A Writer's Craft Kendall Dunkelberg, 2017-09-16 This introductory creative writing text uses a unique, multi-genre approach to provide students with a broad-based knowledge of their craft, treating them as professional writers. Beginning by discussing elements common to all genres, this book underscores the importance of learning good writing habits before committing to a genre, encouraging writers to look beyond their genre expectations and learn from other forms. The book then devotes one chapter to each of the major literary genres: fiction, poetry, drama and creative nonfiction. These style-specific sections provide depth as they compare the different genres, furnishing students with a comprehensive understanding of creative writing as a discipline and fostering creativity. The discussion concludes with a chapter on digital media and an appendix on literary citizenship and publishing. With exercises at the end of each chapter, a glossary of literary terms, and a list of resources for further study, A Writer's Craft is the ideal companion to an introductory creative writing class. It has been listed as one of the 'Best Books for Writers' by Poets and Writers magazine.

The Author's Craft Arnold Bennett, 2021-02-04 It will be well for us not to assume an attitude of condescension towards the crowd. Because in the matter of looking without seeing we are all about equal. We all go to and fro in a state of the observing faculties which somewhat resembles coma. We are all content to look and not see. And if and when, having comprehended that the rôle of observer is not passive but active, we determine by an effort to rouse ourselves from the coma and really to see the spectacle of the world (a spectacle surpassing circuses and even street accidents in sustained dramatic interest), we shall discover, slowly in the course of time, that the act of seeing, which seems so easy, is not so easy as it seems. Let a man resolve: I will keep my eyes open on the way to the office of a morning, and the probability is that for many mornings he will see naught that is not trivial, and that his system of perspective will be absurdly distorted. The unusual, the unaccustomed, will infallibly attract him, to the exclusion of what is fundamental and universal. Travel makes observers of us all, but the things which as travellers we observe generally show how unskilled we are in the new activity. A man went to Paris for the first time, and observed right off that the carriages of suburban train had seats on the roof like a tramcar. He was so thrilled by the remarkable discovery that he observed almost nothing else. This enormous fact occupied the whole foreground of his perspective. He returned home and announced that Paris was a place where people rode on the tops of trains. A Frenchwoman came to London for the first time—and no English person would ever guess the phenomenon which vanquished all others in her mind on the opening day. She saw a cat walking across a street. The vision excited her. For in Paris cats do not roam in thoroughfares, because there are practically no houses with gardens or areas; the flat system is unfavourable to the enlargement of cats. I remember once, in the days when observation had first presented itself to me as a beautiful pastime, getting up very early and making the circuit of inner London before summer dawn in quest of interesting material. And the one note I gathered was that the ground in front of the all-night coffee-stalls was white with egg-shells! What I needed then was an operation for cataract. I also remember taking a man to the opera who had never seen an opera. The work was Lohengrin. When we came out he said: That swan's neck was rather stiff. And it was all he did say. We went and had a drink. He was not mistaken. His observation was most just; but his perspective was that of those literary critics who give ten lines to pointing out three slips of syntax, and three lines to an ungrammatical admission that the novel under survey is not wholly tedious.

The Authors Craft Arnold Bennett, 2018-02-16 Four essays by Arnold Bennett on what he has learned as a writer: the importance of careful observation of detail, the writing of novels, the writing of plays, and finally a defense of the writer who wishes to please his public – something of a sore point with the enormously popular Bennett. Craft Moves Stacey Shubitz, 2016 Foreword by Lester Laminack How do you choose mentor texts for your students? How do you mine them for the craft lessons you want your students to learn? In *Craft Moves*, Stacey Shubitz, cofounder of the Two Writing Teachers website, does the heavy lifting for you: using twenty recently published picture books, she creates more than 180 lessons to teach various craft moves that will help your students become better writers. Stacey first discusses picture books as teaching tools and offers ways to integrate them into your curriculum, and classroom discussions. She also shares routines and classroom procedures to help students focus on their writing during the independent writing portion of writing workshop and helps teachers prepare for small-group instruction. Each of the 184 lessons in the book includes a publisher's summary, a rationale or explanation of the craft move demonstrated in the book, and a procedure that takes teachers and students back into the mentor text to deepen their understanding of the selected craft move. A step-by-step guide demonstrates how to analyze a picture book for multiple craft moves. Using picture books as mentor texts will help your students not only read as writers and write with joy but also become writers who can effectively communicate meaning, structure their writing, write with detail, and give their writing their own unique voice.

Cracking Open the Author's Craft Lester L. Laminack, 2007 Award-winning children's author and acclaimed educator Lester Laminack invites you and your students to join him as he peels back the layers of his picture book *Saturdays and Teacakes* to make the writing moves visible. With Lester as guide on the enclosed DVD, your young writers will observe and explore what he did, how he did it, and why he did it that way. As Lester demonstrates how to read with a writer's eyes and ears, your students will gain increasing control over their own narrative writing. Lester provides you with multiple tools. You'll find 14 ready-to-use mini-lessons to introduce your

students to techniques and literary elements. Carefully selected anchor texts provide inspiration for exploring each technique and element. In addition, a professional workshop to use on your own or with colleagues will deepen your own knowledge base. This workshop-in-a-book, also perfect for literacy coaches and teacher leaders, demonstrates how to read like a writer, identify craft moves, and form theories about why the moves were made. The DVD features Lester explaining how writers practice audible and visual craft, using Saturdays and Teacakes to illustrate both. The DVD also includes downloadable forms that you can share with your students to explore author's craft and to monitor their evolving understanding. Use the DVD to have Lester talk directly to the class, or use the book to present the lessons yourself. Either method will help you teach your students to develop their own craft moves, which will enliven and refine their writing. Book jacket.
