Social Media Marketing Alan Charlesworth,2017-11-21 Published in 1837, Hans Christian Andersen’s The Emperor's New Clothes tells the tale of two weavers who present a non-existent suit of clothes to the Emperor with the caution that the suit is invisible to those who are unfit for their positions, stupid, or incompetent. As the Emperor parades in his underwear no one dares to say that they see no clothes—with the exception for one small child who exclaims; “he isn’t wearing anything at all.” Fast forward to the present day and business owners and managers around the world are told that anyone who cannot see the benefits of social media marketing are unfit for their positions, stupid, or incompetent. As organizations, brands and products fill the social media landscape with meaningless, objectiveless drivel that has interest to no one and serves only to waste resources and alienate customers, a small voice can be heard exclaiming; “who told you that was a good idea?” The caveat to this contemporary tale is that for a very few organizations, brands and products, social media has provided a kind-of marketing panacea. Correction: make that a very, very few organizations. For the rest, they are metaphorically parading in their digital underwear. All is not lost however. Although many have been duped in a new clothes-esque sting, and that their social media marketing efforts are indeed, invisible—but marketing on social media might just be riding to the rescue.

The Emperor's New Road Jonathan E. Hillman,2020-09-29 A prominent authority on China’s Belt and Road Initiative reveals the global risks lurking within Beijing’s project of the century China’s Belt and Road Initiative is the world’s most ambitious and misunderstood geoeconomic vision. To carry out President Xi Jinping’s flagship foreign-policy effort, China promises to spend over one trillion dollars for new ports, railways, fiber-optic cables, power plants, and other connections. The plan touches more than one hundred and thirty countries and has expanded into the Arctic, cyberspace, and even outer space. Beijing says that it is promoting global development, but Washington warns that it is charting a path to global dominance. Taking readers on a journey to China’s projects in Asia, Europe, and Africa, Jonathan E. Hillman reveals how this grand vision is unfolding. As China pushes beyond its borders and deep into dangerous territory, it is repeating the mistakes of the great powers that came before it, Hillman argues. If China succeeds, it will remake the world and place itself at the center of everything. But Xi may be overreaching: all roads do not yet lead to Beijing.
