

The New Age Handbook

Daren Kemp

Handbook of New Age Daren Kemp,James R. Lewis,2007 The Handbook of New Age is a comprehensive survey of alternative spiritualities: their history, their global impact, their cultural influence and how they are understood by scholars. Chapters by many of the leading scholars of the movement give the latest analysis of contemporary spiritual trends, and present up-to-date observations of the interaction between the New Age movement and many different fields of knowledge and research.

New Age Daren Kemp,2004 What is New Age? Crystals, meditation and astrology. T'ai Chi, Reiki and Feng Shui. Reflexology, aromatherapy and past-life regression. Esalen, the Findhorn Community and Damanhur. Marianne Williamson, Deepak Chopra and David Spangler. But many such examples of alternative spiritualities are explicitly not New Age -- and few practitioners now describe themselves as New Age. Scholars cannot agree on a definition of New Age, or even whether it exists at all. Daren Kemp surveys the whole range of descriptions of New Age, from a wide variety of angles. New Agers themselves are consulted, as well as their critics in the Churches, the media and other interest groups including rationalists, feminists and Native Americans. Key Features: Illustrated throughout with concrete examples from contemporary spirituality, extensive fieldwork research with New Age groups and communities, and statistical surveys New Age is examined from a variety of perspectives with chapters on New Age history, philosophy, anthropology, sociology and psychology Approaches are applied in practical examples such as on New Religious Movements, postmodernism and mental health Includes an extended survey of academic New Age studies, both published and unpublished, with an emphasis on previously inaccessible doctoral research In a look at the future of New Age studies, it is asked whether the term New Age remains useful, or whether we should heed calls for substitute terms to describe contemporary alternative spiritualities.

New Age Spirituality Steven J. Sutcliffe,Ingvid Saelid Gilhus,2014-09-11 New Age and holistic beliefs and practices - sometimes called the new spirituality - are widely distributed across modern global society. The fluid and popular nature of new age makes these movements a very challenging field to understand using traditional models of religious analysis. Rather than treating new age as an exotic specimen on the margins of 'proper' religion, New Age Spirituality examines these movements as a form of everyday or lived religion. The book brings together an international range of scholars to explore the key issues: insight, healing, divination, meditation, gnosis, extraordinary experiences, and interactions with gods, spirits and superhuman powers. Combining discussion of contemporary beliefs and practices with cutting-edge theoretical analysis, the book repositions new age spirituality at the forefront of the contemporary study of religion.

Gordon Melton,1992-01-01 This book begins with a comprehensive historical section that places the New Age within the context of its predecessor movements. Education in the New Age Alice Bailey,Djwhal Khul,2012-05-14 Education should be a continuous process from birth to death. It is essentially a process leading to reconciliation of the human and divine elements in the constitution of a human being. Right relationship between God and man, spirit and matter, the whole and the part, should be a prime objective of educational techniques.

The Second Coming of the New Age Steven Bancarz,Josh Peck,2018 The New Age movement has returned with full force in our culture taking the West and its churches by storm.All across North America, Christian churches have unknowingly encouraged occult beliefs and practices far removed from what the Bible teaches. This unfortunate reality is intrinsically linked to the popularity increase of New Age spirituality in the twenty-first century, and we've been so influenced by its integration into our society that we have become blind to recognizing, and preventing, the effects of this mainstream, pop-culture heresy, even within the walls of God's house.In this imperative and timely book, former New-Agers Josh Peck and Steven Bancarz reveal:· What perverse dealings the authors personally witnessed from their experiences deep within the New Age Movement· Which real and dangerous supernatural force lurks behind the New Age· Facts that reveal how the occult has worked its way into modern, evangelical churches· Connections between New Ageism, fallen angels, extraterrestrials, and the Nephilim· Solid, historical associations between the New Age Movement and Satanism· What false-Christ and false-gospel doctrines are being pushed by New Age teachers· How the central deity of the New Age is a thinly veiled version of Leviathan, the ancient personification of chaos· How quantum physics is being manipulated to promote the New Age agenda· How to reach friends and family lost in the New Age movement· Warning signs and influences of the occult in your life and home, and what to do if you are under spiritual attackOur lives, our relationships, our world, and our churches all depend on our willingness to take action against the deceit of New Age spirituality. The first step toward prevention is knowledge. Now is the time to be informed.

Ancient Wisdom for a New Age Terry Hunt,Paul Benedict,2012-12-01 Is life simple, once we understand how it works, or is it so complicated only a nuclear physicist could understand it? The authors claim that life is simple, but only if we accept what we encounter with equanimity and are willing to replace old ideas with new ones that make more sense. Attachment, resistance, and emotional reactions are what make life difficult. Is there a personal God? Does Satan exist? Do politics have a role in the spiritual development of our world? What part does sex play in our spiritual development? This is not a safe book. The authors have answers for all these questions and more, but not all readers will agree with them. And that is as it should be, according to them. Their concepts of how life works, based on Ancient Wisdom teachings, will make you analyze, ponder over, and re-assess your entire belief system. The overall message is one of assurance. As one reader said, It gave me hope. I never considered myself a spiritual person until I read this book. What is our purpose as humans? To become perfect. Perfection means graduating from the human realm to that of the Adepts or Mahatmas, becoming members of the Spiritual Hierarchy. Have you ever wished for a manual on how life works? You have found it. For some, perfection will come within a relatively short time. For others, in the far distant future. The choice is yours.
