Chronicle of Thailand Nicholas Grossman, 2009

Reporting Thailand's Southern Conflict Phansasiri

Kularb, 2016-02-12 Since 2004, Thailand's southern border provinces have been plagued by violence. There are a wide array of explanations for this violence, from the revival of Malay nationalist movements and the influence from the global trend of radical Islam, to the power play among the regional underground crime syndicates, politicians, and state authorities. The disparate interpretations signal the dynamic and complex discursive contention of this damaging and enduring conflict, and this book looks at how this is played out in the Thai media, and with what possible consequences. In analysing the southern conflict coverage, the book presents the deficiencies in news coverage, as produced by four news organisations of different natures across a seven-year review period, and discusses the professional practices that hinder journalism from serving as a fair arena for healthy and rational democratic debates. Based on in-depth interviews with news workers, it argues that Thai journalism is not always monolithic and static, as shown in the discursive shifts in news content, the variations of journalistic practices and news workers' disparate stances on the conflict. The book goes on to highlight the less immediately apparent difficulties of political conflict reporting, such as the subtle patterns of intimidation and media manipulation, as well as the challenges of countering socially-prevailing hegemonic beliefs in Thai society. Exploring the political contingencies

and socio-cultural influences at play, this book provides an in-depth study of journalism's role in politics in Thailand, and is of interest to students and scholars of Southeast Asian Politics, Media Studies and Peace and Conflict Studies.

Politics and the Press in Thailand Duncan

McCargo,2012-12-06 This is the first book in the English language to examine the tangled web of relationships linking newspaper owners, editors and reporters, with leading politicians and power-holders. Duncan McCargo has been granted unique access to the editorial meetings of Thailand's leading newspapers, and drawing on this, the book uncovers the contradictions and dichotomies which underlie political coverage in the Thai press.

A Kingdom in Crisis Andrew MacGregor

Marshall,2015-11-15 'Perhaps the best introduction yet to the roots of Thailand's present political impasse. A brilliant book.' Simon Long, The Economist Struggling to emerge from a despotic past, and convulsed by an intractable conflict that will determine its future, Thailand stands at a defining moment in its history. Scores have been killed on the streets of Bangkok. Freedom of speech is routinely denied. Democracy appears increasingly distant. And many Thais fear that the death of King Bhumibol Adulyadej is expected to unleash even greater instability. Yet in spite of the impact of the crisis, and the extraordinary importance of the royal succession, they have never been comprehensively analysed – until now. Breaking Thailand's draconian lèse majesté law, Andrew MacGregor Marshall is one of the only journalists covering contemporary Thailand

to tell the whole story. Marshall provides a comprehensive explanation that for the first time makes sense of the crisis, revealing the unacknowledged succession conflict that has become entangled with the struggle for democracy in Thailand.

Global Status Report on Road Safety 2015 World Health Organization,2015-12-17 The Global status report on road safety 2015, reflecting information from 180 countries, indicates that worldwide the total number of road traffic deaths has plateaued at 1.25 million per year, with the highest road traffic fatality rates in low-income countries. In the last three years, 17 countries have aligned at least one of their laws with best practice on seat-belts, drink-driving, speed, motorcycle helmets or child restraints. While there has been progress towards improving road safety legislation and in making vehicles safer, the report shows that the pace of change is too slow. Urgent action is needed to achieve the ambitious target for road safety reflected in the newly adopted 2030 Agenda for Sustainable Development: halving the global number of deaths and injuries from road traffic crashes by 2020. Made possible through funding from Bloomberg Philanthropies, this report is the third in the series, and provides a snapshot of the road safety situation globally, highlighting the gaps and the measures needed to best drive progress.--Publisher's description.

Thai Mangoes Trirat Petchsingh,2014-08-19 An extremely evocative collection of stories set in contemporary Thailand by an award-winning author. Trirat Petchsingh's masterfully-crafted stories are quirky,

interesting, and always fun to read. His language is often beautiful and powerful. He has a first-rate ability to keep his readers in suspense and then surprise them with unexpected endings. There are intriguing stories about family relationships, lovers and cads, and other ordinary mortals. They deal with rites of passage, life's mysteries and epiphanies, and sometimes just ordinary experiences, but always with an intriguing twist. His heroes, while not all entirely loveable, are all believable and worthy of our sympathy. For example, there is a miner who seeks his fortune in the hills of the north, a news reporter who mixes a little romance with his work, and an army conscript who becomes involved in momentous events. In this collection of nineteen stories, Trirat Petchsingh has revealed an insight into the Thai milieu that no other author has attempted.

Snapshots of Thailand Sam Sackett, 2014-09-26 Not even a three-hour motion picture could give an adequate impression of Thailand. These seven stories are snapshots of a few phases of the kingdom. An American expatriate seeks employment and love, but what he finds is not what

he was looking for. A Thai woman overcomes the habits that almost destroy her marriage. A Thai girl looks for a career and is surprised by what she finds. Another Thai girl overcomes a dismal childhood to achieve resounding success. The American wife of a Thai discovers that she doesn't like paradise. A Thai wife is dissatisfied with her Japanese husband. A young Thai man climbs toward success, using his employers as stepping stones.

Flavours Steven Pettifor, 2003 'Flavours' offers a taste of the contemporary art scene in Thailand, a country with strong traditions but which is rapidly modernising. The text includes career profiles of 23 artists.

The Boys in the Cave Matt Gutman, 2018-11-13 From award-winning ABC News Chief National Correspondent Matt Gutman, and written using exclusive interviews and information comes the definitive account of the dramatic story that gripped the world: the miracle rescue of twelve boys and their soccer coach trapped in a flooded cave miles underground for nearly three weeks—a pulse-pounding page-turner by a reporter who was there every step of their journey out. After a practice in June 2018, a Thai soccer coach took a dozen of his young players to explore a famous but flood-prone cave. It was one of the boys' birthday, but neither he nor the dozen resurfaced. Worried parents and rescuers flocked to the mouth of a cave that seemed to have swallowed the boys without a trace. Ranging in age from eleven to sixteen, the boys were all members of the Wild Boars soccer team. When water unexpectedly inundated the cave, blocking their escape, they retreated deeper inside, taking shelter in a side cavern. While the world feared them dead, the thirteen young souls survived by licking the condensation off the cave's walls, meditating, and huddling together for warmth. In this thrilling account, ABC News Chief National

Correspondent Matt Gutman recounts this amazing story in depth and from every angle, exploring their time in the cave, the failed plans and human mistakes that nearly doomed them, and the daring mission that ultimately saved them. Gutman introduces the elite team of volunteer divers who risked death to execute a plan so risky that its American planners admitted, “for us, success would have meant getting just one boy out alive.” He takes you inside the meetings where life and death decisions were grimly made and describes how these heroes pulled off an improbable rescue under immense pressure, with the boys’ desperate parents and the entire world watching. One of the largest rescues in history was in doubt until the very last moment. Matt Gutman covered the story intensively, went deep inside the caves himself, and interviewed dozens of rescuers, experts and eye-witnesses around the world. The result is this pulse-pounding page-turner that vividly recreates this extraordinary event in all its intensity—and documents the ingenuity and sacrifice it took to succeed.

Coup, King, Crisis Charles F. Keyes, 2020-11-23 The prospects of the inevitable end of the Bhumibol era loomed large over 21st century Thailand. Events have now taken their course, and King Maha Vajiralongkorn has been crowned. The new King is beginning to make his presence felt, but in important ways Thailand is still in an interregnum: a time when the old order is dying but a new one struggles to be born. The prospects of the inevitable end of the Bhumibol era loomed large over 21st century Thailand. Events have now taken their course, and King Maha Vajiralongkorn has been crowned. The new King is beginning to make his presence felt, but in important ways Thailand is still in an interregnum: a time when the old order is dying but a new one struggles to be born. This volume examines the royal transition in Thailand, from the

2014 coup through to the 2017 Constitution and the 2019 election. The royal transition sparked a crisis that pressured important institutions of the nation, from the politicized judiciary to the troubled Sangha or priesthood. The period of waiting has influenced all aspects of Thai governance, from foreign policy to economic management, to human rights and the spread of self-censorship. This volume, which brings together some of the leading writers on Thailand, is the first book-length analysis of this deep transition.

Thailand Unhinged Federico Ferrara, 2010 Thailand Unhinged: Unraveling the Myth of a Thai-Style Democracy offers a trenchant analysis of Thai politics and society over the tumultuous years that followed the ouster of former Prime Minister Thaksin Shinawatra. Thailand's ongoing political crisis is explained through the prism of the country's painful post-absolutist history - a history marred by the systematic sabotage of any meaningful democratic development, the routine hijacking of democratic institutions, and the continued suffocation of the Thai people's democratic aspirations orchestrated by an unelected ruling class in an increasingly desperate attempt to hold on to its power. The book includes scathing critiques of both Thaksin's administration as well as the military-backed government that came to power in late 2008, following the week-long siege of the country's busiest airports staged by the yellow shirts of the People's Alliance for Democracy. The essays are written in a provocative, confrontational style - making Thailand Unhinged a decidedly unconventional mix of academic scholarship, literary journalism, and radical pamphleteering. About the Author FEDERICO FERRARA (PhD, Harvard University) works as Assistant Professor of Political Science at the National University of Singapore. He will be joining the City University of Hong Kong's Department of Asian and

International Studies in 2010.

Thailand: Deadly Destination John

Stapleton, 2014-11-17 The daily robbing, bashing, drugging, extortion and murder of foreign tourists on Thai soil, along with numerous scandals involving unsafe facilities and well established scams, has led to frequent predictions that Thailand's multi-billion dollar tourist industry will self-destruct. Instead tourist numbers more than doubled in the decade to 2014. The world might not have come to the hometowns of the many visitors fascinated by Thailand, but it certainly came to the Land of Smiles. While the Thai media is heavily censored, and bad news stories about tourists suppressed, nonetheless there is more than enough evidence to demonstrate that something has gone seriously awry with the nation's tourist industry. In 2014, just as in the years preceding it, there were train, bus, ferry, speedboat, motorbike and car accidents, murders, knifings, unexplained deaths, numerous suicides, diving accidents, robberies gone wrong, anonymous bodies washing up on the shores and a string of alcohol and drug related incidents. Thailand had a dying king and serious succession problems, weak democratic institutions, an economy slipping into recession, faced issues of corruption across many of its key services and was host to international crime syndicates, awash with despised foreigners and drifting perilously towards civil war. Tourists choose one destination over another for a number of reasons, most of which Thailand scores highly on. But on the core issue of tourist safety, Thailand scores very badly indeed.
