Mahatma Gandhi and Sri Aurobindo Ananta Kumar Giri, 2021-11-14 This book presents the first systematic critical exploration of the philosophical and political thoughts of Mahatma Gandhi and Sri Aurobindo, both pioneers of modern Indian thought. Bringing together experts from across the world, the volume examines the thoughts, ideas, actions, lives and experiments of Mahatma Gandhi and Sri Aurobindo on themes such as radical politics and human agency; ideals of human unity; social practices and citizenship; horizons of sustainable development and climate change; inclusive freedom; conceptions of swaraj; interpretations of texts; Sri Aurobindo's views on Indian culture; integral yoga; transformative leadership; Anthropocene and alternative planetary futures. The book discusses the contemporary legacies and works of the two influential thinkers. It offers insights into historical, philosophical, theoretical, literary and sociological questions that establish the need for transdisciplinary dialogues and the relevance of their visions towards future evolution. This book will be useful to scholars and researchers of political science, Indian political thought, comparative

politics, philosophy, Indian philosophy, sociology, anthropology, modern Indian history, peace studies, cultural studies, religious studies and South Asian studies.

Social Entrepreneurship and Gandhian Thoughts in the Post-COVID World
Babita Bhatt, Israr Qureshi, Dhirendra Mani Shukla, Vinay Pillai, 2023-08-21 In this edited book, we provide foundational tenets of Gandhian perspective, and present examples of social organizations that are aiming to insulate themselves by adopting community and village-centered approaches to restructuring socially-embedded economic activities that align with Gandhian principles. These cases highlight the relevance of Gandhi's thoughts in the field of social entrepreneurship. We examine key principles such as Sarvodaya (the welfare of all), Antodaya (the upliftment of the weakest), self-sufficiency, self-reliance, Nai Talim (holistic education), and Trusteeship. We explore how social organizations implement these principles to promote resilience and well-being at the community level. The COVID-19 pandemic revealed unsustainable practices in the world, including disrupted supply chains, contagious effects of integrated global economy that ignore the local self-reliance, and unsustainable internal displacement that make cities dependent on rural labor and rural population dependent on urban areas for jobs. These issues show that there are systemic problems with how our society and market are structured. The traditional way of development that focuses on profit maximization and unlimited wants has caused problems like inequality, resource depletion, and disproportionate wealth accumulation. Unlimited

growth in a limited world has led us to social, economic, and ecological crises. However, degrowth, as an approach has been criticized for wanting to go back to pre-industrial times. In this context, Gandhi's ideas offer alternatives. Gandhi promotes moderation in how market activities are structured and how individual consumption practices are followed. This can help reduce the negative impact of economic activities on people and the planet, and move towards a more structured and inclusive economy.

Democracy, Theatre and Performance David Wiles, 2024-04-30 David Wiles makes the startling claim that, to be truly effective, democratic politicians are obliged to be hypocrites, or actors.

Who Painted My Money White? Sree Iyer, 2019-12-26 A ship carrying 2 containers worth Rs.5000 crores in 500- and 1000-rupee notes, docks in the dark of night at Kochi. The money is quickly distributed to members of a minority community using a network of 100 Chartered accountants. The bulk of the money finds its way back into fake firms, shell corporations and charities with the sole aim of destabilizing the country.

A DIABOLICAL PLAN BY THE FREEDOM PARTY TO WEAKEN INDIA

Greedy politicians of the Freedom Party want to ensure that the opposition can never come to power. Pander to the largest minority, enrich them beyond their expectations and ensure they will be with the party. To this end, a plan is hatched to print high denomination money and try and increase the velocity of money, thereby creating the illusion of growth. A compromised Finance Minister is forced to buy paper from the same sources as India's rival Pakistan. Their intelligence wing gets hold of the security threads being used in Indian notes through honey trapping and comes up with notes that are almost as good as the real ones. The fake money brought in slowly starts moving around the country, driving up inflation and real estate prices, mixing with good notes. Because of a series of scams, the government gets voted out and a single party (People's Voice) gets absolute majority. The new party responds to a terrorist attack with a surgical strike deep in the enemy territory. Pakistan decides to retaliate by flooding India with fake currency, by tripling its fake currency production. India responds by demonetizing the 500- and 1000-rupee notes and printing new notes of a different size. But despite the best attempts, a porous border with Nepal and Bangladesh results in a significant amount of the fake currency entering Indian banks. When the notes were tallied, instead of 87% of printed notes coming back to the Reserve Bank, 113% comes! The counterfeit money is used to

spawn different types of nefarious activities including a plot to assassinate the newly elected Prime Minister. Will the Intelligence Bureau track the assassin and protect the PM?

A Question of Inequality Christopher Steed, 2018-07-30 Inequality is widening. In the twenty-first century, the gap between those who have more and those who have less is growing: 1 per cent of the world owns as much as the other 99 per cent. Should we be worried? Christopher Steed, author of the acclaimed *A Question of Worth*, argues that inequality does indeed matter: that economic fairness is one of the defining issues of our time. In a world conditioned by social media, enabling intensified social comparison, the anxieties and effects of contemporary inequality are a cause for huge concern. Despite a wealth of research around inequality most studies have concentrated on its quantitative aspects. In *A Question of Inequality*, Christopher Steed is concerned with exploring why inequality matters, what it means for those who find themselves victims of it, and what can be done about it. He probes what it means to experience inequality, drawing out case studies on the effects of poverty. In proposing a theory of social relativity the author provides new insights into the effects and meaning of inequality and makes an original and important contribution to a key issue facing the world today.

The Revolt of The Public and the Crisis of Authority in the New Millennium

Martin Gurri , 2018-12-04 How insurgencies—enabled by digital devices and a vast information sphere—have mobilized millions of ordinary people around the world. In the words of economist and scholar Arnold Kling, Martin Gurri saw it coming. Technology has categorically reversed the information balance of power between the public and the elites who manage the great hierarchical institutions of the industrial age: government, political parties, the media. The Revolt of the Public tells the story of how insurgencies, enabled by digital devices and a vast information sphere, have mobilized millions of ordinary people around the world. Originally published in 2014, The Revolt of the Public is now available in an updated edition, which includes an extensive analysis of Donald Trump's improbable rise to the presidency and the electoral triumphs of Brexit. The book concludes with a speculative look forward, pondering whether the current elite class can bring about a reformation of the democratic process and whether new organizing principles, adapted to a digital world, can arise out of the present political

turbulence.
