The Comparison Game Megan Gover, 2014-02 Let's face it: comparisons swarm us like flies on a hot summer's day. They're everywhere. Models on magazine covers make us green with envy. Everyone on the cheer team has mastered their back tuck, and we lag behind struggling to do so. In the hallways at school, every girl's hand is held by a boy, yet ours are unhappily empty. Because of this, our emotions fluctuate between pride and insecurity. Our identity is anchored in anything but Christ. Our lives are empty of truth. And the reason is simple. Comparison is the killer of joy. In The Comparison Game, Megan Gover makes the connection that many of us are living on a giant teeter-totter, weighing our worth against the lives of those around us. Whether we compare our beauty, talents, spiritual lives, friendships, families, dating relationships, or material possessions, we become stuck in a rut of hopelessness by not measuring up. Plummeting to inferiority or rising to pride, we suffer from the incessant tendency to compare ourselves, and it controls our every move. Providing practical tips with timeless truth, Megan Gover helps teen girls reclaim their joy from the vicious cycle of comparisons. The Comparison Game will help young women: Identify specific ways they compare themselves Pinpoint truth they are surrendering in those comparisons Counteract lies about their identity with Scripture Overcome comparisons in order to live joyfully After all, the Savior of this world died to give us joy. And, He doesn't want us to just hear or dream about it. He wants us to daily dwell and marinate in it.

Practising Comparison Joe Deville, Michael Guggenheim, Zuzana Hrdli Kova, 2016-07-25 This book compares things, objects, concepts, and ideas. It is also about the practical acts of doing comparison. Comparison is not something that exists in the world, but a particular kind of activity. Agents of various kinds compare by placing things next to one another, by using software programs and other tools, and by simply looking in certain ways. Comparing like this is an everyday practice. But in the social sciences, comparing often becomes more burdensome, more complex, and more questions are asked of it. How, then, do social scientists compare? What role do funders, their tools, and databases play in social scientific comparisons? Which sorts of objects do they choose to compare and how do they decide which comparisons are meaningful? Doing comparison in the social sciences, it emerges, is a

practice weighed down by a history in which comparison was seen as problematic. As it plays out in the present, this history encounters a range of other agents also involved in doing comparison who may challenge the comparisons of social scientists themselves. This book introduces these questions through a varied range of reports, auto-ethnographies, and theoretical interventions that compare and analyse these different and often intersecting comparisons. Its goal is to begin a move away from the critique of comparison and towards a better comparative practice, guided not by abstract principles, but a deeper understanding of the challenges of practising comparison.

The Value of Comparison Peter van der Veer, 2016-06-03 In *The Value of Comparison* Peter van der Veer makes a compelling case for using comparative approaches in the study of society and for the need to resist the simplified civilization narratives popular in public discourse and some social theory. He takes the quantitative social sciences and the broad social theories they rely on to task for their inability to question Western cultural presuppositions, demonstrating that anthropology's comparative approach provides a better means to understand societies. This capacity stems from anthropology's engagement with diversity, its fragmentary approach to studying social life, and its ability to translate difference between cultures. Through essays on topics as varied as iconoclasm, urban poverty, Muslim immigration, and social exclusion van der Veer highlights the ways that studying the particular and the unique allows for gaining a deeper knowledge of the whole without resorting to simple generalizations that elide and marginalize difference.

Regression Models for the Comparison of Measurement Methods Héleno Bolfarine, Mário de Castro, Manuel Galea, 2020-10-27 This book provides an updated account of the regression techniques employed in comparing analytical methods and to test the biases of one method relative to others – a problem commonly found in fields like analytical chemistry, biology, engineering, and medicine. Methods comparison involves a non-standard regression problem; when a method is to be tested in a laboratory, it may be used on samples of suitable reference material, but frequently it is used with other methods on a range of suitable materials whose concentration levels are not known precisely. By presenting a sound statistical background not found in other

books for the type of problem addressed, this book complements and extends topics discussed in the current literature. It highlights the applications of the presented techniques with the support of computer routines implemented using the R language, with examples worked out step-by-step. This book is a valuable resource for applied statisticians, practitioners, laboratory scientists, geostatisticians, process engineers, geologists and graduate students.

The Comparison Trap HELEN ROBERTS,2020-03-19 Too often, women hold each other back, bad mouthing and making unflattering comparisons. Social media give extra opportunities for negative comment. Are we trapped in our own battles, or entertained by the wars of other women, to the detriment of our own freedom and well-being? What would happen, asks Helen Roberts, if women ceased to compete and compare? What if we settled our conflicts and resolved instead to champion one another? To celebrate each other's victories? Helen explores the complexities of female relationships in workplaces, families and friendship circles, using contemporary, historical, personal and biblical examples. She investigates Scripture to see how, through the work of the Holy Spirit, we can cease the all-too-frequent "she wars". She helps us recognise our own destructive tendencies and establish healthy habits which will enable women and their relationships to thrive. This will help us live more confidently as the daughters the Father intends us to be, free from envy or comparison.

Comparison Girl Shannon Popkin,2020-05-19 Women compare constantly--on social media, in their neighborhood, at church, even in the school drop-off lane. They glance sideways and ask themselves, How do I measure up? All this assessment feels like a natural way of finding a place in the world. But it pulls them into feelings of inferiority or superiority, guiding them into a trap of antagonism by the enemy. Satan would like women to strive to measure up, constantly adding to a tally sheet that can't ever be balanced. The way of Jesus is completely upside down from that philosophy. Instead, he says the last shall be first--and the greatest are those who empty themselves, lay down their lives, and serve each other. Through conversations Jesus had and parables he shared, Shannon Popkin has created a seven-week Bible study to address this tendency to compare and judge ourselves and others. Each chapter is divided into lessons, allowing women on a time budget to read a Bible passage, engage in a complete train of thought related to the topic, and then make the content personal--all in one sitting. And the informal teaching tone will make women feel like they're meeting with a trusted friend. Suited for both individual and group study, Comparison Girl will guide women to leave their measure-up ways behind, connect with those around them, and break free from the shackles of comparison!

Comparison Trap Sandra Stanley,2017-01-01
Comparison Rita Felski,Susan Stanford Friedman,2013-06-15 An extended volume of New Literary History that considers the practice of comparison in literary studies and other disciplines within the humanities. Writing and teaching across cultures and disciplines makes the act of comparison

inevitable. Comparative theory and methods of comparative literature and cultural anthropology have permeated the humanities as they engage more centrally with the cultural flows and circulation of past and present globalization. How do scholars make ethically and politically responsible comparisons without assuming that their own values and norms are the standard by which other cultures should be measured? Comparison expands upon a special issue of the journal *New Literary History*, which analyzed theories and methodologies of comparison. Six new essays from senior scholars of transnational and postcolonial studies complement the original ten pieces.

The work of Gayatri Chakravorty Spivak, Ella Shohat, Robert Stam, R. Radhakrishnan, Bruce Robbins, Ania Loomba, Haun Saussy, Linda Gordon, Walter D. Mignolo, Shu-mei Shih, and Pheng Cheah are included with contributions by anthropologists Caroline B. Brettell and Richard Handler. Historical periods discussed range from the early modern to the contemporary and geographical regions that encompass the globe. Ultimately, Comparison argues for the importance of greater self-reflexivity about the politics and methods of comparison in teaching and in research.

Killing Comparison Nona Jones, 2022-09-27 It's time to leave behind the discontent of comparison and discover a free and joyful life. Join Pastor Nona Jones--who was recently featured on GMA3--as she gives you the tools you need to kill comparison once and for all. Nearly all of us deal with the struggle of comparison and finding ourselves lacking. But there is a way to break free from internal and external messages communicating a lack of self-worth. It starts with identifying the basis of your urge to compare and ends with securing your identity to the unchanging confidence of God's love for you. Nona Jones knows this journey all too well. Throughout her life and in her career--most recently as an executive for the world's largest social media company--Nona discovered that despite professional success, true confidence can only be achieved by defeating toxic comparison and securing our identity to God's approval alone. Killing Comparison provides a fresh, biblically rooted perspective on an age-old human dilemma--the pressure to compare oneself to others--that the era of social media has exacerbated and heightened. This timely and necessary guide will help you: Determine your true source of self-worth Develop practical ways to conquer daily comparison Learn how to control social media instead of letting it control you Discover how to accomplish your dreams without comparing yourself at every turn Identify the root cause leading you to compare your life to others Through practical insight and down-to-earth encouragement, Nona helps you avoid the despair of comparison and pursue a free, joyful life.

The Other Side of Beauty Leah Darrow, 2017-11-21 "Leah Darrow uses her experience in the beauty industry to help the women of our culture see what true beauty looks like." —Jennifer Fulwiler, host of The Jennifer Fulwiler Show and author of Something Other than God Do you feel like you're never good enough? Like you should be living a more Instagram-worthy life? Are you exhausted by the impossible quest for physical beauty but still yearn for the validation of being chosen, valued, and deemed beautiful? Drawing on her experience on America's Next Top Model and her work as a fashion model, Leah Darrow exposes the lies we are told about our worth being tied to our appearance and instead invites us to look again at the real meaning of beauty. She shows how we can reclaim true and lasting beauty—the kind that doesn't depend on self-doubt, exploitation, or comparison—when we reflect

God's glory and embrace our value as he made us to be: strong, brave, and free. Only when we learn to see ourselves as God does can we leave behind our culture's definitions and demands and find joy in The Other Side of Beauty.

The Art of Comparison Catherine Brown, 2017-12-02 Comparison underlies all reading. Readers compare words to words, and books to all the other books which they have read. Some books, however, demand a particular comparative effort - for example, novels which contain parallel plot lines. In this ambitious and important study Catherine Brown compares Daniel Deronda with Anna Karenina and Women in Love in order to answer the following questions: why does one protagonist in each novel fail whilst another succeeds? Can their failure and success be understood on the same terms? How do the novels' uses of comparison compare to each other? How relevant is George Eliot's influence on Lev Tolstoi, and Tolstoi's on D. H. Lawrence? Does Tolstoi being a Russian make this a 'comparative' literary study? And what does the 'comparative' in 'comparative literature' actually mean? Criticism is combined with metacriticism, to explore how novels and critics compare.

Rethinking Comparison Erica S. Simmons, Nicholas Rush Smith, 2021-10-07 Qualitative comparative methods – and specifically controlled qualitative comparisons – are central to the study of politics. They are not the only kind of comparison, though, that can help us better understand political processes and outcomes. Yet there are few guides for how to conduct non-controlled comparative research. This volume brings together chapters from more than a dozen leading methods scholars from across the discipline of political science, including positivist and interpretivist scholars, qualitative methodologists, mixed-methods researchers, ethnographers, historians, and statisticians. Their work revolutionizes qualitative research design by diversifying the repertoire of comparative methods available to students of politics, offering readers clear suggestions for what kinds of comparisons might be possible, why they are useful, and how to execute them. By systematically thinking through how we engage in qualitative comparisons and the kinds of insights those comparisons produce, these collected essays create new possibilities to advance what we know about politics.

Considering Comparison Oliver Freiberger, 2019-01-02 The comparative method is an integral part of religious studies. All the technical terms that scholars of religion use on a daily basis, such as ritual, hagiography, shrine, authority, fundamentalism, hybridity, and, of course, religion, are comparative terms. Yet comparison has been subject to criticism, including postcolonialist and postmodernist critiques. Older approaches are said to have used comparison primarily to confirm preconceptions about religion. More recently, comparison has been criticized as an act of abstraction that does injustice to the particular, neglects differences, and establishes a mostly Western power of definition over the rest of the world. In this book, Oliver Freiberger takes a closer look at how comparison works. Revisiting critical debates and examining reflections in other disciplines, including comparative history, sociology, comparative theology, and anthropology, Freiberger proposes a model of comparison that is based on a thorough epistemological analysis and that takes both the scholar's situatedness and his or her agency

seriously. Examining numerous examples of comparative studies, Considering Comparison develops a methodological framework for conducting and evaluating such studies. Freiberger suggests a comparative approach - which he calls discourse comparison - that confronts the omnipresent risks of decontextualization, essentialization, and universalization. This book makes a case for comparison, arguing that it is indispensable for a deeper analytical understanding of what we call religion. The book is intended to enrich the practice of both aspiring and seasoned comparativists, stimulate much-needed further discussions about comparative methodology, and encourage more scholars to produce responsible comparative studies.
