The Moment of Racial Sight Irene Tucker,2013-01-11 The Moment of Racial Sight overturns the most familiar form of racial analysis in contemporary culture: the idea that race is constructed, that it operates by attaching visible marks of difference to arbitrary meanings and associations. Searching for the history of the constructed racial sign, Irene Tucker argues that if people instantly perceive racial differences despite knowing better, then the underlying function of race is to produce this immediate knowledge. Racial perception, then, is not just a mark of acculturation, but a part of how people know one another. Tucker begins her investigation in the Enlightenment, at the moment when skin first came to be used as the primary mark of racial difference. Through Kant and his writing on the relation of philosophy and medicine, she describes how racialized skin was

created as a mechanism to enable us to perceive the likeness of individuals in a moment. From there, Tucker tells the story of instantaneous racial seeing across centuries—from the fictive bodies described but not seen in Wilkie Collins's realism to the medium of common public opinion in John Stuart Mill, from the invention of the notion of a constructed racial sign in Darwin's late work to the institutionalizing of racial sight on display in the HBO series *The Wire*. Rich with perceptive readings of unexpected texts, this ambitious book is an important intervention in the study of race.

Connecting The Wire Stanley Corkin,2017-02-14 Critically acclaimed as one of the best television shows ever produced, the HBO series *The Wire* (2002–2008) is a landmark event in television history, offering a raw and dramatically compelling vision of the teeming drug trade and the vitality of life in the abandoned spaces of the postindustrial United States. With a sprawling narrative that dramatizes the intersections of race, urban history, and the neoliberal moment, *The Wire* offers an intricate critique of a society riven by racism and inequality. In *Connecting The Wire*, Stanley Corkin presents the first comprehensive, season-by-season analysis of the entire series. Focusing on the show's depictions of the built environment of the city of Baltimore and the geographic dimensions of race and class, he analyzes how *The Wire*'s creator and showrunner, David Simon, uses the show to develop a social vision of its historical moment, as well as a device for critiquing many social givens. In *The Wire*'s gritty portrayals of drug dealers, cops, longshoremen, school officials and students, and members of the judicial system, Corkin maps a web of relationships and forces that define urban social life, and the lives of the urban underclass in particular, in the early twenty-first century. He makes a compelling case that, with its embedded

history of race and race relations in the United States, *The Wire* is perhaps the most sustained and articulate exploration of urban life in contemporary popular culture.

Economic gains of improving soil fertility and water holding capacity with clay application: the impact of soil remediation research in northeast Thailand Saleth, R. M., Inocencio, A., Noble, A. D., Ruaysoongnern, S., 2009 Declining productivity of agricultural soils in Northeast Thailand is a challenge facing land managers and farmers. A program was initiated in 2002 to investigate the potential role of incorporating clay-based materials into degraded soils as a means of enhancing productivity. This research report attempts to provide an ex-post assessment of the field level impact and economic viability of this approach, using the empirically derived estimates of the average income impacts that the application of bentonite or clay technology has generated among farm communities in Northeast Thailand. From an exclusive IWMI perspective, the impact evaluation suggests that the program has a net present value (NPV) of US\$0.41 million with a benefit-cost ratio (BCR) of 2.44 for the sample, and a NPV of US\$21 million with a BCR of 75 for the region.

The Wire Rafael Alvarez, David Simon, 2009-10-01 ' . . . All in the game.' West Baltimore Traditional THE WIRE has been widely hailed as the greatest television series of all time. It portrays the war of attrition between Baltimore's hardened police force and its drug dealers, and the blurring of good and evil, justice and injustice, right and wrong that happens every day as men and women struggle against the institutions they are bound up in. Over its five series it has built up a detailed, rich and layered portrait of Baltimore: from its corner boys touting dope and its dock workers facing extinction, through the strained education system and tainted halls of power, to the crumbling media establishment.

Rafael Alvarez - a reporter, essayist and staff writer for the show - brings the reader inside this world, detailing many of the real-life incidents and personalities that have inspired the show's storylines and characters. Packed with photographs and featuring an introduction by series creator and executive producer David Simon, as well as essays by acclaimed authors George Pelecanos, Ed Burns, Richard Price, Laura Lippman and Denis Lehane, it covers all five series in glorious detail.

Texas Place Names Edward Callary, 2020-06-02 Was Gasoline, Texas, named in honor of a gas station? Nope, but the name does honor the town's original claim to fame: a gasoline-powered cotton gin. Is Paris, Texas, a reference to Paris, France? Yes: Thomas Poteet, who donated land for the town site, thought it would be an improvement over "Pin Hook," the original name of the Lamar County seat. Ding Dong's story has a nice ring to it, derived from two store owners named Bell, who lived in Bell County, of course. Tracing the turning points, fascinating characters, and cultural crossroads that shaped Texas history, Texas Place Names provides the colorful stories behind these and more than three thousand other county, city, and community names. Drawing on in-depth research to present the facts behind the folklore, linguist Edward Callary also clarifies pronunciations (it's NAY-chis for Neches, referring to a Caddoan people whose

name was attached to the Neches River during a Spanish expedition). A great resource for road trippers and historians alike, Texas Place Names alphabetically charts centuries of humanity through the enduring words (and, occasionally, the fateful spelling gaffes) left behind by men and women from all walks of life.
