

The Sedona Vortex App

Richard J. Anderson

What is a Vortex? Dennis Andres,2000

Scientific Vortex Information Pete A. Sanders, Jr.,2005-04-01 This book was originally written to help those visiting Sedona, Arizona who could not attend my regular Scientific Vortex Information Training Class (see www.freesoul.net). It teaches how to rapidly, easily, and effectively tap Sedona's famous meditation sites. It also contains a system for finding vortexes closer to your home area. Understanding vortexes and how to tap them is a key asset for exploring your dimensions beyond described in Superstrings Physics. Even more important, however, is knowing how to weave that knowledge into a method for Living life AS a Soul. When you are having difficulty accessing deeper spiritual skills, or are facing intense inner hurts, vortex energies can provide portals to new insights. People tend to be drawn to upflow areas to feel the exhilaration of tapping those dimensions beyond. What they are also craving (in many cases without even realizing it) is to escape the worries, hurts, angers, and fears created by the Limbic Brain. The Soul-shift technique (contained in this book) makes tapping the vortexes easier, primarily because it gets the meditator out of their limbic brain focus. It allows you to create an inner upflow vortex, where ever you are. The brain science technique for natural mood elevation contained in my book, Access Your Brain's Joy Center (soon also available as an e-book), teaches how to counter limbic brain effects anywhere, anytime without having be in a meditative state. That makes it possible to self-generate that inner upflow effect in ALL of life (eyes open, moving, etc.). As you read through this book, see the bigger picture. Imagine having the ability to live accessing ALL of your dimensions beyond and ALL your spiritual skills, without having to physically be in the enhanced energy sites. Enjoy exploring the unlimited potentials that ARE your birthright As a Free Soul.

Sedona Vortex Guide Book Robert Shapiro,Janet McClure,1991-01-01 Only on rare occasions does a book come along that contains the potential to change the consciousness of our entire planetary culture. Many have talked about the ascension process, but very few really understand what it means. Who is really out there? Where are we going? What are our choices? What has to be done to prepare for this event? Is everyone ascending to the same place? What happened to the fourth dimension? How can we understand the fifth dimension? What are fifth-dimensional beings like? This book explains all of these questions in a way that we can easily understand. It explains what our relationships are to known extraterrestrial groups and what they are doing to help the Earth and her people in this crucial galactic moment in time. It helps us to understand how we can raise our vibration now and begin the process of integrating higher-dimensional energies into our third-dimensional world. The Arcturians have given us a crucial focus for the acceleration of world consci

Sedona's Vortex J. T. Mattison,2014-06-30 This book is about examining the possible reasons behind the vortex claims. Is it simply to attract tourist to visit the area? Is it real? What kind of scientific evidence is there for these claims? Is it physiological and simply just the power of suggestion? I am going to approach this subject with an open mind. Examining the geology, magnetism measurements, topography, physiology, and yes even the finical gain to the Sedona area for giving tourist claims of the vortex.

Vortex Bruce Eastman, 2012-05-01 The Anasazi farmed in Northern Arizona, until in ancient times they disappeared without leaving a trace as to where they had gone. Being farmers and the gayety of their art led to them being thought of as a people living a Rainbow Festival-esc life in harmony with earth and man. Modern archaeology has now proven that this assessment was wrong. All is not normal in Sedona Arizona, Land of the Woo Woo People, as Allen referred to it, unless of course you happen to be from a time somewhere in the ancient past. Transported through time by an old medicine man's prayers, Allen, a wildlife photographer who had done his forty days and forty nights in the wilderness, and gone back for another twenty years, and the strikingly beautiful, conflicted young woman Sam, who is a bonded courier for the CDC, have been transported back in time to help defeat an ancient evil. Will they find peace and belonging in this simpler world, or is it tragedy that waits for them? I drank tobacco juice and prayed, and I saw this: I saw a man and a woman from whose hands lightning came, and this was a fearsome thing. At first I thought that they must be spirits, but then a voice told me that they were not. It was not the lightning though, which I perceived would help with our problem, but another much more powerful medicine. I could not understand its formula, but I could feel its strength. But these people are somewhere else; through a door I cannot enter. What I request of you, upon the prayers and obedience of my ancestors, is that you would create for these strange people, a passage to our land.

Doodlebug Island William F. Jordan, 2007 Through a series of illustrated vignettes, Doodlebug Island chronicles the lives of the slightly off-centered folks who live on the island's scenic shores. Separated from the rest of Arizona by the waters of Oak Creek, Doodlebug Island provides a haven for the inhabitants and their eccentricities, which mix, clash and create a multitude of comical-and usually chaotic-situations. Written with a slightly acerbic but definitely humorous edge, Doodlebug Island challenges the status quo on a variety of issues and engages readers in the triumphs, trials and frustrations of its characters' daily lives.
