Review of Some SMS Verification Services and Virtual Debit/Credit Cards Services for Online Accounts Verifications Dr. Hedaya Alasooly, 2020-11-12 Today a lot of sites require SMS verification code for registration account. If you do not want to use your personal phone number to verify or activate account, use virtual phone number. Thus, there is no need for a SIM card in your mobile phone, only need access to the Internet. You can receive text messages via WEB interface or API. There are a lot of websites that offer temporary free, as well as private numbers from around the world to receive activation codes and SMS confirmations online. Their private numbers are intended for two types of SMS reception: disposable virtual numbers and numbers for rent. You can receive SMS online and use the numbers to sign up or verify for any services like Telegram, Facebook, Google, Gmail, WhatsApp, Viber, Line, WeChat, KakaoTalk etc. In the first part of the book I will mention the best websites that offer virtual phone numbers from around the world to receive activation codes and SMS confirmations online. . The VCC is a short form of Virtual Credit Card that can be used for online verification, PayPal, EBay, Amazon and Google Adwords account verification. The second part of the book will guide you to how to obtain virtual debit/credit cards for sake of online accounts verification. There are bulk numbers of banks and debit/credit cards issuers that offer virtual or physical debit/credit card. But I will not go through any of them as I covered them in a book I published previously. I will only concentrate on some quick methods to obtain debit/credit cards for sake of online account verification. I will briefly talk about generating virtual debit/credit cards namso gold CC BIN generator for verification of some online services. Then I will talk about paypalvccs.com website that offers Virtual Visa Card for sake of online accounts verification. At the end I will mention how to get USA shipment address through Viabox.com website, and I will list some of the free VPN Services I commonly use The book consists from the following parts: Some free websites that can be used to receive SMS online using numbers from some countries. Some paid (not free) websites that can be used to receive SMS online using numbers from some countries. Getting free phone number in US or Canada and Other Countries: Best websites that offer SMS verification, sending SMS and renting number services. Generating some virtual debit/credit cards through BIN Codes for verification of some online services. Paypalvccs.com website that offer Virtual Visa Card for sake of account verifications. Getting USA shipment address through Viabox.com. Some of the free VPN Services I commonly use.

Innovative Internet Secrets Doug Knell, 2018-01-11 There are so many secrets packed in here, I have to wonder if the Illuminati will have this author assassinated - Derrick Mennings, Marxist Internet Weekly Digest Written by an engineering expert with comprehensive knowledge of SEO marketing, computers, and the best Belgian beers to drink with them. Preview the book to enter enlightenment. Give Me A Couple Of Hours And I'll Turn You Into An Internet Wizard! There are other internet secrets books and they work as excellent paperweights and have some therapeutic benefits, too: you can use them to put you to sleep. This book is not to be equated with all those boring-as-all-hell books with dubious internet insights and SEO tips. Trust us: what you know about the internet isn't as much as you think you know. Beyond the basics, how clued in are you really about the internet? You probably know more about Bangladesh (which ain't much, right?) than you do about web development, link building, and search engine optimization. The internet may play an integral role in our lives, yet in informal testing, close to 92% of internet users scored no more than basic competence with it. Less than 16% had any legitimate knowledge of SEO marketing. I can hear you from here: Basic competence is good enough for me. Why would I want or need to do more than that? You can use the Google or Bing search engine (but lazily, not with any genuine optimization), get around the Gmail and Hotmail interfaces, buy an airline ticket at Expedia, order a book at Amazon, and post an update at Facebook. Is that mastery when anyone can do that? Complacency never does anyone any favors. If the complacent had won out, we'd still believe the world is flat and airplane flight is impossible. Do you really need to be told that the internet is one of those things you cannot afford to be complacent about? Your livelihood, your identity, your social networks, your ability to distinguish yourself from the competition will all one day be measured by the breadth and depth of your internet skills. Development of the web hasn't stood still. Should your skills? Every single one of these internet secrets will shoot your internet productivity into the stratosphere and leave you head and shoulders above your peers. We're not naive to think you don't know any of these secrets, but we're confident you don't know about most of them. Any of these 100+ internet insights will more than make up for the book's cost * Keep your computer and other devices protected: the best anti-virus & malware tools internet tools you should install to keep your computer, mobile phone, and tablet from being crippled. * Set up sharable internet networks wherever you happen to be, like standing in front of Buckingham Palace. * Start building your favorite link bookmarks across all internet browsers and platforms. * Avoid internet scams. * Download and view internet videos offline. Video streaming sucks bandwidth from your 4G plan. * Keep your identity safe. * Transfer large files. * Set up online music libraries so you can listen to your music anywhere, anytime. * Shop on the internet for the absolute best prices. * View web sites optimally on any device. * Remember your passwords for any site and situation. * And much, much more. Some of these internet secrets you could discover if you knew where to look, but it would take you months to collect the same knowledge you'll find here. Other internet tools we've picked up from years of experience. You won't find those gems anywhere else. Dump your other SEO books and for-idiots web development guides. You will not find another internet book this practical or enjoyable for any price. The new internet isn't going anywhere, but you should. Let's get going, with us as your guide along this infinitely more diverse Information Superhighway.

Get the Guy Matthew Hussey, 2013-04-09 Most dating books tell you what NOT to do. Here's a book dedicated to telling you what you CAN do. In his book, Get the Guy, Matthew Hussey—relationship expert, matchmaker, and star of the reality show Ready for Love—reveals the secrets of the male mind and the fundamentals of dating and mating for a proven, revolutionary approach to help women to find lasting love. Matthew Hussey has coached thousands of high-powered CEOs, showing them how to develop confidence and build relationships that translate into professional success. Many of Matthew's male clients pressed him for advice on how to apply his winning strategies not to just get the job, but how to get the girl. As his reputation grew, Hussey was approached by more and more women, eager to hear what he had learned about the male perspective on love and romance. From landing a first date to establishing emotional intimacy, playful flirtation to red-hot bedroom tips, Matthew's insightfulness, irreverence, and warmth makes Get the Guy: Learn Secrets of the Male Mind to Find the Man You Want and the Love You Deserve a one-of-a-kind relationship guide and the handbook for every woman who wants to get the guy she's been waiting for.

Bean There, Done That Sandra Balzo,2008-09-01 Here's a tip: if your ex-husband's mistress-cum-missus asks for your help in proving that he cheated on her while he was married to you, just say no.And you most certainly should not invite this new missus, Mrs. Rachel Thorsen, in for a cup of coffee. But big-hearted Maggy can't seem to help her own hospitality.Unfortunately, most unfortunately, this mistress-cum-missus disappears shortly after her coffeehouse confab with Maggy and is later found murdered...making Maggy's ex, Ted, the chief suspect.Now it's up to Maggy to discover the truth...even if it upsets her on-again, off-again relationship with the handsome Sheriff Jake Pavlik...Despite the tempting satisfaction of seeing her ex go down, Maggy knows Ted is innocent. Cheater? Most definitely. Murderer? Most definitely not. So Maggy reluctantly agrees to help him. Rachel's wealthy family, however, disagrees and spares no expense in trying to put Ted behind bars.

iPhone: The Missing Manual David Pogue,2013-10-28 Answers found here! In iOS 7, Apple gave the iPhone the most radical makeover in its history. The new software is powerful, sleek, and a perfect companion to the iPhone 5s and 5c—but it’s wildly different. Fortunately, David Pogue is back with an expanded edition of his witty, full-color guide: the world’s most popular iPhone book. The important stuff you need to know: The iPhone 5s. This book unearths all the secrets of the newest iPhone—faster chip,dual-color flash, fingerprint scanner, and more—and its colorful companion, the 5c. The iOS 7 software. Older iPhones gain Control Center, AirDrop, iTunes Radio, free Internet phone calls, and about 197 more new features. This book covers it all. The apps. That catalog of 1,000,000 add-on programs makes the iPhone’s phone features almost secondary. Now you’ll know how to find, manage, and exploit those apps. The iPhone may be the world’s coolest computer, but it’s still a computer, with all of a computer’s complexities. iPhone: The Missing Manual is a funny, gorgeously illustrated guide to the tips, shortcuts, and workarounds that will turn you, too, into an iPhone addict.

Everyday Information William Aspray,Barbara M. Hayes,2011-03-04 An intimate, everyday perspective on information-seeking behavior, reaching into the social context of American history and American homes. All day, every day, Americans seek information. We research major purchases. We check news and sports. We visit government Web sites for public information and turn to friends for advice about our everyday lives. Although the Internet influences our information-seeking behavior, we gather information from many sources: family and friends, television and radio, books and magazines, experts and community leaders. Patterns of information seeking have evolved throughout American history and are shaped by a number of forces, including war, modern media, the state of the economy, and government regulation. This book examines the evolution of information seeking in nine areas of everyday American life. Chapters offer an information perspective on car buying, from the days of the

Model T to the present; philanthropic and charitable activities; airline travel and the complex layers of information available to passengers; genealogy, from the family Bible to Ancestry.com; sports statistics, as well as fantasy sports leagues and their fans' obsession with them; the multimedia universe of gourmet cooking; governmental and publicly available information; reading, sharing, and creating comics; and text messaging among young people as a way to exchange information and manage relationships. Taken together, these case studies provide a fascinating window on the importance of information in the past century of American life.

Mobile Phone Cultures Gerard Goggin,2013-09-13 What do we really know about mobile phone culture? This provocative and comprehensive collection explores the cultural and media dimensions of mobile phones around the world. An international team of contributors look at how mobiles have been imagined through advertising and social representations – tracing the scripting and shaping of the technology through gender, sexuality, religion, communication style – and explore the locations of mobile phone culture in modernity, urban settings and even transnational families. This book also provides a guide to convergent mobile phone culture, with fresh, innovative accounts of text messaging, Blackberry, camera phones, moblogging and mobile adventures in television. Mobile Phone Culture opens up important new perspectives on how we understand this intimate yet public cultural technology. Previously published as a special issue of Continuum: Journal of Media and Cultural Studies.
