

The Empire Team

Subhas Ranjan Chakraborty,Shantanu Chakrabarti,Kingshuk Chatterjee

The British World and the Five Rings Erik Nielsen,Matthew Llewellyn,2017-10-02 Prior to the outbreak of World War II, the British presided over the largest Empire in world history, a vast transoceanic and transcontinental realm of dominions, colonies, protectorates and mandates that covered over one-quarter of the world's land mass and comprised a population of over 450-million subjects. Spanning Europe, the Americas, Africa, Asia and Oceania, over fifty modern nations—currently recognized by the International Olympic Committee—were governed and controlled by the British crown at some stage prior to the gradual dissolution of the Empire. The British World and the Five Rings seeks to explore the relationship between the former British Empire and the Olympic Movement. It pays due regard to the settler dominions, but it also addresses those territories who were less willing partners in the British imperial project. In doing so, the tendency of so-called 'British World' histories to promote an apologia for Empire is rejected in favour of a critical approach to imperialism. Combining thorough research with engaging and accessible writing, The British World and the Five Rings is applicable to many fields of Olympic scholarship making it a central work in the growing field of sports studies. This book was published as a special issue of Sport in Society.

Sport and the British World, 1900-1930 E. Nielsen,2014-06-12 This book provides a lively study of the role that Australians and New Zealanders played in defining the British sporting concept of amateurism. In doing so, they contributed to understandings of wider British identity across the sporting world.

Sport in Australasian Society J A Mangan,John Nauright,2013-01-11 As Sydney prepares to host the 2000 Olympic games, this study assesses the cultural impact of sport on the Australasian countries. Here, as in other parts of the world, sport is taken as an assertion of both individual and group identity, a demonstration of modernity and a source of personal, local and regional esteem. This collection explores the political, social and aesthetic influence of modern sport, attitudes to the body and the evolution of specific Australasian visions of sport.

The Race of the Century: The Battle to Break the Four-Minute Mile (Scholastic Focus) Neal Bascomb,2022-04-05 Highly acclaimed author Neal Bascomb brings his peerless research and fast-paced narrative style to a young adult adaptation of one of his most successful adult books of all time, The Perfect Mile, an inspiring and moving story of three men racing to achieve the impossible -- the perfect four-minute mile. Scholastic Focus is the premier home of thoroughly researched, beautifully written, and thoughtfully designed works of narrative nonfiction aimed at middle-grade and young adult readers. These books help readers learn about the world in which they live and develop their critical thinking skills so that they may become dynamic citizens who are able to analyze and understand our past, participate in essential discussions about our present, and work to grow and build our future. There was a time when running the mile in four minutes was believed to be beyond the limits of human foot speed. In 1952, after suffering defeat at the Helsinki Olympics, three world-class runners each set out to break this barrier: Roger Bannister was a young English medical student who epitomized the ideal of the amateur; John Landy the privileged son of a genteel Australian family; and Wes Santee the swaggering American, a Kansas farm boy and natural athlete. Spanning three continents and defying the odds, these athletes' collective quest captivated the world. Neal Bascomb's bestselling adult account adapted for young readers delivers a breathtaking story of unlikely heroes and leaves us with a lasting portrait of the twilight years of the golden age of sport.

The Commonwealth Games Brian Oliver,2014-05-22 How well do you know the Friendly Games? Sports journalist Brian Oliver brings the Commonwealth Games to life with riveting stories of the athletes who have competed over the years. He delves into the best tales of the past and interviews the key protagonists to unveil the highs and lows of this idiosyncratic sporting competition. There is the classic contest between Roger Bannister and John Landy just months after both had at last broken the four-minute mile, and the lesser-known struggles of one of Australia's greatest swimmers, Dawn Fraser, against the petty-minded and all-male 'silver spoon mob' who ran amateur sport. Read the sad tale of Emmanuel Ifeajuna, the first ever black African to win a gold medal, in any sport in any international event. He won high jump gold in 1954 and became a national hero in Nigeria, but after staging a coup was arrested for treachery and shot by firing squad. Find out why the 1974 Games in Christchurch, New Zealand were known as the 'Emigration Games', and the story behind the bitter 1980s swimming pool rivalry between England's Adrian Moorhouse and Victor Davis of Canada. There are many more, from that of 4-foot 10-inch weightlifter Precious McKenzie ? who rose through brutal abuse and discrimination to record-breaking success and a dance with the Princess Royal ? to the penniless and boycotted 1986 Games in Edinburgh that were 'saved' by Robert Maxwell and a bucket of fried chicken. The Commonwealth Games is a fascinating insight into human tales of endeavour, success and failure.

The Emergence of International Society in the 1920s Daniel Gorman,2012-08-20 Chronicling the emergence of an international society in the 1920s, Daniel Gorman describes how the shock of the First World War gave rise to a broad array of overlapping initiatives in international cooperation. Though national rivalries continued to plague world politics, ordinary citizens and state officials found common causes in politics, religion, culture, and sport with peers beyond their borders. The League of Nations, the turn to a less centralized British Empire, the beginning of an international ecumenical movement, international sporting events, and audacious plans for the abolition of war all signaled internationalism's growth. State actors played an important role in these developments and were aided by international voluntary organizations, church groups, and international networks of academics, athletes, women, pacifists, and humanitarian activists. These international networks became the forerunners of international NGOs and global governance.

The Politics of Sport in South Asia Subhas Ranjan Chakraborty,Shantanu Chakrabarti,Kingshuk Chatterjee,2013-09-13 Behind the spectacle of entertainment, sport is a subject with political issues at every level. These issues range from the social, with divisions created along gender and class lines, to the use of sport to pursue diplomatic and statecraft goals. In addition, some sports are positioned and promoted as national events both in public opinion and in the media. This book seeks to explore some aspects of the notion of power in sport in south Asia and among south Asians abroad. The first two chapters deal with the internal societal dimensions of the politics of sport; the next three relate to the politics inside the sporting world in the subcontinent and its bridge with the broader arena of the society through the media, while the last five relate to the use of sports in statecraft, consensus building and international politics. This book was based on two special issues of the International Journal of the
