(DJs) on the mic hyping up the crowd. Julian Henriques proposes that these dancehall vibes are taken literally as the periodic motion of vibrations. He offers an analysis of how a sound system operates - at auditory, corporeal and sociocultural frequencies. *Sonic Bodies* formulates a fascinating critique of visual dominance and the dualities inherent in ideas of image, text or discourse. This innovative book questions the assumptions that reason resides only in a disembodied mind, that communication is an exchange of information, and that meaning is only ever representation.

In Praise of Copying Marcus Boon, 2010 This book is devoted to a deceptively simple but original argument: that copying is an essential part of being human, that the ability to copy is worthy of celebration, and that, without recognizing how integral copying is to being human, we cannot understand ourselves or the world we live in. In spite of the laws, stigmas, and anxieties attached to it, the word "copying" permeates contemporary culture, shaping discourse on issues from hip hop to digitization to gender reassignment, and is particularly crucial in legal debates concerning intellectual property and copyright. Yet as a philosophical concept, copying remains poorly understood. Working comparatively across cultures and times, Marcus Boon undertakes an examination of what this word means—historically, culturally, philosophically—and why it fills us with fear and fascination. He argues that the dominant legal-political structures that define copying today obscure much broader processes of imitation that have constituted human communities for ages and continue to shape various subcultures today. Drawing on contemporary art, music and film, the history of aesthetics, critical theory, and Buddhist philosophy and practice, *In Praise of Copying* seeks to show how and why copying works, what the sources of its power are, and the political stakes of renegotiating the way we value copying in the age of globalization.
