Grief is an Origami Swan Blanchard,Michèle Saint-Michel,2020-07-31 Begin to process your grief and remember those you've lost using the art form of origami. Learn to fold an origami swan using square, origami paper, and befriend the often confusing and sometimes unsettling feelings experienced during bereavement and after loss. With each origami swan you fold, think of the one you lost and honor their memory. Learn that grief has no timeline and carries no expiration. Your feelings, as confusing as they may be, are a valid and necessary part of the healing journey. Begin the journey today with this beautifully illustrated book. Using black-and-white nature illustrations paired with pressed florals and grasses, Michèle Saint-Michel takes you by the hand and leads you down the path toward healing. Step-by-step instructions assist even those unfamiliar with origami to fold a paper swan. Each swan folded is a chance to spend a little time with the one you've lost. Using Japanese design aesthetics like Ma and wabi-sabi, author and artist Michèle Saint-Michel builds a robust world where escape is possible-a world of magical, flightless birds, where grief and loss can begin to be embodied and safely explored.

Luxury Arts of the Renaissance Marina Belozerskaya,2005-10-01 Today we associate the Renaissance with painting, sculpture, and architecture—the “major” arts. Yet contemporaries often held the “minor” arts—gem-studded goldwork, richly embellished armor, splendid tapestries and embroideries, music, and ephemeral multi-media spectacles—in much higher esteem. Isabella d’Este, Marchesa of Mantua, was typical of the Italian nobility: she bequeathed to her children precious stone vases mounted in gold, engraved gems, ivories, and antique bronzes and marbles; her favorite ladies-in-waiting, by contrast, received mere paintings. Renaissance patrons and observers extolled finely wrought luxury artifacts for their exquisite craftsmanship and the symbolic capital of their components; paintings and sculptures in modest materials, although discussed by some literati, were of lesser consequence. This book endeavors to return to the mainstream material long marginalized as a result of historical and ideological biases of the intervening centuries. The author analyzes how luxury arts went from being lofty markers of ascendancy and discernment in the Renaissance to being dismissed as “decorative” or “minor” arts—extravagant trinkets of the rich unworthy of the status of Art. Then, by re-examining the objects themselves and their uses in their day, she shows how sumptuous creations constructed the world and taste of Renaissance women and men.

Ekphrasis Murray Krieger,2019-12-01 Originally published in 1992. What, in apparently pictorial poetry, do words represent? Conversely, how can words in a poem be picturable? Murray Krieger develops a systematic theoretical statement out of answers to such questions. Ekphrasis is his account of the continuing debates over meaning in language from Plato to the present. Krieger sees the modernist position as the logical outcome of these debates but argues that more recent theories radically question the political and aesthetic assumptions of the modernists and the two-thousand-year tradition they claim to culminate. Krieger focuses on ekphrasis—the literary representation of visual art, real or imaginary—a form at least as old as its most famous example, the shield of Achilles verbally invented in the Iliad. He argues that the ekphrastic principle has remained enduringly problematic in that it reflects the resistant paradoxes of representation in words. As he examines the conflict between the spatial and temporal, between vision-centered and word-centered metaphors, Krieger reveals how literary theory has been shaped by the attempts and the deceptive failures of language to do the job of the natural sign.

The Production of Space Henri Lefebvre,1992-04-08 Henri Lefebvre has considerable claims to be the greatest living philosopher. His work spans some sixty years and includes original work on a diverse range of subjects, from dialectical materialism to architecture, urbanism and the experience of everyday life. The Production of Space is his major philosophical work and its translation has been long awaited by scholars in many different fields. The book is a search for a reconciliation between mental space (the space of the philosophers) and real space (the physical and social spheres in which we all live). In the course of his exploration, Henri Lefebvre moves from metaphysical and ideological considerations of the meaning of space to its experience in the everyday life of home and city. He seeks, in other words, to bridge the gap between the realms of theory and practice, between the mental and the social, and between philosophy and reality. In doing so, he ranges through art, literature, architecture and economics, and further provides a powerful antidote to the sterile and obfuscatory methods and theories characteristic of much recent continental philosophy. This is a work of great vision and incisiveness. It is also characterized by its author's wit and by anecdote, as well as by a deftness of style which Donald Nicholson-Smith's sensitive translation precisely captures.

Film Structure and the Emotion System Greg M. Smith,2003-10-13 Films evoke broad moods and cue particular emotions that can be broadly shared as well as individually experienced. Although the experience of emotion is central to the viewing of movies, film studies have neglected to focus attention on the emotions, relying instead on vague psychoanalytic concepts of desire. Movies, Emotion, and Mood synthesizes recent research on emotion in cognitive psychology and neurology in an effort to provide a more nuanced understanding of how film evokes emotion.

A Therapist's View of Personal Goals Carl Rogers,2021-08-12 2021 Reprint of the 1960 Edition. Facsimile of the original edition and not reproduced with Optical Recognition Software. In this essay, delivered as an address at Haverford College, Pennsylvania in 1959, Rogers discusses man's purpose and goal in life. In his therapeutic work Rogers sees clients take such directions as: away from facades; away from oughts; away from meeting expectations; away from pleasing others; toward being a process; toward being a complexity; toward openness to experience; toward acceptance of others; toward trust of self. Given a therapeutic climate of warmth, acceptance, and empathic understanding, the client moves from what he is not toward being, toward becoming that which he inwardly and actually is. Quoting Kierkegaard, to be that self which one truly is. A worthy goal indeed.

Anime from Akira to Princess Mononoke S. Napier,2001-05-03 With the popularity of Pokemon still far from waning, Japanese animation, known as anime to its fans, has a firm hold on American pop culture. However, anime is much more than children's cartoons. It runs the gamut from historical epics to sci-fi sexual thrillers. Often dismissed as fanciful entertainment, anime is actually quite adept at portraying important social and cultural issues like alienation, gender inequality, and teenage angst. This book investigates the ways that anime presents these issues in an in-depth and sophisticated manner, uncovering the identity conflicts, fears over rapid technological advancement, and other key themes present in much of Japanese animation.

Saul Bass Jan-Christopher Horak,2014-11-18 Iconic graphic designer and Academy Award-winning filmmaker Saul Bass (1920–1996) defined an innovative era in cinema. His title sequences for films such as Otto Preminger's *The Man with the Golden Arm* (1955) and *Anatomy of a Murder* (1959), Alfred Hitchcock's *Vertigo* (1958) and *North by Northwest* (1959), and Billy Wilder's *The Seven Year Itch* (1955) introduced the idea that

opening credits could tell a story, setting the mood for the movie to follow. Bass's stylistic influence can be seen in popular Hollywood franchises from the Pink Panther to James Bond, as well as in more contemporary works such as Steven Spielberg's Catch Me If You Can (2002) and television's Mad Men. The first book to examine the life and work of this fascinating figure, Saul Bass: Anatomy of Film Design explores the designer's revolutionary career and his lasting impact on the entertainment and advertising industries. Jan-Christopher Horak traces Bass from his humble beginnings as a self-taught artist to his professional peak, when auteur directors like Stanley Kubrick, Robert Aldrich, and Martin Scorsese sought him as a collaborator. He also discusses how Bass incorporated aesthetic concepts borrowed from modern art in his work, presenting them in a new way that made them easily recognizable to the public. This long-overdue book sheds light on the creative process of the undisputed master of film title design—a man whose multidimensional talents and unique ability to blend high art and commercial imperatives profoundly influenced generations of filmmakers, designers, and advertisers.

Art Power Boris Groys,2013-02-08 A new book by Boris Groys acknowledges the problem and potential of art's complex relationship to power. Art has its own power in the world, and is as much a force in the power play of global politics today as it once was in the arena of cold war politics. Art, argues the distinguished theoretician Boris Groys, is hardly a powerless commodity subject to the art market's fiat of inclusion and exclusion. In Art Power, Groys examines modern and contemporary art according to its ideological function. Art, Groys writes, is produced and brought before the public in two ways—as a commodity and as a tool of political propaganda. In the contemporary art scene, very little attention is paid to the latter function. Arguing for the inclusion of politically motivated art in contemporary art discourse, Groys considers art produced under totalitarianism, Socialism, and post-Communism. He also considers today's mainstream Western art—which he finds behaving more and more according the norms of ideological propaganda: produced and exhibited for the masses at international exhibitions, biennials, and festivals. Contemporary art, Groys argues, demonstrates its power by appropriating the iconoclastic gestures directed against itself—by positioning itself simultaneously as an image and as a critique of the image. In Art Power, Groys examines this fundamental appropriation that produces the paradoxical object of the modern artwork.

Slave Portraiture in the Atlantic World Agnes Lugo-Ortiz,Angela Rosenthal,2013-09-30 Slave Portraiture in the Atlantic World is the first book to focus on the individualized portrayal of enslaved people from the time of Europe's full engagement with plantation slavery in the late sixteenth century to its final official abolition in Brazil in 1888. While this period saw the emergence of portraiture as a major field of representation in Western art, 'slave' and 'portraiture' as categories appear to be mutually exclusive. On the one hand, the logic of chattel slavery sought to render the slave's body as an instrument for production, as the site of a non-subject. Portraiture, on the contrary, privileged the face as the primary visual matrix for the representation of a distinct individuality. Essays address this apparent paradox of 'slave portraits' from a variety of interdisciplinary perspectives, probing the historical conditions that made the creation of such rare and enigmatic objects possible and exploring their implications for a more complex understanding of power relations under slavery.

The Colony Audrey Magee,2022-05-17 **LONGLISTED FOR THE BOOKER PRIZE** “Luminous.” —Jonathan Myerson, The Guardian “Vivid, thought-provoking.” —Malcolm Forbes, Star Tribune In 1979, as violence erupts all over Ireland, two outsiders travel to a small island off the west coast in search of their own answers, despite what it may cost the islanders. It is the summer of 1979. An English painter travels to a small island off the west coast of Ireland. Mr. Lloyd takes the last leg by currach, though boats with engines are available and he doesn’t much like the sea. He wants the authentic experience, to be changed by this place, to let its quiet and light fill him, give him room to create. He doesn’t know that a Frenchman follows close behind. Jean-Pierre Masson has visited the island for many years, studying the language of those who make it their home. He is fiercely protective of their isolation, deems it essential to exploring his theories of language preservation and identity. But the people who live on this rock—three miles long and half a mile wide—have their own views on what is being recorded, what is being taken, and what ought to be given in return. Over the summer, each of them—from great-grandmother Bean Uí Fhloinn, to widowed Mairéad, to fifteen-year-old James, who is determined to avoid the life of a fisherman—will wrestle with their values and desires. Meanwhile, all over Ireland, violence is erupting. And there is blame enough to go around. An expertly woven portrait of character and place, a stirring investigation into yearning to find one’s way, and an unflinchingly political critique of the long, seething cost of imperialism, Audrey Magee’s The Colony is a novel that transports, that celebrates beauty and connection, and that reckons with the inevitable ruptures of independence.

Goya Janis A. Tomlinson,2002-03-11 Francisco Goya y Lucientes (1746-1828) created magnificent paintings, tapestry designs, prints, and drawings over the course of his long and productive career. Women frequently appeared as the subjects of Goya's works, from his brilliantly painted cartoons for the Royal Tapestry Factory to his stunning portraits of some of the most powerful women in Madrid. This groundbreaking book is the first to examine the representations of women within Goya's multifaceted art, and in so doing, it sheds new light on the evolution of his artistic creativity as well as on the roles assumed by women in late eighteenth- and early nineteenth-century Spain. Many of Goya's most famous works are featured and explicated in this beautifully designed and produced book. The artist's famous tapestry cartoons are included, along with the tapestries woven after them for the royal palaces of the Prado and the Escorial. Goya's infamous Naked Maja and Clothed Maja are also highlighted, with a discussion on whether these works were painted at the same time and how they might have originally hung in relation to one another. Focus is also placed on Goya's more experimental prints and drawings, in which the artist depicted women alternatively as targets of satire, of sympathy, or of admiration. Essays by eminent authorities provide a historical and cultural context for Goya's work, including a discussion on the significance of fashion and dress during the period. The resultant volume is surely to be treasured by all who admire Goya's art and by those who are interested in women's issues of his time.
