*Stars in Our Eyes* Angela Ndalians, Charlotte Henry, 2002-03-30 The media star has become a powerful, almost unparalleled, cultural sign, even as the star system has undergone radical transformation since the era of the Hollywood studio system. Today's film industry continues to market

and promote its products through actors in ways that seek to capture the often elusive quality that a star can embody. Using contemporary stars such as Robert De Niro, Keanu Reeves, Arnold Schwarzenegger, and Dennis Hopper, this anthology of essays applies a variety of theoretical tools in its attempt to understand how we interpret stars, and how we can begin to understand their cultural significance. Likewise, the study explores how the star system has become an increasingly complex phenomenon within society at large, extending its impact beyond the cinema into music, sports, and fashion. Many of the essays collected here consider this shift and examine how personae including the director (Sam Peckinpah), the royalty (Princess Diana) and even the digital star (Lara Croft) have captured the cultural imagination and have come to attain qualities as star-like as those of the silver screen.

**Alabama Quilts** Mary Elizabeth Johnson Huff,Carole Ann King,2020-11-03 Winner of the 2022 James F. Sulzby Book Award from the Alabama Historical Association *Alabama Quilts: Wilderness through World War II, 1682–1950* is a look at the quilts of the state from before Alabama was part of the Mississippi Territory through the Second World War—a period of 268 years. The quilts are examined for their cultural context—that is, within the community and time in which they were made, the lives of the makers, and the events for which they were made. Starting as far back as 1682, with a fragment that research indicates could possibly be the oldest quilt in America, the volume covers quilting in Alabama up through 1950. There are seven sections in the book to represent each time period of quilting in Alabama, and each section discusses the particular factors that influenced the appearance of the quilts, such as migration and population patterns, socioeconomic conditions, political climate, lifestyle paradigms, and historic events. Interwoven in this narrative are the stories of individuals associated with certain quilts, as recorded on quilt documentation forms. The book also

includes over 265 beautiful photographs of the quilts and their intricate details. To make this book possible, authors Mary Elizabeth Johnson Huff and Carole Ann King worked with libraries, historic homes, museums, and quilt guilds around the state of Alabama, spending days on formal quilt documentation, while also holding lectures across the state and informal “quilt sharings.” The efforts of the authors involved so many community people—from historians, preservationists, librarians, textile historians, local historians, museum curators, and genealogists to quilt guild members, quilt shop owners, and quilt owners—making Alabama Quilts not only a celebration of the quilting culture within the state but also the many enthusiasts who have played a role in creating and sustaining this important art.
