The Legend of Nezha Francis Gerard, 2018-12-31

Oedipal God Meir Shahar, 2015-08-31 *Oedipal God* offers the most comprehensive account in any language of the prodigal deity Nezha. Celebrated for over a millennium, Nezha is among the most formidable and enigmatic of all Chinese gods. In this theoretically informed study Meir Shahar recounts Nezha's riveting tale—which culminates in suicide and attempted patricide—and uncovers hidden tensions in the Chinese family system. In deploying the Freudian hypothesis, Shahar does not imply the Chinese legend's identity with the Greek story of Oedipus. For one, in Nezha's story the erotic attraction to the mother is not explicitly acknowledged. More generally, Chinese oedipal tales differ from Freud's Greek prototype by the high degree of repression that is applied to them. Shahar argues that, despite a disastrous father-son relationship, Confucian ethics require that the oedipal drive masquerade as filial piety in Nezha's story, dictating that the child-god kill himself before trying to avenge himself upon his father. Combining impeccable scholarship with an eminently readable style, the book covers a vast terrain: It surveys the image of the endearing child-god across varied genres from oral and written fiction, through theater, cinema, and television serials, to Japanese manga cartoons. It combines literary analysis with Shahar's own anthropological field work, providing a thorough ethnography of Nezha's flourishing cult. Crossing the boundaries between China's diverse religious traditions, it tracks the rebellious infant in the

many ways he has been venerated by Buddhist monks, Daoist priests, and possessed spirit mediums, whose dramatic performances have served to negotiate individual, familial, and collective tensions. Finally, the book offers a detailed history of the legend and the cult reaching back over two thousand years to its origins in India, where Nezha began as a mythological being named Nalakūbara, whose sexual misadventures were celebrated in the Sanskrit epics as early as the first centuries BCE. Here Shahar reveals the long-term impact that Indian mythology has exerted—through the medium of esoteric Buddhism—upon the Chinese imagination of divinity. A tour de force of literary analysis, ethnographic research, psychological insight, and cross-cultural investigation, Oedipal God is a must read for anyone interested in Chinese studies and the historical connection between India and China. Shahar's broad reach and engaging approach will appeal to specialists and students in a variety of disciplines including Chinese religion, Chinese literature, anthropology, Buddhist studies, psychology, Indian studies, and cross-cultural history.

The Devil of Nezha is Born (哪吒的诞生) is a famous folktale adapted from the Chinese mythology and tells the story of Nezha's growing experience of being born to be a devil but fighting against the sky to the end. Nezha (哪吒) is the reincarnation of Mo Wan (魔丸), son of Li Jing (李靖). Because of his reincarnation status, he faced discrimination, exclusion, ridicule, and hostility by the people

of Chen Tangguan (陈塘关). As a result, he felt lonely, indifferent, rebellious, stubborn, cynical, and he created trouble for the people of Chen Tangguan, so that no one could live peacefully. Under the cynical appearance, Nezha is more lonely than anyone else is, and he is constantly eager for social approval. As such, Nezha was supposed to be a hero. Rewriting Cultural Psychology David Y. F. Ho, 2019-10-15 This volume is addressed to scholars as well as a popular audience, aimed to bridge the gap between academia and the general public. It deals with who we are, concerning our sense of self and identity; and how we live, concerning our ways of life in diverse cultures. It affirms that we may transcend our cultural-ethnic roots and redefine our identities, individual or collective. Transcendence opens the door not only to personal transformation but also to confront ethnic stereotypes and prejudices. Readers will gain fresh cultural knowledge from both the East and the West and be attuned to the theme of letting no ethnic group be alien to us. This book is at once about the immersion of life in culture and the remaking of culture by human action--reciprocal influence at work. □ The idea of immersion underscores the powerful cultural forces that shape our perceptions, thinking, and emotions. Unlike other cultural psychology texts, this volume dwells on the accelerating alterations of culture by human action, and hence the remaking of our own being, in the age of the Internet. In the author's own words: I write with the passion of a

person who has lived life from being marginal, neither Eastern nor Western, to being a world citizen; turned to English like a duck to the water, thus circumventing my handicap of Chinese orthographic dyslexia. I have two cultural parents, one Chinese and one Western, who transformed me into a thoroughly bilingual-bicultural person, empowered to build intercultural bridges. The East is rising, and the West can ill-afford to remain ignorant of the East.

A History of Literature in the Ming Dynasty

Shuofang Xu, Qiuke Sun, 2022-01-22 This book explores poems, novels, legends, operas and other genres of writing from the Ming Dynasty. It is composed of two parts: the literary history; and comprehensive reference materials based on the compilation of several chronologies. By studying individual literary works, the book analyzes the basic laws of the development of literature during the Ming Dynasty, and explores the influences of people, time, and place on literature from a sociological perspective. In turn, it conducts a contrastive analysis of Chinese and Western literature, based on similar works from the same literary genre and their creative methods. The book also investigates the relationship between literary theory and literary creation practices, including those used at various poetry schools. In closing, it studies the unique aesthetic traits of related works. Sharing valuable insights and perspectives, the book can serve as a role model for future literary history studies. It offers a unique resource for literary researchers,

reference guide for students and educators, and lively read for members of the general public.

Animation in China Sean Macdonald, 2015-11-06 By the turn of the 21st century, animation production has grown to thousands of hours a year in the People's Republic of China (PRC). Despite this, and unlike American blockbuster productions and the diverse genres of Japanese anime, much animation from the PRC remains relatively unknown. This book is an historical and theoretical study of animation in the PRC. Although the Wan Brothers produced the first feature length animated film in 1941, the industry as we know it today truly began

in the 1950s at the Shanghai Animation Film Studio (SAFS), which remained the sole animation studio until the 1980s. Considering animation in China as a convergence of the institutions of education, fine arts, literature, popular culture, and film, the book takes comparative approaches that link SAFS animation to contemporary cultural production including American and Japanese animation, Pop Art, and mass media theory. Through readings of classic films such as Princess Iron Fan, Uproar in Heaven, Princess Peacock, and Nezha Conquers the Dragon King, this study represents a revisionist history of animation in the PRC as a form of postmodernism with Chinese characteristics. As a theoretical exploration of animation in the People's Republic of China, this book will appeal greatly to students and scholars of animation, film studies, Chinese studies, cultural studies, political and cultural theory.

Asian Folk Religion and Cultural Interaction

Yoshihiro Nikaidō,2015-10-28 This book uses a cultural interaction approach to discuss numerous temples and shrines of Sinitic origin that house Daoist, Buddhist, and folk gods. Such deities were transmitted outside the Chinese continent, or were introduced from other regions and syncretized. Examples include temple guardian gods that arrived in Japan from China and later became deified as part of the Five Mountain system, and a Daoist deity that transformed into a god in Japan after syncretizing with Myōken Bosatsu. The profoundly different images of Ksitigarbha in China and Japan are discussed, as well as Mt. Jiuhua, the center of Ksitigarbha in modern China. Lastly, the process by which Sinitic gods were transmitted to

regions outside of the Chinese continent, such as Taiwan, Singapore, and Okinawa, is explored.

Animation: A World History Giannalberto Bendazzi, 2015-11-06 A continuation of 1994's groundbreaking Cartoons, Giannalberto Bendazzi's Animation: A World History is the largest, deepest, most comprehensive text of its kind, based on the idea that animation is an art form that deserves its own place in scholarship. Bendazzi delves beyond just Disney, offering readers glimpses into the animation of Russia, Africa, Latin America, and other often-neglected areas and introducing over fifty previously undiscovered artists. Full of first-hand, never before investigated, and elsewhere unavailable

information, Animation: A World History encompasses the history of animation production on every continent over the span of three centuries. Volume III catches you up to speed on the state of animation from 1991 to present. Although characterized by such trends as economic globalization, the expansion of television series, emerging markets in countries like China and India, and the consolidation of elitist auteur animation, the story of contemporary animation is still open to interpretation. With an abundance of first-hand research and topics ranging from Nickelodeon and Pixar to modern Estonian animation, this book is the most complete record of modern animation on the market and is essential reading for all serious students of animation history.

Chinese Animation Rolf Giesen, 2014-12-19 With an output of more than 250,000 minutes annually, and with roughly 5,000 producers and production units, the Chinese are leading the field of animated films. Although it is almost impossible to completely cover 90 years of filmmaking, this book provides a comprehensible introduction to the industry's infancy, its Golden Age (Shanghai Animation Film Studio) and today's Chinese animation (in feature films, television series and student films). There are classics such as Princess Iron Fan (made at the time of the Japanese occupation) and the color Havoc in Heaven, both starring the Monkey King Sun Wukong,

as well as countless TV stars (Blue Cat, Pleasant Goat and Big Big Wolf) and many almost unknown works by young filmmakers who are not focusing on an audience of children (like most of the industry output).
