The Toronto Protocol ,2012-01-22 This short but explosive text was first leaked by Serge Monast in Canada in 1995. It is reported to be the plan of an elite group who are manipulating the general public and governments across the world to bring about their long term goal of a world government. They cover in this document a wide variety of areas, including world food supplies and pollution, the question of parental rights as opposed to state rights over children, earthquake weapons, the overall media and economic climate which was planned to be favourable in order to lure into complacency the general public, etc etc. Could it be for real? You decide!

The Toronto Protocols: 6.6.6. Serge Monast,2023-07-08 The end of June 1967 marks the final preparations for the im-plementation of the plan for the fall of nations by the higher authorities of Anglo-Saxon Freemasonry in Toronto (Canada). This highly confidential secret meeting is organized by the 6.6.6. (as they call themselves), those who lead the 6 largest global banks, the 6 largest energy consortiums on the planet, and the 6 largest agri-food consortiums (which include pharmaceutical consortiums, and the global vaccine market). These 6.6.6., being the highest leaders of international finance, will define a common strategy within their meeting to impose absolute control over global trade and the Energy Weapon. In this work, Serge Monast unveils two ex-plosive documents titled Panem et Circenses (official report of June 1967 of the 6.6.6. on the genocidal project aiming at the vital for the sake of profitable occult) and The Red Dawn (official report of June 1985 of the 6.6.6., in 27 protocols, on the total control of the planet by taking hold of the IMF, GATT, the Brussels Commission, NATO, the UN, and other international organizations). After a brief objective observation of global events that occurred over the last fifty years, we can reasonably affirm that the scenario described in these two documents is more than plausible and allows us to conceive today what seemed inconceivable only yesterday.

It provides information and analyses on risk factors and reviews screening tools and risk-focused prevention methods. The contributions increase visibility and accessibility of European policy and practice in the explanation and prevention of child delinquency.
