The Other Virgil Craig Kallendorf,2007-10-18 The Other Virgil tells the story of how a classic like

the Aeneid can say different things to different people. As a school text it was generally taught to support the values and ideals of a succession of postclassical societies, but between 1500 and 1800 a number of unusually sensitive readers responded to cues in the text that call into question what the poem appears to be supporting. This book focuses on the literary works written by these readers, to show how they used the Aeneid as a model for poems that probed and challenged the dominant values of their society, just as Virgil had done centuries before. Some of these poems are not as well known today as they should be, but others, like Milton's *Paradise Lost* and Shakespeare's *The Tempest*, are; in the latter case, the poems can be understood in new ways once their relationship to the 'other Virgil' is made clear.

The Cambridge Companion to the Epic Catherine Bates,2010-04-22 Every great civilisation from the Bronze Age to the present day has produced epic poems. Epic poetry has always had a profound influence on other literary genres, including its own parody in the form of mock-epic. This Companion surveys over four thousand years of epic poetry from the Babylonian Epic of Gilgamesh to Derek Walcott's postcolonial Omeros. The list of epic poets analysed here includes some of the greatest writers in literary history in Europe and beyond: Homer, Virgil, Dante, Camões, Spenser, Milton, Wordsworth, Keats and Pound, among others. Each essay, by an expert in the field, pays close attention to the way these writers have intimately influenced one another to form a distinctive and cross-cultural literary tradition. Unique in its coverage of the vast scope of that tradition, this book is an essential companion for students of literature of all kinds and in all ages.

A History of Jewish Gynaecological Texts in the Middle Ages Rôn Barqây,1998 This study fills a major gap in the history of medicine, namely the history of medieval Hebrew medicine, in particular of Jewish women's medicine. A general introduction to the history of medieval Jewish medicine, its origins in Muslim countries, the main Arabic and Judeo-Arabic texts, and the renaissance of Hebrew as a language of science in the 12th-15th centuries is followed by a survey and analysis of the 15 extant medieval Jewish gynaecological texts (including translations from Greek, Latin and Arabic as well as original Hebrew treatises) and a comparison of the particular characteristics of Jewish gynaecology to the Latin and Arabic traditions. In the second part of the work the author presents critical editions with translations of six medieval Jewish gynaecological texts.

Horsemen of the Esophagus Jason Fagone,2006-06-06 "To be up on stage, shoving food in your face, beats everyday existence for most people." —David "Coondog" O'Karma, competitive eater "Hungry" Charles Hardy. Ed "Cookie" Jarvis. Sonya "The Black Widow" Thomas. Joey "Jaws" Chestnut. Will such names one day be looked back upon as the pioneers of a new manifestation of the irrepressible American appetite for competition, money, fame, and self-transformation? They will if the promoters of the newly emerging sport of competitive eating have their way. In *Horsemen of the Esophagus*, Jason Fagone reports on the year he spent in the belly of this awakening beast. Fagone's trek takes him to 27 eating contests on two continents, from the World Grilled Cheese Eating Championship in Venice Beach, California, to Nagoya, Japan, where he pursues an interview with the legendary Takeru Kobayashi, perhaps the most prodigious eater in the world today, and to the Nathan's Famous Hot Dog Eating Contest at Coney Island, the sport's annual grand finale, where Kobayashi has eaten more than 50 dogs in 12 minutes. Along the way, Fagone discovers an absurd, sometimes troubling subculture on the make, ready to bust out of its county fair and neighborhood-fat-guys niche and grab a juicy piece of the big-time television sports/Vegas spectacle jackpot. Fagone meets promoters like George Shea, the P. T. Barnum of the International Federation of Competitive Eating (aka IFOCE, "the governing body of all stomach-centric sport") and enters the lives of three "gurgitators": David "Coondog" O'Karma, a fiftyish, six-two house painter from Ohio who's "not ready to become invisible"; Bill "El Wingador" Simmons, the Philly Wing Bowl legend who is shooting for a fifth chicken-eating championship despite the fact that it may be killing him; and Tim "Eater X" Janus, a lean young Wall Street trader who takes a seriously scientific and athletic approach to the pursuit of ingesting mountains of food in record-breaking times. Each in his own way feels as if

he has lost or not yet found something essential in life, and each is driven by the desperate hope that through consumption he may yet find redemption, that even in the junkiest of America’s junk culture, true nourishment might be found. After all, as it says on the official IFOCE seal: In Voro Veritas (In Gorging, Truth). With forays into the gastrointestinal mechanics of the alimentary canal (“it’s what unbuilds the world to build you,” but, hey, you can skip that part if you like), the techniques and tricks of the experienced gurgitators (pouring a little club soda on top of high-carb foods makes them easier to swallow), and the historical roots of the competitive eating phenomenon, Horsemen of the Esophagus gives the French something else to dislike about America. And it gives the rest of us food for thought about the bizarre and unlikely places the American Dream can sometimes lead. Also available as an eBook
