*Vanderbilt* Anderson Cooper, Katherine Howe, 2021-09-21 New York Times bestselling author and journalist Anderson Cooper teams with New York Times bestselling historian and novelist Katherine Howe to chronicle the rise and fall of a legendary American dynasty—his mother’s family, the Vanderbilts. One of the Washington Post’s Notable Works of Nonfiction of 2021 When eleven-year-old Cornelius Vanderbilt began to work on his father’s small boat ferrying supplies in New York Harbor at the beginning of the nineteenth century, no one could have imagined that one day he would, through ruthlessness, cunning, and a pathological desire for money, build two empires—one in shipping and another in railroads—that would make him the richest man in America. His staggering fortune was fought over by his heirs after his death in 1877, sowing familial discord that would never fully heal. Though his son Billy doubled the money left by “the Commodore,” subsequent generations competed to find new and ever more extraordinary ways of spending it. By 2018, when the last Vanderbilt was forced out of The Breakers—the seventy-room summer estate in Newport, Rhode Island, that Cornelius’s grandson and namesake had built—the family would have been unrecognizable to the tycoon who started it all. Now, the Commodore’s great-great-great-grandson Anderson Cooper, joins with historian Katherine Howe to explore the story of his legendary family and their outsized influence. Cooper and Howe breathe life into the ancestors who built the family’s empire, basked in the Commodore’s wealth, hosted lavish galas, and became synonymous with unfettered American capitalism and high society. Moving from the hardscrabble wharves of old Manhattan to the lavish drawing rooms of Gilded Age Fifth Avenue, from the ornate summer palaces of Newport to the courts of Europe, and all the way to modern-day New York, Cooper and Howe wryly recount the triumphs and tragedies of an American dynasty unlike any other. Written with a unique insider’s viewpoint, this is a rollicking, quintessentially American history as remarkable as the family it so vividly captures.

*The Rainbow Comes and Goes* Anderson Cooper, Gloria Vanderbilt, 2017-01-31 #1 New York Times Bestseller A touching and intimate correspondence between Anderson Cooper and his mother, Gloria Vanderbilt, offering timeless wisdom and a revealing glimpse into their lives The Rainbow Comes and Goes is a charming, intimate and fascinating collection of correspondence between broadcaster and #1 New York Times bestselling author Anderson Cooper and his mother, the celebrated Gloria Vanderbilt. Anderson Cooper’s intensely busy career as a journalist for CNN and CBS’ 60 Minutes affords him little time to spend with his ninety-one year old mother. After she briefly fell ill, he and Gloria began a conversation through e-mail unlike any they had ever had before —a correspondence of surprising honesty and depth in which they discussed their lives, the things that matter to them and what they still want to learn about each other. Both a son’s love letter to his mother in her final years and an unconventional mother’s life lessons for her grown son, The Rainbow Comes and Goes offers a rare window into their close relationship and fascinating lives. In these often hilarious and touching exchanges, they share their most private thoughts and the hard-earned truths they’ve learned along the way. Throughout, their distinctive personalities shine through—Anderson’s darker outlook on the world is a brilliant contrast to his mother’s idealism and unwavering optimism. An appealing blend of memoir and inspirational advice, The Rainbow Comes and Goes is a beautiful and affectionate celebration of the profound and universal bond between a parent and child, and, like Tuesdays with Morrie, a thoughtful reflection on life and love, reminding us of the precious knowledge and insight that remains to be shared, no matter what age we are.

*No Filter* Sarah Frier, 2021-09-28 Award-winning reporter Sarah Frier reveals an inside, never-before-told, behind-the-scenes look at how Instagram defied the odds to become one of the most culturally defining apps of the decade--

**Right is Wrong** Arianna Huffington, 2008-04-29 With her trademark passion, intelligence, and devastating wit, Huffington Post editor in chief Arianna Huffington tackles the issues that are crucial to this year’s presidential election and, even more so, to the fate of the country. Huffington makes the case that America has been hijacked from within by a radical element—the “lunatic fringe” of the Right that has taken over the Republican Party. Despite holding views at odds with the majority of Americans, these zealots have given us an endless war in Iraq, a sputtering economy, a health care system on life support, a war on science and reason, and an immoral embrace of torture. But they haven’t done it on their own: they have been enabled by a compliant media that act as if there is no such thing as truth and are more interested in cozying up to those in power than in holding them accountable, and by feckless Democrats who have allowed themselves to be intimidated into backing down again and again. Both a withering indictment and a hopeful call to arms, Right Is Wrong is an explosive, boldly incisive work that will help set the national agenda.

*Dispatches from the Edge* Anderson Cooper, 2009-10-13 From one of America’s leading reporters comes a deeply personal, extraordinarily powerful look at the most volatile crises he has witnessed around the world, from New Orleans to Baghdad and beyond. Dispatches from the Edge of the World is a book that gives us a rare up-close glimpse of what happens when the normal order of things is suddenly turned upside down, whether it’s a natural disaster, a civil war, or a heated political battle. Over the last year, few people have witnessed more scenes of chaos and conflict than Anderson Cooper, whose groundbreaking coverage on CNN has become the touchstone of twenty-first century journalism. This book explores in a very personal way the most important - and most dangerous - crises of our time, and the surprising impact they have had on his life. From the devastating tsunami in South Asia to the suffering Niger, and ultimately Hurricane Katrina in New Orleans, Cooper shares his own experiences of traversing the globe, covering the world’s most astonishing stories. As a television journalist, he has the gift of speaking with an emotional directness that cuts through the barriers of the medium. In his first book, that passion communicates itself through a rich fabric of memoir and reportage, reflection and first-person narrative. Unflinching and utterly engrossing, this is the story of an extraordinary year in a reporter’s life.

**Living with Cancer** Gayle Leslie Henderson, 2022-07-18 In November of 2015, author Gayle Leslie Henderson was admitted to the hospital with an acute sciatica episode with extraordinary pain, which had never occurred before and has never occurred again. Her ultimate diagnosis remains HR-positive HER2-negative postmenopausal metastatic bilateral breast cancer, stage IV. That’s not where the story ends, instead, it’s where this story begins. In Living with Cancer, Henderson offers a collection of fourteen independent essays from her journals that stand on their own. Each chapter focuses on aspects of her journey after her cancer diagnosis and highlights lessons that cry out to be shared. The chapter division pages feature mandala images to color that encourage you to exercise your creativity with bold coloring and personal interpretation. Highly influenced by Henderson’s spiritual journey, Living with Cancer offers guidance and tips for learning to manage and live with your new reality from someone who’s been there and understands. She hopes to help lighten your burden and give you a sense of comfort that you’re not alone.

*Beyond Bullying* Jonathan Fast, 2016 In this ambitious new work, Dr. Jonathan Fast proposes a new way of understanding the bullying experience (of the bully, the bullied, and the bystander), via the lens of shame. Beyond Bullying posits that shame is the powerful emotion that is often at the heart of many of the dynamics classified as bullying. Shame is a common human emotion for which Fast establishes a hierarchy of reactions. The following is an example of healthy shame: when 5-year-old Sam finger-paints on his plate with his mashed potatoes, his mother says you won't be allowed to eat at the grownup table until you stop sticking your fingers in your food. The shame in this scenario is healthy because it encourages Sam to master skills that will make him more autonomous and socially appealing, compared to toxic shame that damages one's self-concept by critiquing what one is rather than what one does. The distinction can be seen in the example of a parent whose child constantly forgets to complete her homework. The parent who says your mother and I expect you to study and get good grades is employing healthy shame, while the parent who shouts in frustration and anger you're so lazy! You'll never amount to anything! is administering a dose of toxic shame, directed at his daughter's self-

concept rather than that act of neglecting her homework. Weaponized Shame, which forms the core focus of this book, is the intentional use of those attacks on another person's self-concept for the purpose of inflicting emotional and psychological harm. The premise of the book is that all bullying involves weaponized shame. Through the use of Shame Maps, simple iconographic diagrams similar to the genograms used by family therapists, Dr. Fast visually represents the overlapping shame dynamics in play in many common interactions, emphasizing the use of weaponized shame in bullying situations. The Shame Maps provide a useful tool for parents, teachers, therapists, school mental-health professionals, and others to use when discussing bullying with children, adolescents, and other adults. Fast traces different nuances of shame dynamics through several common types of bullying, highlighting LGBTQ, gender, and race among other bases for bullying actions, before extending the analysis to terminal acts of violence including school shootings, terrorism, homicide, and suicide. The book will both give readers concrete suggestions for healthy ways to discharge shame and equip them with techniques to help diffuse potentially harmful situations before they lead to dangerous extremes. The author is developing an interactive companion website to the book that will allow visitors to create personal shame maps based on their own scenario, to help readers employ this tool in real-world situations.

**Universal Access in Human-Computer Interaction. Users and Context Diversity** Margherita Antona, Constantine Stephanidis, 2016-07-04 The three-volume set LNCS 9737-9739 constitutes the refereed proceedings of the 10th International Conference on Universal Access in Human-Computer Interaction, UAHCI 2016, held as part of the 10th International Conference on Human-Computer Interaction, HCII 2016, in Toronto, ON, Canada in July 2016, jointly with 15 other thematically similar conferences. The total of 1287 papers presented at the HCII 2016 conferences were carefully reviewed and selected from 4354 submissions. The papers included in the three UAHCI 2016 volumes address the following major topics: novel approaches to accessibility; design for all and eInclusion best practices; universal access in architecture and product design; personal and collective informatics in universal access; eye-tracking in universal access; multimodal and natural interaction for universal access; universal access to mobile interaction; virtual reality, 3D and universal access; intelligent and assistive environments; universal access to education and learning; technologies for ASD and cognitive disabilities; design for healthy aging and rehabilitation; universal access to media and games; and universal access to mobility and automotive.

*Creative Integrative Medicine* Dr. Paul Drouin, 2014-08-19 A family tragedy the loss of his youngest brother at age eighteen from an osteosarcoma of the skull triggered Dr. Drouin's interest in studying medicine. Unsatisfied with the model of healing he encountered in medical school, he explored many other models of medicine that eventually led him to practice what is now called integrative medicine. He soon realized that for these complementary medicines to be accepted and integrated into our health care system, they must be scientifically recognized and become part of the curriculum in medical schools. The entire foundation of our approach to health and disease must be redefined through a deeper understanding of reality as described by quantum physics. Dr. Drouin's initial quest has evolved into the creation of a medical and natural medicine curriculum that embraces this new paradigm of healing and the foundation of the International Quantum University for Integrative Medicine (Quantum University). The cost of an incomplete model of understanding in medicine has enormous consequences in the management of chronic and mind-related disease. Creative integrative medicine addresses the real questions and offers a solution to the present crisis in health care. Dr. Paul Drouin is a true hero for writing this long overdue book. Finally, people are being told the truth about health, healing, and alternative treatments. This book has sound scientific proof to empower you back to true health care instead of sick care. **Routledge Handbook of Ethics and War** Fritz Allhoff, Nicholas G. Evans, Adam Henschke, 2013-06-26 This new Handbook offers a comprehensive overview of contemporary extensions and alternatives to the just war tradition in the field of the ethics of war. The modern history of just war has typically assumed the primacy of four particular elements: *jus ad bellum*, *jus in bello*, the state actor, and the soldier. This book will put these four elements under close scrutiny, and will explore how they fare given the following challenges: • What role do the traditional elements of *jus ad bellum* and *jus in bello*—and the constituent principles that follow from this distinction—play in modern warfare? Do they adequately account for a normative theory of war? • What is the role of the state in warfare? Is it or should it be the primary actor in just war theory? • Can a just war be understood simply as a response to territorial aggression between state actors, or should other actions be accommodated under legitimate recourse to armed conflict? • Is the idea of combatant *qua* state-employed soldier a valid ethical characterization of actors in modern warfare? • What role does the technological backdrop of modern warfare play in understanding and realizing just war theories? Over the course of three key sections, the contributors examine these challenges to the just war tradition in a way that invigorates existing discussions and generates new debate on topical and prospective issues in just war theory. This book will be of great interest to students of just war theory, war and ethics, peace and conflict studies, philosophy and security studies.

*Counterterrorism and Cybersecurity* Newton Lee, 2015-04-07 From 9/11 to Charlie Hebdo along with Sony-pocalypse and DARPA's \$2 million Cyber Grand Challenge, this book examines counterterrorism and cyber security history, strategies and technologies from a thought-provoking approach that encompasses personal experiences, investigative journalism, historical and current events, ideas from thought leaders and the make-believe of Hollywood such as 24, Homeland and The Americans. President Barack Obama also said in his 2015 State of the Union address, We are making sure our government integrates intelligence to combat cyber threats, just as we have done to combat terrorism. In this new edition, there are seven completely new chapters, including three new contributed chapters by healthcare chief information security officer Ray Balut and Jean C. Stanford, DEF CON speaker Philip Polstra and security engineer and Black Hat speaker Darren Manners, as well as new commentaries by communications expert Andy Marken and DEF CON speaker Emily Peed. The book offers practical advice for businesses, governments and individuals to better secure the world and protect cyberspace.

**Chaser** John W. Pilley, Hilary Hinzmann, 2013 Shares the uplifting story of a Border Collie who recognized an unprecedented number of human words to explore her role in advancing understandings about animal intelligence, recounting how she also demonstrated an ability to use deductive reasoning and imitation. 100,000 first printing.

**Stranger Danger** Paul M. Renfro, 2020-05-01 Beginning with Etan Patz's disappearance in Manhattan in 1979, a spate of high-profile cases of missing and murdered children stoked anxieties about the threats of child kidnapping and exploitation. Publicized through an emerging twenty-four-hour news cycle, these cases supplied evidence of what some commentators dubbed a national epidemic of child abductions committed by strangers. In this book, Paul M. Renfro narrates how the bereaved parents of missing and slain children turned their grief into a mass movement and, alongside journalists and policymakers from both major political parties, propelled a moral panic. Leveraging larger cultural fears concerning familial and national decline, these child safety crusaders warned Americans of a supposedly widespread and worsening child kidnapping threat, erroneously claiming that as many as fifty thousand American children fell victim to stranger abductions annually. The actual figure was (and remains) between one hundred and three hundred, and kidnappings perpetrated by family members and acquaintances occur far more frequently. Yet such exaggerated statistics—and the emotionally resonant images and narratives deployed behind them—led to the creation of new legal and cultural instruments designed to keep children safe and to punish the strangers who ostensibly wished them harm. Ranging from extensive child fingerprinting drives to the milk carton campaign, from the AMBER Alerts that periodically rattle Americans' smart phones to the nation's sprawling system of sex offender registration, these instruments have widened the reach of the carceral state and intensified surveillance practices focused on children. *Stranger Danger* reveals the transformative power of this moral panic on American politics and culture, showing how ideas and images of endangered childhood helped build a more punitive American state.

**Unfiltered Marketing** Stephen Denny, Paul Leinberger, 2020-11-01 Unfiltered Marketing's big ideas apply to business strategy, marketing, and the future of the brand/consumer relationship. It is a playbook for managers and for anyone interested in the ever-changing interaction between technology and culture. “Denny and Leinberger capture the profound truths and deep realities of leading and marketing in a rapidly evolving world of digital platforms.” —Blake Irving, former CEO of GoDaddy You can fake authenticity. But in this digitally saturated age, your customers will see

through any misdirection. As we are constantly on our electronic devices, we have come to distrust curated media and traditional PR. Stephen Denny and Paul Leinberger have found that people now want to make their own decisions based on raw footage, real-time updates, and unfiltered livestreams. How, then, do marketing executives and others gain consumer trust? These Fortune 500 consultants present the answer in Unfiltered Marketing. Drawing on four years of global research, authors Denny and Leinberger have developed a comprehensive five-step process for successfully rehumanizing the digital brand experience and gaining customer loyalty. To follow it, companies must understand that consumers are (1) seeking control in an out-of-control world; and executives must rework their brand to be (2) unscripted, (3) in-process, and (4) in-context, in order to master (5) heroic credibility (brands standing by their philosophy and values). Abiding by these rules, businesses follow in the successful footsteps of brands like Patagonia, T-Mobile, adidas, GoDaddy, and others.

**American Muckraker** James O’Keefe,2022-01-25 ON POWER They do have tremendous power. But in part it is because we give it to them. We are nothing, but we are not alone. Awe cannot live in fear. The moment you stop caring about what the media establishment thinks of you, is the moment you become truly free. ON INSIDERS The USPS whistleblower, a Marine Corps combat veteran said, “I would rather be back in Afghanistan, getting shot at by Afghans, honest to God,” than be interrogated by federal agent Russell Strasser—who coerced him by saying, “I am trying to twist you a little bit because your mind will kick in.... I am not scaring you, but I am scaring you.” ON PRIVACY The right to record is closely tied to the right to speak or even to take contemporaneous notes about what one sees and hears. As 60 Minutes producer Don Hewitt quipped, “People committing malfeasance don’t have any right to privacy.... What are we saying—that Upton Sinclair shouldn’t have smuggled his pencil in?” ON MEANS & ENDS Whereas the novelist Ernest Hemingway said, “What is moral is what you feel good after and what is immoral is what you feel bad after,” Thomas B. Morgan of the 1960s New Journalism contends, “Morally defensible journalism is rarely what you feel good about afterward; it is only that which makes you feel better than you would otherwise.” ON LITIGATION “Polling does not decide the truth nor speak to evidence.... The New York Times have not met their burden to prove that Veritas is deceptive...claiming protections from an upstart competitor armed with a cell phone and a website. There is a substantial basis in law to proceed, to permit Project Veritas, to conduct discovery into The New York Times.” —Project Veritas v. New York Times Company; New York Supreme Court, March 18, 2021

*The Plot Against the President* Lee Smith,2019-10-29 Investigative journalist Lee Smith uses his unprecedented access to Congressman Devin Nunes, former head of the House Intelligence Committee, to expose the deep state operation against the president -- and the American people. Investigative journalist Lee Smith's *The Plot Against the President* tells the story of how Congressman Devin Nunes uncovered the operation to bring down the commander-in-chief. While popular opinion holds that Russia subverted democratic processes during the 2016 elections, the real damage was done not by Moscow or any other foreign actor. Rather, this was a slow-moving coup engineered by a coterie of the American elite, the deep state, targeting not only the president, but also the rest of the country. The plot officially began July 31, 2016 with the counterintelligence investigation that the FBI opened to probe Russian infiltration of Donald Trump's presidential campaign. But the bureau never followed any Russians. In fact, it was an operation to sabotage Trump, the candidate, then president-elect, and finally the presidency. The conspirators included political operatives, law enforcement and intelligence officials, and the press. The plot was uncovered by Nunes, chairman of the House Intelligence Committee, and his investigative team. They understood that the target of the operation wasn't just Trump, but rather the institutions that sustain our republic. A country where operatives use the intelligence and security services to protect their privileges by spying on Americans, coordinating with the press, and using extra-constitutional means to undermine an election then undo a presidency is more like the third world than the republic envisioned by the founding fathers. Without Nunes and his team, the plot against the president -- and against the country -- never would have been revealed. Told from the perspective of Nunes and his crack investigators -- men and women who banded together to do the right thing at a crucial moment for our democracy -- the story of the biggest political scandal in a generation reads like a great detective novel, feels like a classic cowboy movie. The congressman from the cattle capital of California really did fight corruption in Washington. Devin Nunes took on the deep state.
