David E. Nye

**Bill Nye's Great Big World of Science** Bill Nye, Gregory Mone, 2020-10-27 With photos, experiments, and more, this “appealing and highly informative” science book from the beloved TV host is “a winner” (School Library Journal). Science educator, TV host, and New York Times–bestselling author Bill Nye is on a mission to help young people understand and appreciate the science that makes our world work. Featuring a range of subjects—physics, chemistry, geology, biology, astronomy, global warming, and more—this profusely illustrated book covers the basic principles of each science, key discoveries, recent revolutionary advances, and the problems that science still needs to solve for our Earth. Nye and coauthor Gregory Mone present the most difficult theories and facts in an easy-to-comprehend, humorous way. They interviewed numerous specialists from around the world, in each of the fields discussed, whose insights are included throughout. Also included are experiments kids can do themselves to bring science to life! “Wordplay and wry wit put extra fun into a trove of fundamental knowledge.” —Kirkus Reviews (starred review) Includes photographs, illustrations, diagrams, glossary, bibliography, and index

**I'll Ask You Three Times, Are You OK?** Naomi Shihab Nye, 2009-06-23 I am a poet, I said. It is my destiny to do strange things. My father gripped the wheel of his car. I am the chauffeur for foolishness. We said no more. Foolhardy missions. Life-altering conversations. Gifts—given and received. Loss. Getting lost. Wisdom delivered before dawn and deep into the night. Love and kissing (not necessarily in that order). Laughter. Rides on the edge. Roses. Ghosts. As a traveling poet and visiting teacher, Naomi Shihab Nye has spent a considerable amount of time in cars, both driving and being driven. Her observations, stories, encounters, and escapades—and the kernels of truth she gathers from them—are laugh-out-loud funny, deeply moving, and unforgettable. Buckle up.

**Narratives and Spaces** David E. Nye, 1997 Nye analyzes the transformation of the Grand Canyon and Niagara Falls into tourist sites, the history of light shows at world's fairs, the New Deal programs designed to provide electricity to rural areas, and the Apollo 11 moon to reveal how the spaces we live in and the technology we use are integral to American identity, and a key part of American self-representation. Nye also turns his attention to the Internet, where technology has not simply transformed space, but created a whole new kind of space, and with it, new stories. Nye analyzes the transformation of the Grand Canyon and Niagara Falls into tourist sites, the history of light shows at world's fairs, the New Deal programs designed to provide electricity to rural areas, the Apollo 11 moon landing, and the new narratives of the Internet to reveal how the spaces we live in and the technology

we use are integral to American identity, and a key part of American self-representation. In examining the interaction of technology, space, and American narrative, Nye argues against the idea that technology is an inevitable and insidious controller of our lives.

**True Stories of Censorship Battles in America's Libraries** Valerie Nye, Kathy Barco, 2012-01-27

Those facing censorship challenges can find support and inspiration in this book, which compiles dozens of stories from library front lines.

**Night Terrors Vol. 2** Scare Street, Jude Reid, Michael D. Nye, Matt Brandenburg, Martin Zeigler, M. B. Vujacic, Michelle Tang, Kris Ashton, Robert Douglas, Gina Easton, Clark Boyd, Brian Sperl, Drew Starling, Ron Ripley, 2020-09-14 Nightmares can't really hurt you... can they? An evil from beyond the stars haunts a young boy and his father at Roswell Airbase. The survivors of a sunken warship take refuge on a deserted island, and discover they are not alone. And terror checks in at an old motel, when a vacationing family finds themselves trapped in an ancient curse... Scare Street journeys into the night to bring you a new volume of skin-crawling terror. This macabre collection contains thirteen chilling tales of supernatural horror. And each story will sweep you away to a world of dark dreams and fantastical nightmares... Some believe that if you see yourself die in your dreams, then your heart will stop. But that's just an old wives' tale, isn't it? After all, the icy chill of death lurks within every story in this ghastly tome. And your heart hasn't stopped yet. In fact, with each turn of the page, you can hear it beating faster and faster... This bone-chilling supernatural collection contains: 1. Live Bait by Jude Reid 2. The Hungry Worm by Michael D. Nye 3. The Magician Needs a Volunteer by Matt Brandenburg 4. Lab Incident, 1947 by Martin Zeigler 5. A House Divided by M. B. Vujacic 6. Sundown and Shadows by Michelle Tang 7. The Old Coach Inn by Kris Ashton 8. Ashes to Ashes by Robert Douglas 9. Folie-a-Deux by Gina Easton 10. Do Something Funny by Clark Boyd 11. Fertile Soil by Brian Sperl 12. Night Dive by Drew Starling 13. Home Sick by Ron Ripley

**Strategies Against Extinction** Michael Nye, 2012 Michael Nye's debut short story collection presents nine stories about people who find themselves at turning points in their lives—times of disruption and dislocation, yet also of reclamation and reinvention. These diverse characters include a war veteran turned radio broadcaster, a film projectionist, a former governor of Ohio, a second-generation comic book store owner, and a vascular surgeon at one of Boston's premier hospitals. Startling and precise in its evocations of the lives of memorable characters, *Strategies Against Extinction* is rich with energetic observation, attentive empathy, and a compelling spirit of uncertainty.

**Rocket to the Moon** Lerryn Korda, 2010 Donning homemade space helmets, four animal friends take a rocket trip to the moon.

***Power, National Security, and Transformational Global Events*** Thomas A. Johnson, 2012-06-04 As the United States struggled to survive the recent recession, China quietly acquired a vast amount of U.S. Treasury bills and bonds. With China now holding so much of America's debt, currency valuation issues have already caused tensions between the two superpowers. Couple this with Iran's efforts to develop into a nuclear power in an area that I

***Soft Power*** Joseph S. Nye, Jr., 2009-04-28 Joseph Nye coined the term soft power in the late 1980s. It is now used frequently—and often incorrectly—by political leaders, editorial writers, and academics around the world. So what is soft power? Soft power lies in the ability to attract and persuade. Whereas hard power—the ability to coerce—grows out of a country's military or economic might, soft power arises from the attractiveness of a country's culture, political ideals, and policies. Hard power remains crucial in a world of states trying to guard their independence and of non-state groups willing to turn to violence. It forms the core of the Bush administration's new national security strategy. But according to Nye, the neo-conservatives who advise the president are making a major miscalculation: They focus too heavily on using America's military power to force other nations to do our will, and they pay too little heed to our soft power. It is soft power that will help prevent terrorists from recruiting supporters from among the moderate majority. And it is soft power that will help us deal with critical global issues that require multilateral cooperation among states. That is why it is so essential that America better understand and apply our soft power. This book is our guide.

***Jack and the Geniuses*** Bill Nye, Gregory Mone, 2017-04-04 New York Times bestselling authors Bill Nye the Science Guy and Gregory Mone take middle-grade readers on a scientific adventure in the launch of an exciting new chapter book series, *Jack and the Geniuses*. The perfect combination to engage and entertain readers, the series features real-world science along with action and a mystery

that will leave kids guessing until the end, making these books ideal for STEM education. In the series opener, *Jack and the Geniuses: At The Bottom of The World*, readers meet Jack and his foster siblings, Ava and Matt, who are orphans. But they're not your typical kind of orphans—they're geniuses. Well, Ava and Matt are, which sometimes makes life difficult for twelve-year-old Jack. Ava speaks multiple languages and builds robots for fun, and Matt is into astronomy and a whiz at math. As for Jack, it's hard to stand out when he's surrounded by geniuses all the time. When the kids try to spy on Dr. Hank Witherspoon, one of the world's leading scientists, they end up working for him in his incredible laboratory. Soon, Hank and the kids travel to Antarctica for a prestigious science competition, but they find that all is not as it seems: A fellow scientist has gone missing, and so has any trace of her research. Could someone be trying to use her findings to win the contest? It's up to Jack, Ava, and Matt to find the missing scientist and discover who's behind it all—before it's too late. Integrating real science facts with humor and suspense, and featuring an ensemble cast of loveable boy and girl characters, this uniquely engaging series is an irresistible chemical reaction for middle-grade readers. With easy-to-read language presented in a fun, motivating, and accessible way, this series opener is a great book for both inquisitive kids and reluctant readers. The book also includes information about the science discussed and used to solve the mystery, as well as a cool science project about density that kids can do at home or in the classroom. Bill Nye's brand new talk show series for Netflix, *Bill Nye Saves the World* is set to launch in Spring 2017.

*Everything All at Once* Bill Nye, 2017-07-11 In the New York Times bestseller *Everything All at Once*, Bill Nye shows you how thinking like a nerd is the key to changing yourself and the world around you. Everyone has an inner nerd just waiting to be awakened by the right passion. In *Everything All at Once*, Bill Nye will help you find yours. With his call to arms, he wants you to examine every detail of the most difficult problems that look unsolvable—that is, until you find the solution. Bill shows you how to develop critical thinking skills and create change, using his “everything all at once” approach that leaves no stone unturned. Whether addressing climate change, the future of our society as a whole, or personal success, or stripping away the mystery of fire walking, there are certain strategies that get results: looking at the world with relentless curiosity, being driven by a desire for a better future, and being willing to take the actions needed to make change happen. He shares how he came to create this approach—starting with his Boy Scout training (it turns out that a practical understanding of science and engineering is immensely helpful in a capsizing canoe) and moving through the lessons he learned as a full-time engineer at Boeing, a stand-up comedian, CEO of The

Planetary Society, and, of course, as Bill Nye The Science Guy. This is the story of how Bill Nye became Bill Nye and how he became a champion of change and an advocate of science. It's how he became The Science Guy. Bill teaches us that we have the power to make real change. Join him in... dare we say it... changing the world.

**The Poison Jungle (Wings of Fire #13)** Tui T. Sutherland, 2019-07-30 The New York Times bestselling series continues with a thrilling revelation -- brand-new tribes of dragons! Some secrets are deadly. It's no secret that Sundew wants to destroy the HiveWings. It's her life's mission to exact revenge on the tribe that tried to wipe out the LeafWings and ripped every tree from the surface of Pantala. Every tree, that is, except the wild and dangerous Poison Jungle, where the surviving LeafWings have been hiding since the war. Hiding, plotting, and waiting for a dragon like Sundew, who is uniquely qualified to bring down the Hives. There are dark secrets in the jungle, though--some that Sundew is keeping, and some that she's only just beginning to discover. And now that a new war is upon them, Sundew and her friends must unearth the oldest secret in the jungle--even if what they find has the power to destroy them all.

**Media Power in Hong Kong** Charles Chi-wai Cheung, 2016-02-12 Studies of Hong Kong media primarily examine whether China will crush Hong Kong's media freedom. This book however traces the root problem of Hong Kong media back to the colonial era, demonstrating that before the resumption of Chinese sovereignty there already existed a uniquely Hong Kong brand of hyper-marketized and oligopolistic media system. The system, encouraged by the British colonial government, was subsequently aggravated by the Chinese government. This peculiar system is highly susceptible to state intervention and structurally disadvantaged dissent and marginal groups before and after 1997. The book stresses that this hyper-marketized media system has been constantly challenged. Through a historical study of media stigmatization of youth, this book proposes that over the years various counter forces have penetrated the structurally lopsided Hong Kong media: independent, public, popular and news media all make occasional subversive alliances to disrupt the mainstream, and news media, with a strong liberal professionalism, provide the most subversive space for challenging cultural hegemony. The book offers an alternative and fascinating account of the dynamics between hegemonic closure and day-to-day resistance in Hong Kong media in both the colonial and post-colonial eras, arguing that the Hong Kong case generates important insights for understanding ideological struggles in capitalist media.

Handbook of Divorce and Relationship Dissolution Mark A. Fine, John H. Harvey, 2013-12-19 This

Handbook presents up-to-date scholarship on the causes and predictors, processes, and consequences of divorce and relationship dissolution. Featuring contributions from multiple disciplines, this Handbook reviews relationship termination, including variations depending on legal status, race/ethnicity, and sexual orientation. The Handbook focuses on the often-neglected processes involved as the relationship unfolds, such as infidelity, hurt, and remarriage. It also covers the legal and policy aspects, the demographics, and the historical aspects of divorce. Intended for researchers, practitioners, counselors, clinicians, and advanced students in psychology, sociology, family studies, communication, and nursing, the book serves as a text in courses on divorce, marriage and the family, and close relationships.

*The Turtle of Oman* Naomi Shihab Nye, 2014-08-26 Praised by the Horn Book as “both quiet and exhilarating,” this novel by the acclaimed poet and National Book Award Finalist Naomi Shihab Nye follows Aref Al-Amri as he says goodbye to everything and everyone he loves in his hometown of Muscat, Oman, as his family prepares to move to Ann Arbor, Michigan. This book was awarded a 2015 Middle East Book Award, was named a Notable Book by the American Library Association, and includes extra material by the author. Aref Al-Amri does not want to leave Oman. He does not want to leave his elementary school, his friends, or his beloved grandfather, Siddi. He does not want to live in Ann Arbor, Michigan, where his parents will go to graduate school. His mother is desperate for him to pack his suitcase, but he refuses. Finally, she calls Siddi for help. But rather than pack, Aref and Siddi go on a series of adventures. They visit the camp of a thousand stars deep in the desert, they sleep on Siddi's roof, they fish in the Gulf of Oman and dream about going to India, and they travel to the nature reserve to watch the sea turtles. At each stop, Siddi finds a small stone that he later slips into Aref's suitcase—mementos of home. Naomi Shihab Nye's warmth, attention to detail, and belief in the power of empathy and connection shines from every page. Features black-and-white spot art and decorations by Betsy Peterschmidt.

**Intellectual Freedom Stories from a Shifting Landscape** Valerie Nye, 2020-04-21 Intellectual freedom is a complex concept that democracies and free societies around the world define in different ways but always strive to uphold. And ALA has long recognized the crucial role that libraries play in protecting this right. But what does it mean in practice? How do library workers handle the ethical conundrums that often accompany the commitment to defending it? Rather than merely laying out abstract policies and best practices, this important new collection gathers real-world stories of intellectual freedom in action to illuminate the difficulties, triumphs, and occasional setbacks of

advocating for free and equal access to information for all people in a shifting landscape. Offering insight to LIS students and current practitioners on how we can advance the profession of librarianship while fighting censorship and other challenges, these personal narratives explore such formidable situations as presenting drag queen story times in rural America; a Black Lives Matter “die-in” at the undergraduate library of the University of Wisconsin-Madison; combating censorship at a prison library; hosting a moderated talk about threats to modern democracy that included a neo-Nazi spokesman; a provocative exhibition that triggered intimidating phone calls, emails, and a threat to burn down an art library; calls to eliminate non-Indigenous children’s literature from the collection of a tribal college library; and preserving patrons’ right to privacy in the face of an FBI subpoena.
