Think and Grow Rich Napoleon Hill,2005-08-18 The bestselling success book of all time—now revised and updated for the 21st century. Think and Grow Rich has been called the “Granddaddy of All Motivational Literature.” It was the first book to boldly ask, “What makes a winner?” The man who asked and listened for the answer, Napoleon Hill, is now counted in the top ranks of the world's winners himself. The most famous of all teachers of success spent “a fortune and the better part of a lifetime of effort” to produce the “Law of Success” philosophy that forms the basis of his books and that is so powerfully summarized in this one. In the original Think and Grow Rich, published in 1937, Hill draws on stories of Andrew Carnegie, Thomas Edison, Henry Ford, and other millionaires of his generation to illustrate his principles. In the updated version, Arthur R. Pell, Ph.D., a nationally known author, lecturer, and consultant in human resources management and an expert in applying Hill's thought, deftly interweaves anecdotes of how contemporary millionaires and billionaires, such as Bill Gates, Mary Kay Ash, Dave Thomas, and Sir John Templeton, achieved their wealth. Outmoded or arcane terminology and examples are faithfully refreshed to preclude any stumbling blocks to a new generation of readers.

It holds the keys to financial independence, harmonious relationships, power, happiness, fulfillment, and peace of mind. All forms of wealth can be yours if you are willing to pay the price...and that is, to THINK—to enlarge your mind, take control of your thoughts, and leverage the power of the vast mental resources available to you in order to translate your greatest desires into their material equivalent. As Hill said, “There is no point in having such a great potential for achievement unless you do something to convert it into an actuality.” Think and Grow Rich in Ten Minutes a Day extracts the key principles, instructions, and stories from Hill's original, unedited masterpiece and provides updated, relevant examples—in modernized, easily accessible language—so that all readers, regardless of how busy they are, can benefit from the timeless wisdom found in Hill's book. Action items added to the original text will help readers expertly apply each chapter's lessons. Your master-key to success is already in your hands! "Anything the mind can conceive and believe, it can achieve." Within this one line is distilled a success formula so simple that anyone can apply it—and yet so demanding that only a minority of the population ever fully lives it out. Upon it was built a success philosophy that explains how human desires can be translated into material reality, a framework that rests upon the power of thoughts to seek expression in physical form. Through this singular concept, the world's wealthiest and most successful individuals—rich in money, relationships, power, peace of mind, and social standing—have built and maintained their prosperity. It is the foundational principle of Napoleon Hill's Science of Success program, an achievement philosophy that effectively helped end the Great Depression and that has since made more millionaires, cultural icons, and thought leaders than any other. Hill was born in 1883 in a one-room cabin on the Pound River in Wise County, Virginia. He began his writing career at age thirteen as a mountain reporter for small-town newspapers. In 1908, as a young special investigator for a nationally known business magazine, he was sent to interview the great steel magnate Andrew Carnegie. During that interview, Carnegie shared the secrets that had enabled him to acquire hundreds of millions of dollars—a magic law of the human mind, a little-known psychological principle that was amazing in its power. Believing that this magic formula should be shared with those who did not have the time or resources to discover it on their own, Carnegie tasked Hill with spending twenty years or more developing this principle into a philosophy of personal success. This research would be conducted without pay; Carnegie merely provided Hill with access to over five hundred of America's greatest business leaders in order to test his success formula. In 1937, after twenty-nine years of research and writing, Hill published Think and Grow Rich, which contains the thirteen success principles that form the core of the Science of Success. Since its release, it has sold over one hundred million copies worldwide. No literary work in the personal development genre has had a greater creative impact than Think and Grow Rich.

The New Think & Grow Rich Ted Ciuba,2008 Why Write A New Think and Grow Rich? At first exposure the very idea of rewriting the greatest success classic of all time sounds like some fruit from California announcing he's re-written the Bible. However, looking at it correctly, wouldn't it be amazing if a how-to manual didn't need updating after 70 years of service? What other body of knowledge and practice has not progressed dramatically in the intervening years?! Can the science of personal achievement be any different? So what kinds of changes can you expect? Certainly modern advances in neuro-science, motivation, NLP, and quantum reality make it easier to grasp the secret, and have been included. Also, those uncomfortable isms of an antique age have been eliminated. You no longer have to be a white American male to achieve success..thus the language, quotes, examples and stories include, while retaining much of the familiar work, women, other races and nationalities. More accessible for young people, who need it most!

As I listened to him, I heard something other than the words he spoke. I felt the substance—the wisdom—and the spirit of a man and his philosophy.
