

The Terminator Of Destiny

Duane Gundrum

Destiny's Road Larry Niven, 1998-05-15 On Planet Destiny, Jemmy Blocher kills a laborer and flees for his life along the long road forged by the mysterious Cavorite and its crew, who disappeared more than 250 years earlier.

Destiny Duane Gundrum, 2013-12-26 The mission was well-planned and intricately carried out. They were going to assassinate the Emperor of Earth. Everything went according to plan. Except one thing. They failed. Now on the run from the Empire's elite guard, Eden System Commander Yeager finds himself on an escape trajectory with a young ensign in his care. Little does he know that this ensign, Laura Bontein, is the reason why Eden is at war with the Empire. Laura may also be the most powerful being in the galaxy. They escape to Reagul, a planet in its middle ages and somehow responsible for keeping the emperor alive. Here, Laura begins to discover that Reagul has been planning for her arrival for thousands of years. Little by little, Laura begins to suspect that her own people, the lost outpost of the Zeus Colonies, may have ties to Reagul going back to the Roman Empire. As the rumors and legends begin to mirror the actions of Laura and Yeager, she begins to believe her arrival on Reagul may have more than a solitary purpose. It may be her destiny.

Kirk was lost in the course of a mission to save the lives of dozens of refugees - among them an enigmatic woman called Guinan. One year later Scott is propelled seventy-five years into the future to the Enterprise-D where he once again encounters Guinan, now the bartender on the flagship captained by Jean-Luc Picard. But his attempt to save his old friend has disastrous consequences for the timeline and Scott, Kirk and the crew of the Enterprise-D all find themselves in an alternate twenty-third century in which the Federation no longer exists and the Borg have assimilated humanity. The key to restoring the timeline and saving the human race lies with Guinan - the very person who might be responsible for the timeslip in the first place...

This specially selected team received extensive academic and technical training. Eric Devile, the chosen team commander, would lead the group on their journey into uncharted space, assisted by Albert, a state-of-the-art supercomputer that navigates the ship and attempts to keep the team out of danger. would face many challenges and demands that threaten the success of their mission, causing Eric and the team to doubt whether humanity can ever root itself on an alien planet. A realistic look at mankind's first journey to another world!

Shepherds of Destiny George Voorhes, Kiel C Barnekov, 2020-06-03 In the late 2030s a synthetic human body had been developed. To the untrained eye, the synthetic body was indistinguishable from a human body. The synthetic or cyborg was controlled by a human mind, downloaded to the

cyborg electronic brain from a patient irreversibly incapacitated by disease or accident. Kristian Barnett, billionaire through inheritance of his parents' estate, and CEO and Chairman of the Board of Barnett Industries fell ill at the age of thirty-three with amyotrophic lateral sclerosis (ALS), also known as Lou Gehrig's Disease. Dr. Savannah Richards, Neurosurgeon and Research Scientist at the Stanford Neuroscience Health Center was developing a means to preserve the brain of a patient whose body had been irrecoverably destroyed but whose brain was unharmed. Concurrently, Dr. Ansley Barnett, wife of Kristian Barnett, was leading the development of a synthetic body indistinguishable from a human body for DARPA. Soon after Kristian's brain was removed and placed in stasis, he was approached by The Guardian. The Guardian was a spiritual being who watched for timelines that were going astray and threatening the existence of humanity. The Guardian needed Kristian's mind, untethered from his corporeal body, to control the actions of key individuals. While in his current spiritual state, Kristian was able to travel to any period in the past or the future with The Guardian to correct a timeline gone astray. Aaron Adams, also suffering from advanced ALS, was approved as a candidate for the brain extraction procedure. But prior to the procedure his mind would be scanned and stored for download to a synthetic body. In Book One, Kristian and Aaron had, with guidance from The Guardian, restored timelines from the U.S. Civil War and World War II, saving the fate of humanity. Book Two, Challenging the Fates, introduces a third cyborg - Commander Erik Richards, who as captain of the Mars spaceship Elon Musk, was severely injured when his ship hit space debris on its final approach to the International Space Station Space Dock. Erik joins Kristian in correcting a timeline from the 1960s

that was trending towards nuclear annihilation. Erik also meets his first true love, who is the sister of a technician who was killed in the accident aboard the *Elon Musk*. At the end of *Shepherds of Destiny, Book One*, Kristian Barnett and Aaron Adams, under the guidance of The Guardian had traveled forward to the year 2052. The CEO of Find Corporation and two multi-billion-dollar telecommunication moguls had developed a new smartphone supporting an advanced communications technology. This technology enabled the ability to control a user's thoughts and actions without the knowledge or consent of the user. The new smartphone and communications technology were promoted to the military as a means of controlling the actions of an enemy. The intent of the billionaire cabal was to use the technology to ultimately establish a dystopian world in which the billionaire elites and their ruling class government puppets would live in opulence while the masses were enslaved to serve their masters. The demonstration of the technology to senior government officials including the Secretary of Defense was a failure due to the intervention of Kristian and Aaron taking brief control of the test subjects' and SecDef's minds. Although successfully stalled, the CEO vowed to correct the cause of the failure and offered to fund whatever amount was necessary. The threat of human domination by evil tyrants is far from over and the eternal battles between good and evil continue.
