Mainstreaming Black Power Tom Adam Davies,2017-04-11 The traditional narrative of the civil rights movement has been that the more moderate demands of the mainstream movement, including Martin Luther King Jr., worked, but that the more radical demands of the Black Power movement derailed further success. Mainstreaming Black Power upends the traditional narrative by showing how Black Power Activists in New York, Atlanta, and Los Angeles during the 1960s through the 1970s navigated the nexus of public policies, black community organizations, elected officials, and liberal foundations. Tom Adam Davies unites local and national perspectives and reveals how the efforts of mainstream white politicians, institutions, and organizations engaged with Black Power ideology, and how they ultimately limited both the pace and extent of change.--Provided by publisher.

**Film Criticism in the Digital Age** Mattias Frey,Cecilia Sayad,2015-04-20 Over the past decade, as digital media has expanded and print outlets have declined, pundits have bemoaned a “crisis of criticism” and mourned the “death of the critic.” Now that well-paying jobs in film criticism have largely evaporated, while blogs, message boards, and social media have given new meaning to the saying that “everyone’s a critic,” urgent questions have emerged about the status and purpose of film criticism in the twenty-first century. In *Film Criticism in the Digital Age*, ten scholars from across the globe come together to consider whether we are witnessing the extinction of serious film criticism or seeing the start of its rebirth in a new form. Drawing from a wide variety of case studies and methodological perspectives, the book’s contributors find many signs of the film critic’s declining clout, but they also locate surprising examples of how critics—whether moonlighting bloggers or salaried writers—have been able to intervene in current popular discourse about arts and culture. In addition to collecting a plethora of scholarly perspectives, *Film Criticism in the Digital Age* includes statements from key bloggers and print critics, like Armond White and Nick James. Neither an uncritical celebration of digital culture nor a jeremiad against it, this anthology offers a comprehensive look at the challenges and possibilities that the Internet brings to the evaluation, promotion, and explanation of artistic works.

**The Stories of Building the Black Beach Community of Ocean City, North Carolina** Hope W. Jackson,2021-11-16 The Stories of Building the Black Beach Community of Ocean City, North Carolina shares a provocative story about a small Black beach community on North Topsail Island, North Carolina. Ocean City residents radically created a safe harbor for Blacks to visit, live, worship and recreate in the midst of de facto segregation.

Adam in the Morning Dwight Cathcart,2018-04-18 Adam in the Morning is about men and women who fought in the Stonewall riots in June and early July, 1969. They ask each other, What's happening here? They talk politics, they throw bricks and molotov cocktails at the cops, they get bloodied, and they read *The Wretched of the Earth* by Franz Fanon. They have sex. They lose their fear and understand their world has profoundly changed. They discuss big issues: What can we do to change our world? Am I strong enough? Are there enough of us? They are ready for the Revolution. Bo, the carpenter, thinks of starting a home for the street kids but also something even more dramatic, and Andrew, his partner, is starting a newspaper. Joseph, the actor, has fallen in love but can fight better than any of the rest of them. One of them says after the last night's riot, It's as if we've got more space in the city. They are committed to their cause, to each other, to all of people on the street, and their eyes look to the future.

**Faith in the City** Angela D. Dillard,2007-04-30 Spanning more than three decades and organized around the biographies of Reverends Charles A. Hill and Albert B. Cleage Jr., *Faith in the City* is a major new exploration of how the worlds of politics and faith merged for many of Detroit s African Americans a convergence that provided the community with a powerful new voice and identity. While other religions have mixed politics and creed, *Faith in the City* shows how this fusion was and continues to be particularly vital to African American clergy and the Black freedom struggle. Activists in cities such as Detroit sustained a record of progressive politics over the course of three decades. Angela Dillard reveals this generational link and describes what the activism of the 1960s owed to that of the 1930s. The labor movement, for example, provided Detroit s Black activists, both inside and outside the unions, with organizational power and experience virtually unmatched by any other African American urban community--Publisher description.

**Song Blue and White Porcelain on the Silk Road** Adam T. Kessler,2012-07-25 Song Blue and White Porcelain on the Silk Road disproves received opinion that pre-Ming blue and white dates to the Yuan (1279-1368 A.D.) and establishes the proper foundation for 21st century study of ancient Chinese porcelain.

**Color and Character** Pamela Grundy,2017-08-08 At a time when race and inequality dominate national debates, the story of West Charlotte High School illuminates the possibilities and challenges of using racial and economic desegregation to foster educational equality. West Charlotte opened in 1938 as a segregated school that embodied the aspirations of the growing African American population of Charlotte, North Carolina. In the 1970s, when Charlotte began court-ordered busing, black and white families made West Charlotte the celebrated flagship of the most integrated major school system in the nation. But as the twentieth century neared its close and a new court order eliminated race-based busing, Charlotte schools resegregated along lines of class as well as race. West Charlotte became the city's poorest, lowest-performing high school—a striking reminder of the people and places that Charlotte's rapid growth had left behind. While dedicated teachers continue to educate children, the school's challenges underscore the painful consequences of resegregation. Drawing on nearly two decades of interviews with students, educators, and alumni, Pamela Grundy uses the history of a community's beloved school to tell a broader American story of education, community, democracy, and race—all while raising questions about present-day strategies for school reform.

*The Story of Us Humans, from Atoms to Today's Civilization* Robert Dalling,2006-03 The Story of Us Humans explains human nature and human history, including the origins of our species, emotions, behavior, morals, and society. It explains what we are, how we got here, and where we are today by describing the origin, history, and current ways of our neighborhoods, religion, government, science, technology, and business. Written in plain language, it explains what astronomy, physics, geology, biology, chemistry, anthropology, history, religion, social science, and political science tell us about ourselves. Most everyone feels that human success is measured in terms of healthy and happy children and communities. Human thoughts and actions involve little besides love and children, spouse and family, community and justice because we are parenting mammals and social primates. Each of us simply wants to laugh and joke with our family and friends, pursue life, raise children and strive to be a valued and contributing member of our community. We have made incredible progress building civilization in just a few hundred generations using nothing

except our animal minds. Have you wondered: \* What are the laws of nature and how many laws are there? \* How did molecular life begin and then evolve into worms fish, amphibians, reptiles, mammals, primates, and humans? \* What are the differences between these animals? \* How did we get from the Big Bang to bacteria and on to Christianity, democracy, and globalization? \* What is life like for gatherer-hunters? \* When did we first become farmers and first build cities, and what was life like at those times? \* What was life like in Ancient Mesopotamia, Ancient Athens, 13th-century Cahokia, Medieval China and Europe, 19th-Century New England, Yoruban villages, and in the U.S. during the 1920s? \* What was the Industrial Revolution and how has it changed our lives? \* What are the Hindu, Muslim, Confucian, Jewish, Christian, Buddhist, and Humanist religions and world views? \* How have our wages, infant mortality rates, lifespans, crime rates, and poverty and inequality rates varied through the ages? \* What are the biggest economic and social secrets in the U.S. today? \* What are some meaningful goals and priorities for our civilization and how can we measure the success of our attempts to reach those goals? Includes questions, index, bibliography, and 1,200 internet links taking you to images, videos, and discussed documents.

Inside the Apple Michelle Nevius,James Nevius,2009-03-24 How much do you actually know about New York City? Did you know they tried to anchor Zeppelins at the top of the Empire State Building? Or that the high-rent district of Park Avenue was once so dangerous it was called Death Avenue? Lively and comprehensive, Inside the Apple brings to life New York's fascinating past. This narrative history of New York City is the first to offer practical walking tour know-how. Fast-paced but thorough, its bite-size chapters each focus on an event, person, or place of historical significance. Rich in anecdotes and illustrations, it whisks readers from colonial New Amsterdam through Manhattan's past, right up to post-9/11 New York. The book also works as a historical walking-tour guide, with 14 self-guided tours, maps, and step-by-step directions. Easy to carry with you as you explore the city, Inside the Apple allows you to visit the site of every story it tells. This energetic, wide-ranging, and often humorous book covers New York's most important historical moments, but is always anchored in the city of today.

Black Women and Politics in New York City Julie A. Gallagher,2012-05-21 Julie A. Gallagher documents six decades of politically active black women in New York City who waged struggles for justice, rights, and equality not through grassroots activism but through formal politics. In tracing the paths of black women activists from women's clubs and civic organizations to national politics--including appointments to presidential commissions, congressional offices, and even a presidential candidacy--Gallagher also articulates the vision of politics the women developed and its influence on the Democratic party and its policies. Deftly examining how race, gender, and the structure of the state itself shape outcomes, she exposes the layers of power and discrimination at work in all sectors of U.S. society.
