Discovering The News Michael Schudson, 1981-02-13 This instructive and entertaining social history of American newspapers shows that the very idea of impartial, objective “news” was the social product of the democratization of political, economic, and social life in the nineteenth century. Professor Schudson analyzes the shifts in reportorial style over the years and explains why the belief among journalists and readers alike that newspapers must be objective still lives on.

The News About the News Leonard Downie, Jr., Robert G. Kaiser, 2007-12-18 Freedom of the press is a primary American value. Good journalism builds communities, arms citizens with important information, and serves as a public watchdog for civic, national, and global issues. But what happens when the news turns its back on its public role? Leonard Downie Jr., executive editor of The Washington Post, and Robert G. Kaiser, associate editor and senior correspondent, report on a growing crisis in American journalism. From the corporatization that leads media moguls to slash content for profit, to newsrooms that ignore global crises to report on personal entertainment, these veteran journalists chronicle an erosion of independent, relevant journalism. In the process, they make clear why incorruptible reporting is crucial to American society. Rooted in interviews and first-hand accounts, the authors take us inside the politically charged world of one of America’s powerful institutions, the media.

Losing the News Alex Jones, 2009-09-02 In *Losing the News*, Pulitzer Prize-winning journalist Alex S. Jones offers a probing look at the epochal changes sweeping the media, changes which are eroding the core news that has been the essential food supply of our democracy. At a time of dazzling technological innovation, Jones says that what stands to be lost is the fact-based reporting that serves as a watchdog over government, holds the powerful accountable, and gives citizens what they need. In a tumultuous new media era, with cutthroat competition and panic over profits, the commitment of the traditional news media to serious news is fading. Indeed, as digital technology shatters the old economic model, the news media is making a painful passage that is taking a toll on journalistic values and standards. Journalistic objectivity and ethics are under assault, as is the bastion of the First Amendment. Jones characterizes himself not as a pessimist about news, but a realist. The breathtaking possibilities that the web offers are undeniable, but at what cost? Pundits and talk show hosts have persuaded Americans that the crisis in news is bias and partisanship. Not so, says Jones. The real crisis is the erosion of the iron core of news, something that hurts Republicans and Democrats alike. *Losing the News* depicts an unsettling situation in which the American birthright of fact-based, reported news is in danger. But it is also a call to arms to fight to keep the core of news intact. Praise for the hardcover: Thoughtful. --New York Times Book Review An impassioned call to action to preserve the best of traditional newspaper journalism. --The San Francisco Chronicle Must reading for all Americans who care about our country's present and future. Analysis, commentary, scholarship and excellent writing, with a strong, easy-to-follow narrative about why you should care, makes this a candidate for one of the best books of the year. --Dan Rather

The New Black Middle Class in South Africa Roger Southall, 2016 Provides the most comprehensive account since the early 1960s of South Africa's black middle class.

Hard News Seth Mnookin, 2005-08-09 On May 11, 2003, The New York Times devoted four pages of its Sunday paper to the deceptions of Jayson Blair, a

mediocre former Times reporter who had made up stories, faked datelines, and plagiarized on a massive scale. The fallout from the Blair scandal rocked the Times to its core and revealed fault lines in a fractious newsroom that was already close to open revolt. Staffers were furious—about the perception that management had given Blair more leeway because he was black, about the special treatment of favored correspondents, and most of all about the shoddy reporting that was infecting the most revered newspaper in the world. Within a month, Howell Raines, the imperious executive editor who had taken office less than a week before the terrorist attacks of September 11, 2001—and helped lead the paper to a record six Pulitzer Prizes for its coverage of the attacks—had been forced out of his job. Having gained unprecedented access to the reporters who conducted the Times’s internal investigation, top newsroom executives, and dozens of Times editors, former Newsweek senior writer Seth Mnookin lets us read all about it—the story behind the biggest journalistic scam of our era and the profound implications of the scandal for the rapidly changing world of American journalism. It’s a true tale that reads like Greek drama, with the most revered of American institutions attempting to overcome the crippling effects of a leader’s blinding narcissism and a low-level reporter’s sociopathic deceptions. *Hard News* will shape how we understand and judge the media for years to come.

Hundreds of color photographs from the Times and other sources illuminate the stories throughout.

Crying the News Vincent DiGirolamo,2019-08-05 From Benjamin Franklin to Ragged Dick to Jack Kelly, hero of the Disney musical *Newsies*, newsboys

have long intrigued Americans as symbols of struggle and achievement. But what do we really know about the children who hawked and delivered newspapers in American cities and towns? Who were they? What was their life like? And how important was their work to the development of a free press, the survival of poor families, and the shaping of their own attitudes, values and beliefs? *Crying the News: A History of America's Newsboys* offers an epic retelling of the American experience from the perspective of its most unshushable creation. It is the first book to place newsboys at the center of American history, analyzing their inseparable role as economic actors and cultural symbols in the creation of print capitalism, popular democracy, and national character. DiGirolamo's sweeping narrative traces the shifting fortunes of these little merchants over a century of war and peace, prosperity and depression, exploitation and reform, chronicling their exploits in every region of the country, as well as on the railroads that linked them. While the book focuses mainly on boys in the trade, it also examines the experience of girls and grown-ups, the elderly and disabled, blacks and whites, immigrants and natives. Based on a wealth of primary sources, *Crying the News* uncovers the existence of scores of newsboy strikes and protests. The book reveals the central role of newsboys in the development of corporate welfare schemes, scientific management practices, and employee liability laws. It argues that the newspaper industry exerted a formative yet overlooked influence on working-class youth that is essential to our understanding of American childhood, labor, journalism, and capitalism.

From Witblits to Vuvuzelas: Marketing in the New South Africa Dale Hefer, 2010-11-05 In *From Witblits to Vuvuzelas*, Dale Hefer, founding director of the Chillibush Group of Companies, shares a wealth of advice with South African marketers in the New South Africa. In a rapidly evolving industry, new and innovative ways of understanding target markets, objectives and go-to market opportunities are required. For this reason, the book dispels popular myths about which part of the population makes up the 'main market', provides novel guidelines based on the author's years of experience with clients and incorporates invaluable insight from local marketing legends. Personal anecdotes illustrate key concepts, while the main focus of the book is on our diverse culture and the challenges and pitfalls that marketers encounter in this country. Informative, witty and accessible, *From Witblits to Vuvuzelas* is an essential tool for anyone in the marketing industry or for those who want to enter the world of marketing.

The New News V. the Old News Jay Rosen, Paul Taylor, 1992 Can a press driven largely by the market place adequately report and judge the candidates for chief executive and the deeper values they represent? In 1992, that was a tough question. Democracy may indeed give us the leadership we deserve. The authors in this volume present an atmosphere of open debate and critics, for which democracy can survive.

New York Magazine, 1991-01-14 New York magazine was born in 1968 after a run as an insert of the New York Herald Tribune and quickly made a place for itself as the trusted resource for readers across the country. Bad News Tom Fenton, 2005-11-22 At a time when the world has been blindsided by failures of intelligence, a veteran CBS News correspondent reveals how the news media has betrayed our trust and endangered our democracy. Tom Fenton is the senior European correspondent for CBS News. In his long journalistic experience, he has reported on everything from the fall of the Shah of Iran to the crumbling of communism in East Germany to the bombing of Israel during the first Gulf War. Today he has covered the movements of al Qaeda throughout Europe—a story he was tracking before 9/11. And in the three years since, he has come to a sobering realization: the American news media—and network TV news in particular—has abdicated its responsibility to the American people. As Fenton points out, much of America still gets its news from the networks. But in the years leading to 9/11 the coverage of terrorism was sporadic at best, focusing on acts of terror rather than the people and movements that caused them. It was Washington's job to connect the dots, Fenton argues, but it was the news business's job to track the story and watchdog the government's vigilance—and both sides failed. By the time of the Bush–Kerry election, Fenton writes, for the first time, the news media had an even worse credibility gap than the government's. Lulled into complacency by the Cold War, gutted by corporate bottom–lining bottom feeders, the news media missed the story of the century—just as they'd missed hundreds of others in the years before, from Kosovo to Chechnya. As a frequent voice in the wilderness himself—who tried unsuccessfully to interest CBS in an Osama bin Laden interview in the 1990s—Fenton charges that the news media must change its perspective from that of an entertainment–industry offshoot to that of a keeper of the public trust. And he argues that his industry must foster a new patriotic skepticism, one that will both inform the people and help Washington defend the country better. Tom Fenton's passionate argument for change in the political sector is being embraced by readers on all sides. Since its publication in the United States *Bad News* has won wide and critical acclaim from such publications as *Publisher's Weekly*, *Washington Post*, and *Christian Science Monitor*.
