The Nervous Housewife (Classic Reprint) Abraham Myerson,2018-01-14 Excerpt from The Nervous Housewife What are the causes Of the change? Did the housewife Of a past generation go through the same stage? Ask any man you meet and he will tell you his mother is or was more enduring than his wife. She bore three times as many children; she did all her own housework; she baked more,

cooked more, sewed more; she got up at five O'clock in the morning and went to bed at ten at night; she never went out, never had a vacation, did not know the meaning Of mani cure, pedicure, coiffure. She was contented, never extravagant, and rarely sick. About the Publisher Forgotten Books publishes hundreds of thousands of rare and classic books. The Nervous Housewife Abraham Myerson, 2014-04-28 How old is the problem of the Nervous Housewife? Did the semi-mythical Cave Man (who is perhaps only a pseudo-scientific creation) on his return from a prehistoric hunt find his leafy spouse all in tears over her staglocythic house-cleaning, or the conduct of the youngest cave child? Did she complain of her back, did she have a headache every

time they disagreed, did she fuss and fret until he lost his patience and dashed madly out to the Cave Man's Refuge?

The Nervous Housewife Abraham Myerson, 2018-08-06 **The Nervous Housewife: Large Print** By Abraham Myerson CHAPTER I Introductory How old is the problem of the Nervous Housewife? Did the semi-mythical Cave Man (who is perhaps only a pseudo-scientific creation) on his return from a prehistoric hunt find his leafy spouse all in tears over her staglocythic house-cleaning, or the conduct of the youngest cave child? Did she complain of her back, did she have a headache every time they disagreed, did she fuss and fret until he lost his patience and dashed madly out to the Cave Man's Refuge? We cannot tell; we only know that all humor aside, and without reference to the past, the Nervous Housewife is surely a phenomenon of the present-day American home. In greater or less degree she is in every man's home; nor is she alone the rich Housewife with too little to do, for though riches do not protect, poverty predisposes, and the poor Housewife is far more frequently the victim of this disease of occupation. Every practicing physician, every hospital clinic, finds her a problem, evoking pity, concern, exasperation, and despair. She goes from specialist to specialist, -orthopedic

surgeon, gynecologist, X-ray man, neurologist. By the time she has completed a course of treatment she has tasted all the drugs in the pharmacopeia, wears plates on her feet, spectacles on her nose, has had her teeth tinkered with, and her insides straightened; has had a course in hydrotherapeutics, electrotherapeutics, osteopathy, and Christian Science! We are delighted to publish this classic book as part of our extensive Classic Library collection. Many of the books in our collection have been out of print for decades, and therefore have not been accessible to the general public. The aim of our publishing program is to facilitate rapid access to this vast reservoir of literature, and our view is that this is a significant literary work, which deserves to be brought back into print after many decades. The contents of the vast majority of titles in the Classic Library have been scanned from the original works. To ensure a high quality product, each title has been meticulously hand curated by our staff. Our philosophy has been guided by a desire to provide the reader with a book that is as close as possible to ownership of the original work. We hope that you will enjoy this wonderful classic work, and that for you it becomes an enriching experience.

The Survey ,1921

"Just a Housewife" Glenna Matthews,1989 This volume depicts the changing attitudes towards domesticity in this country, from widespread reverence for the home in the nineteenth century to the lack of respect and attention that housewives have received and continue to receive in this century. Examining novels, letters, popular magazines, and cookbooks, Matthews argues that the culture of professionalism in the late nineteenth century and the culture of consumption that came to fruition in the 1920s combined to kill off the cult of domesticity. She offers a challenging reassessment of the all-important task of providing a society's nurture and daily maintenance.

Invalid Women Diane Price Herndl,2000-11-09 A fine example of politically engaged literary criticism.--Belles Lettres Price Herndl's compelling individual readings of works by major writers (Harriet Beecher Stowe, Hawthorne, Wharton, James, Fitzgerald) and minor ones complement her examination

of germ theory, psychic and somatic cures, medicine's place in the rise of capitalism, and the cultural forms in which men and women used the trope of female illness.--Choice A rich and provocative study of female illnesses and their textual representations. . . . A major contribution to the feminist agenda of literature and medicine.--Medical Humanities Review [An] important book.--Nineteenth-Century Literature [This] sophisticated new study . . . brings the best current strategies of a thoroughly historicized feminist literary criticism to bear on textual representations of female invalidism.--Feminist Studies An outstanding study of the representation of female invalidism in American culture and literature. There emerges from this work a striking sense of the changing meanings of female invalidism even as the conjunction of these terms has remained a constant in American cultural history. . . . Moreover, Invalid Women provides fascinating readings of female illness in a variety of texts.--Gillian Brown, University of Utah A provocative study based on imaginative historical research and very fine close readings. The book provides a useful American complement to Helena Michie's *The Flesh Made Word* and Margaret Homans's *Bearing the World*. It should prove enlightening and

otherwise useful not just to scholars of American literature, but also to those engaged in American studies, feminist criticism and theory, women's studies, the sociology of medicine and illness, and the history of science and medicine.--Cynthia S. Jordan, Indiana University

Suffragist, 1920

Housewife Down Alison Penton Harper, 2011-03-21 The days I had previously filled with the duties of chief cook and bottle-washer now lay strangely empty and stretched out before me like a blank canvas. I kept looking at it, but couldn't think of anything to paint . . . Preparing dinner for her husband's colleagues, nervous, and listening to a woman complain about domestic slavery on the radio, Helen Robbins hits the bottle hard. For thirteen years she has lived a life of suburban predictability with Robert, bending to his boorish demands and allowing her once vital, independent spirit to retreat into the safety cage of mundane, dutiful routine. Over supper that evening she decides

to throw off her role of domestic angel and hit him where it hurts: she dares to criticise his driving. Riled by his wife's comments over dinner an irate Robert sets out the next morning to prove himself and is killed in a freak accident. Helen's life is about to transform. As she rekindles relationships with old friends and close family, Helen rediscovers the excitement of her former world. Tentatively stepping back into the fold, imbued with a new sense of power and adventure, she discovers for the first time the possibility of a relationship on her own terms - as well as certain thrill she never quite believed possible . . . and the surprises are only just beginning . . .
