Combinatorial Methods for Chemical and Biological Sensors Radislav A. Potyrailo,Vladimir M. Mirsky,2009-03-21 Chemical sensors are in high demand for applications as varied as water pollution detection, medical diagnostics, and battlefield air analysis. Designing the next generation of sensors requires an interdisciplinary approach. The book provides a critical analysis of new opportunities in sensor materials research that have been opened up with the use of combinatorial and high-throughput technologies, with emphasis on experimental techniques. For a view of component selection with a more computational perspective, readers may refer to the complementary volume of Integrated Analytical Systems edited by M. Ryan et al., entitled "Computational Methods for Sensor Material Selection".

#MakeoverMonday Andy Kriebel,Eva Murray,2018-10-02 Explore different perspectives and approaches to create more effective visualizations #MakeoverMonday offers inspiration and a giant dose of perspective for those who communicate data. Originally a small project in the data visualization community, #MakeoverMonday features a weekly chart or graph and a dataset that community members reimagine in order to make it more effective. The results have been astounding; hundreds of people have contributed thousands of makeovers, perfectly illustrating the highly variable nature of data visualization. Different takes on the same data showed a wide variation of theme, focus, content, and design, with side-by-side comparisons throwing more- and less-effective techniques into sharp relief. This book is an extension of that project, featuring a variety of makeovers that showcase various approaches to data communication and a focus on the analytical, design and storytelling skills that have been developed through #MakeoverMonday. Paging through the makeovers ignites immediate inspiration for your own work, provides insight into different perspectives, and highlights the techniques that truly make an impact. Explore the many approaches to visual data communication Think beyond the data and consider audience, stakeholders, and message Design your graphs to be intuitive and more communicative Assess the impact of layout, color, font, chart type, and other design choices Creating visual representation of complex datasets is tricky. There's the mandate to include all relevant data in a clean, readable format that best illustrates what the data is saying—but there is also the designer's impetus to showcase a command of the complexity and create multidimensional visualizations that "look cool." #MakeoverMonday shows you the many ways to walk the line between simple reporting and design artistry to create exactly the visualization the situation requires.

A Lantern in the Dark Stacey Reynolds,2016-11 In a sleepy beach town in Coastal Carolina, two lost souls learn the destructive nature of secrets and the healing power of love. Captain Aidan O'Brien is a decorated Officer of the Royal Irish Regiment. While on a personal mission with his brother to retrieve Michael's would-be mate, Aidan visits an old friend on the local Marine Corps base. Aidan accepts an opportunity to return, to train with the infantry marines at Camp Lejeune. Alanna Falk is a grad student, working with PTSD patients in a nearby recovery clinic. A few months after the unexpected visit from the O'Brien brothers, Alanna can't seem to get the eldest O'Brien out of her mind. She assumes that she'll never see him again. After all, Aidan is a soldier in the Royal Irish Regiment, living in Belfast. She's living in her best friend's beach house in North Carolina. When Aidan shows up on her beachfront deck unannounced, the fireworks fly... along with a Louisville Slugger that she keeps on hand. Both Aidan and Alanna have their own reasons for being alone. As a friendship blossoms and the attraction grows, each begins to uncover the shadows that haunt the other. Tormented by dreams of a terrible day in Kabul, Afghanistan, Aidan rebuffs Alanna's attempts to offer him counsel. Alanna refuses to open up to anyone about why she keeps a handgun in her desk and a bat within reach. Aidan swore he'd never marry, never put a woman or children through life in the military. But the lovely, southern beauty challenges his strongest defenses. He comes to realize that Alanna may need him even more than he needs her. Especially as the tide turns, and Alanna's secret fears become a very real danger.

On the Road to Heaven Coke Newell,2007 From the author of *Latter Days: A Guided Tour Through Six Billion Years of Mormonism* comes this exuberant and groundbreaking autobiographical novel about the modern Mormon convert experience. Revealing the author's hard-won path to meaning, faith, and forgiveness, *On the Road to Heaven* is a love story about a girl and a guy and their search for heaven—a lotta love, a little heaven, and one heck of a ride in between. In a style reminiscent of and offering homage to Jack Kerouac, *On the Road to Heaven* traces an LSD-to-LDS pilgrimage across the geographic and cultural landscape of two continents in the late twentieth century. From the 1970s hippie heyday of the Colorado mountains to the coca fields of Colombia, it's a journey through Thoreau ascetics, Ram Dass Taoism, and Edward Abbey monkey-wrenching to the mission fields of one of the world's fastest-growing—and most trenchantly conservative—religions. Few stories have ever described a more unusual road to redemption.

The Power of Nice Linda Kaplan Thaler,Robin Koval,2006-09-19 Linda Kaplan Thaler and Robin Koval have moved to the top of the advertising industry by following a simple but powerful philosophy: it pays to be nice. Where so many companies encourage a dog eat dog mentality, the Kaplan Thaler Group has succeeded through chocolate and flowers. In *THE POWER OF NICE*, through their own experiences and the stories of other people and businesses, they demonstrate why, contrary to conventional wisdom, nice people finish first. Turning the well-known adage of “Nice Guys Finish Last” on its ear, *THE POWER OF NICE* shows that “nice” companies have lower employee turnover, lower recruitment costs, and higher productivity. Nice people live longer, are healthier, and make more money. In today's interconnected world, companies and people with a reputation for cooperation and fair play forge the kind of relationships that lead to bigger and better opportunities, both in business and in life. But being nice doesn't mean acting wimpy. In fact, nice may be the toughest four-letter word you'll ever encounter. Kaplan Thaler and Koval illustrate the surprising power of nice with an array of real-life examples from the business arena as well as from their personal lives. Most important, they present a plan of action covering everything from creating a positive impression to sweetening the pot to turning enemies into allies. Filled with inspiration and suggestions on how to supercharge your career and expand your reach in the workplace, *THE POWER OF NICE* will transform how you live and work.

Leading with Vision Bonnie Hagemann,Simon Vetter,John Maketa,2017-05-16 What does it mean to lead with vision? From LinkedIn Learning Expert, Bonnie Hagemann comes the first book

devoted entirely to vision as a key leadership principle. Hagemann and her co-authors delve deeply into the notion that a compelling vision that motivates and inspires is a differentiator for organizations that want to hire and retain talent, be more competitive, and thrive in uncertain times. But a compelling vision on its own is not enough, which is why the authors, sought-after leadership development experts globally, provide readers with detailed analysis of the essential things leaders must do to effectively engage the workforce around that vision: embody courage, forge clarity, build connectedness, and shape culture. *Leading with Vision* draws on quantitative data from the authors' research of over 400 companies supplemented with real-world examples from thoughtful leaders who exemplify the core principles of leading with vision in established companies, including: Olukai, Bumble Bee, Coresystems, Jimbo's, Bunge, and more. The book also includes an actionable blueprint developed by the authors that leaders and their organizations can implement on day one of their journey.

Sister Mine Tawni O'Dell, 2007-03-13 Shae-Lynn Penrose drives a cab in a town where no one needs a cab—but plenty of people need rides. A former police officer with a closet full of miniskirts, a recklessly sharp tongue, and a tendency to deal with men by either beating them up or taking them to bed, she has spent years carving out a life for herself and her son in Jolly Mount, Pennsylvania, the tiny coal-mining town where she grew up. Two years ago, five of Shae-Lynn's miner friends were catapulted to media stardom when they were rescued after surviving four days trapped in a mine. As the men struggle to come to terms with the nightmarish memories of their ordeal, along with the fallout of their short-lived celebrity, Shae-Lynn finds herself facing harsh realities and reliving bad dreams of her own, including her relationship with her brutal father, her conflicted passion for one of the miners, and the hidden identity of the man who fathered her son. When the younger sister she thought was dead arrives on her doorstep, followed closely by a gun-wielding Russian gangster, a shady New York lawyer, and a desperate Connecticut housewife, Shae-Lynn is forced to grapple with the horrible truth she discovers about the life her sister's been living, and with one ominous question: Will her return result in a monstrous act of greed or one of sacrifice? Tawni O'Dell's trademark blend of black humor, tenderness, and a keen sense of place is evident once again as Shae-Lynn takes on past demons and all-too-present dangers.

Raven of the Sea Stacey Reynolds, 2016-07-01 Against the backdrop of windswept, coastal Ireland, two people are brought together under unlikely circumstances. One scarred by tragedy, the other by betrayal. Branna O'Mara never expected to be orphaned at the age of twenty-three. When she lost her father, Major Brian O'Mara, USMC in the Second Battle of Fallujah, she thought she'd taken the worst life had to give. She never imagined she would lose her mother to cancer, six years later. The life of a military child prepared her for the challenges of relocating, but for the first time, she'd be doing it alone. Where do you go when you're the last one standing? The solution came to her when she received an email with a real estate listing in County Clare, Ireland. Having inherited her parents' rental properties, she knew the value of a diamond in the rough. A secluded cottage in the land of her ancestors was just the fresh start she needed. What she wasn't prepared for was another buyer, after the deal had been struck. As she becomes intertwined with the people, the music, and the spirit of the small town, she understands that she's finally found somewhere to belong. Michael O'Brien and the entire O'Brien clan are a force to be reckoned with, but she will not allow them to take her new home. Michael O'Brien is a local hero and rescue swimmer for the Irish Coast Guard. He has lived in the small coastal village of Doolin, in County Clare, all of his life. Emerging from the ashes of a failed marriage, and living with his parents, is not where he expected to be at the age of twenty-nine. All he really wants is to buy the local Kelly cottage, fix it up, and live in peace. After two years on the market, he never imagined there would be a competing bidder. He certainly didn't expect some little Yank to swoop in to town, and try to buy it right out from under him. He finds himself drawn into an unlikely battle with a fiery, young American woman, neither of them willing to bend. But as her secrets unravel and the woman is revealed, will he be able to push her out of the cottage, the town, and out of his life?

Arctic Oil Judy Patrick,2014 Arctic Oil: Photographs of Alaska's North Slope introduces readers to a remote region north of the Arctic Circle. Only the Native peoples who lived there for centuries and the small workforce that keeps Alaska's mammoth oil fields producing had previously known the area. Judy Patrick's photographs now bring this secret corner of the world to the public eye. Images of ice roads and ice islands built for winter exploration lie next to images of year-round production complexes hauled north by barge, and page turns reveal the faces of roughnecks on drill rigs. The melding of pristine Alaska and modern industry in each image make this book a unique and intriguing compilation. Taken over two decades, these photographs showcase Alaska's North Slope oil industry from the massive Prudhoe Bay field to the National Petroleum Reserve-Alaska and beyond. Few people beyond those who work there get to see what Alaska's oil industry looks like, but Alaskan photographer Judy Patrick brings it to life for those of us who will never make the trek north.
