*World Clock Journals (The Complete Trilogy)* Angela Roquet, 2021-09-29 The complete World Clock Journals trilogy, a dystopian steampunk romance. Late Boston is a city held hostage by time. It has been five years since inventor Ezra Huxley's wife mysteriously disappeared through a portal in the time machine he was building. When he finally gives up hope and uses the same technology to craft a perpetual motion clock in the Custom House Tower, everything goes horribly wrong—at his daughter's wedding, no less. Time is shattered, and the citizens in its wake suffer an hourly reminder of the day they lost their sanity. And their freedom. The city is on lockdown to prevent the spread of time sickness, and now the clock is ticking. If they cannot find a way to fix the broken time machine plaguing Late Boston, the governor is prepared to take matters into his own hands and declare them a casualty of the war raging across the Atlantic. If you enjoy time travel romance, clockwork fantasy, and alternate history, this series is for you!

*Akashic Records Or Free Will* Sam Oputa,2017-07-02 Everybody has a dream—their predestined life's purpose. You do not choose a life purpose because your parents want you to be a pilot, your boss wants you to be a counselor, your friends want you to be in their group. You do not seek your life's purpose because the society you find yourself in wants you to be something that society dictates. Living through other people's life's purpose is one sure way to kill your life's purpose. You cannot be living another person's destiny and expect to live a fulfilled life. There is no quandary here. You just must see the urgency of the need to find your life's calling. If you don't, you will end up comfortably living in discomfort and envying others as you find yourself full of jealousy for what you perceive as other people's "bigger achievements." You are outside looking in. Feeling a want for what others have achieved and hating what you have achieved is a sign that you love another person's life better than yours. You think you could have done better. Ask self, what is it that you hate about your life, and find solutions to the questions. Do not let another person's standards be the answer to how you evaluate your life. You must find your calling. It is in the Akashic Record. Let a professional read your Akasha to find your calling.

**Books and Social Media** Miriam J. Johnson, 2021-07-29 Social media and digital technologies are transforming what and how we read. Books and Social Media considers the way in which readers and writers come together in digital communities to discover and create new works of fiction. This new way of engaging with fiction stretches the boundaries of what has been considered a book in the past by moving beyond the physical or even digitally bound object to the consideration of content, containers, and the ability to share. Using empirical data and up-to-date research methods, Miriam Johnson introduces the ways in which digitally social platforms give rise to a new type of citizen author who chooses to sidestep the industry's gatekeepers and share their works directly with interested readers on social platforms. Gender and genre, especially, play a key role in developing the communities in which these authors write. The use of surveys, interviews, and data mining brings to the fore issues of gender, genre, community, and power, which highlight the push and pull between these writers and the industry. Questioning what we always thought we knew about what makes a book and traditional publishing channels, this book will be of interest to anyone studying or researching publishing, book history, print cultures, and digital and contemporary literatures.

**Free Berlin** Briana J. Smith, 2022-09-20 An alternative history of art in Berlin, detaching artistic innovation from art world narratives and connecting it instead to collective creativity and social solidarity. In pre- and post-reunification Berlin, socially engaged artists championed collective art making and creativity over individual advancement, transforming urban space and civic life in the process. During the Cold War, the city's state of exception invited artists on both sides of the Wall to detour from artistic tradition; post-Wall, art became a tool of resistance against the orthodoxy of economic growth. In Free Berlin, Briana Smith explores the everyday peculiarities, collective joys, and grassroots provocations of experimental artists in late Cold War Berlin and their legacy in today's city. These artists worked intentionally outside the art market, believing that art should be everywhere, freed from its confinement in museums and galleries. They used art as a way to imagine new forms of social and creative life. Smith introduces little-known artists including West Berlin feminist

collective Black Chocolate, the artist duo paint the town red (p.t.t.r), and the Office for Unusual Events, creators of satirical urban political theater, as well as East Berlin action art and urban interventionists Erhard Monden, Kurt Buchwald, and others. Artists and artist-led urban coalitions in 1990s Berlin carried on the participatory spirit of the late Cold War, with more overt forms of protest and collaboration at the neighborhood level. The temperament lives on in twenty-first century Berlin, animating artists' resolve to work outside the market and citizens' spirited defenses of green spaces, affordable housing, and collectivist projects. With *Free Berlin*, Smith offers an alternative history of art in Berlin, detaching artistic innovation from art world narratives and connecting it instead to Berliners' historic embrace of care, solidarity, and cooperation.
