*Three Squared* Koko Nervelli,2013-10-17 A mysterious client asks for help from a psychic medium in the suspicious deaths of her husband and son. Madame Melancholy Marie must involve the expertise of her friends back in New Orleans to assist in solving the mystery. The deeper they get into the investigation, the closer they sink into an evil plot to overtake the entire mystic community. They must all fight together to save each other from the powers of darkness. THREE SQUARED is the first novel in Koko's METAPHYSICAL MURDER MYSTERIES series.

Star Trek: Q Squared Peter David,2012-10-30 In all of his travels Captain Jean-Luc Picard has never faced an opponent more powerful than Q, a being from another continuum that Picard encountered on his very first mission as Captain of the Starship Enterprise™. In the years since, Q has returned again and again to harass Picard and his crew. Sometimes dangerous, sometimes merely obnoxious, Q has always been mysterious and seemingly all-powerful. But this time, when Q appears, he comes to Picard for help. Apparently another member of the Q continuum has tapped into an awesome power source that makes this being more powerful than the combined might of the entire Q continuum. This renegade Q is named Trelane, also known as the Squire of Gothos, who Captain Kirk and his crew first encountered over one hundred years ago. Q explains that, armed with this incredible power, Trelane has become unspeakably dangerous. Now Picard must get involved in an awesome struggle between super beings. And this time the stakes are not just Picard's ship, or the galaxy, or even the universe, this time the stakes are all of creation.

**E-Squared** Pam Grout,2023-08-01 For the 10th anniversary of the #1 New York Times bestseller, a new release complete with a brand-new Manifesting Scavenger Hunt. E-Squared could best be described as a lab manual with simple experiments to prove once and for all that reality is malleable, that consciousness trumps matter, and that you shape your life with your mind. Rather than take it on faith, you are invited to conduct nine 48-hour experiments to prove there really is a positive, loving, totally hip force in the universe. Yes, you read that right. It says prove. The experiments, each of which can be conducted with absolutely no money and very little time expenditure, demonstrate that spiritual principles are as dependable as gravity, as consistent as Newton's laws of motion. For years, you've been hoping and praying that spiritual principles are true. E-Squared lets you know it for sure. NEW in this edition: A note from Pam Grout on the 10th anniversary of E-Squared, plus a brand-new Manifesting Scavenger Hunt with even more opportunities to prove your manifesting mojo. I absolutely love this book. Pam has combined a writing style as funny as Ellen DeGeneres with a wisdom as deep and profound as Deepak Chopra's to deliver a powerful message and a set of experiments that will prove to you beyond a doubt that our thoughts really do create our reality. – Jack Canfield, co-creator of the New York Times best-selling Chicken Soup for the Soul® series

*Times Squared* Julia DeVillers,Jennifer Roy,2011-01-18 Identical twin sisters Payton and Emma Mills have “traded faces” and created “twin-dentical chaos” at school and at home. But you haven't seen anything yet. Payton and Emma are off to “twin-vade” New York City! Payton's drama club plans a field trip to see an off-Broadway show, and Emma's mathletes team will compete in an elite competition. Sounds twin-tastic! But Payton never imagined the star of the show would be Ashlynn, her old nemesis from summer camp whose chores Payton traded for designer clothes. Are Payton's “Summer Slave” days coming back to haunt her? Or will she be saved by a flip-flop twin swap? Emma has her own nemesis to face—she and Jazmine James are on the same team. But teamwork? Not so much. Since Jazmine is in it to win it...will Emma have to “twin” it? Payton and Emma must do a ‘twins-formation’ to rescue each other again. And again! (Not again!) Toss in cute boys, crazy triplet poofy Pomeranian stage puppies, and New York City and things get a little twin-sane. Is the big city ready for Payton and Emma! (or is it Emma and Payton?) and their mixed-up mayhem? Which is which in the biggest twin switch yet!

Philosophical Papers: Volume 3, Realism and Reason Hilary Putnam,1983-04-29 This is the third volume of Hilary Putnam's philosophical papers, published in paperback for the first time. The volume contains his major essays from 1975 to 1982, which reveal a large shift in emphasis in the 'realist' position developed in his earlier work. While not renouncing those views, Professor Putnam has continued to explore their epistemological consequences and conceptual history. He now, crucially, sees theories of truth and of meaning that derive from a firm notion of reference as inadequate.

'Stats to go' is an ideal companion to hospitality, leisure and tourism studies as the breadth of coverage supports all taught numerical aspects of these types of course. Examples from hospitality, leisure and tourism organizations: \* licensed premises \* fast food outlets \* hotels \* theme parks and their environments are used to illustrate key issues of the text.
