The Demotic Magical Papyrus of London and Leiden Francis Llewellyn Griffith, 1904

The Greek Magical Papyri in Translation, Including the Demotic Spells, Volume 1 Hans Dieter Betz, 2022-10-14 The Greek magical papyri is a collection of magical spells and formulas, hymns, and rituals from Greco-Roman Egypt, dating from the second century B.C. to the fifth century A.D. Containing a fresh translation of the Greek papyri, as well as Coptic and Demotic texts, this new translation has been brought up to date and is now the most comprehensive collection of this literature, and the first ever in English. The Greek Magical Papyri in Transition is an invaluable resource for scholars in a wide variety of fields, from the history of religions to the classical languages and literatures, and it will fascinate those with a general interest in the occult and the history of magic. One of the major achievements of classical and related scholarship over the last decade.—Ioan P. Culianu, *Journal for the Study of Judaism* The enormous value of this new volume lies in the fact that these texts will now be available to a much wider audience of readers, including historians of religion, anthropologists, and psychologists.—John G. Gager, *Journal of Religion* [This book] shows care, skill and zest. . . . Any worker in the field will welcome this sterling performance.—Peter Parsons, *Times Literary Supplement*

The Demotic Magical Papyrus of London and Leiden F. L. Griffith, Herbert Thompson, 2016-06-01 How to invoke Anubis and release the dead . . . how to divine with a lamp . . . how to conjure up a damned spirit . . . how to have dream visions . . . how to make magic ointments . . . how to blind or kill your enemies . . . how to use the charm of the ring . . . how to invoke Thoth and bring good fortune . . . These are among the many topics of practical magic contained in the so-called Leyden Papyrus, an ancient Egyptian manuscript that dates from around the beginning of the Christian era. Probably the textbook of a practicing sorcerer in Egypt, this remarkable work contains scores of spells which the writer firmly believes will work: sex magic of various sorts, occult information, evoking visions, working evil, healing, removing evil magic--and all the other tasks that a sorcerer might have to undertake. Discovered at Thebes in the middle of the 19th century, assembled from fragments at Leiden and London, this fifteen-foot strip of papyrus is still one of the most important documents for revealing the potions, spells, incantations, and other forms of magic worked in Egypt. In addition to purely native elements involving the gods, the manuscript shows the influence of Gnostic beliefs, Greek magic, and other magical traditions. A transliteration of the demotic script is printed on facing pages with a complete translation, which is copiously supplied with explanatory footnotes. The editors supply an informative introduction and a classification of the types of magic involved. As a result, this publication is of great importance to the Egyptologist, student of magic, and the reader who wishes to judge the efficacy of Egyptian magic for himself.

The Demotic Magical Papyrus of London and Leiden F. L. Griffith, Herbert Thompson, 2013-11 An excerpt from the beginning of the PREFACE: The MS., dating from the third century A.D., which is here edited for the first time in a single whole, has long been known to scholars. Its subject-matter – magic and medicine – is not destitute of interest. It is closely connected with the Greek magical papyri from Egypt of the same period, but, being

written in demotic, naturally does not reproduce the Greek hymns which are so important a feature of those papyri. The influence of purely Greek mythology also is here by comparison very slight – hardly greater than that of the Alexandrian Judaism which has supplied a number of names of Hellenistic form to the demotic magician. Mithraism has apparently contributed nothing at all: Christianity probably only a deformed reference to the Father in Heaven. On the other hand, as might have been expected, Egyptian mythology has an overwhelmingly strong position, and whereas the Greek papyri scarcely go beyond Hermes, Anubis, and the Osiris legend, the demotic magician introduces Khons, Amon, and many other Egyptian gods. Also, whereas the former assume a knowledge of the modus operandi in divination by the lamp and bowl, the latter describes it in great detail. But the papyrus is especially interesting for the language in which it is written. It is probably the latest Egyptian MS. which we possess written in the demotic script, and it presents us with the form of the language as written – almost as spoken – by the pagans at the time when the Greek alphabet was being adopted by the Christians. It must not be forgotten, too, that this is the document which contributed perhaps more than any other to the decipherment of demotic, partly through its numerous Greek glosses. We have therefore thought that a complete edition, with special reference to its philological importance, would be useful.
