William H. Mobley, Ming Li, Ying Wang

**The Global Mindset** ,2007-09-01 A global mindset is 'a set of individual attributes that enable an individual to influence individuals, groups, and organizations from diverse socio/cultural/institutional systems'. This book intends to explore the content of a global mindset, how it is developed, when and how it should be applied, and what its consequences are.

**Leading Global Projects** Robert T. Moran,William E. Youngdahl,2008 'Leading Global Projects' builds on the foundation of project management skills and clearly connects project management to the strategic objectives and leadership needs of an organization. The authors draw from examples of project leadership in numerous countries and regions, as well as a variety of corporate and organizational contexts.

**Global Strategy** Andrew C. Inkpen,Andrew Inkpen,Kannan Ramaswamy,2006 Looking at the question of how firms can compete in a global environment, the authors examine the issues considered central to the study of strategic management in a global context. They deal with a diverse set of important strategic topics by integrating research with practical examples and case studies.

**Being Global** Ángel Cabrera,Gregory Unruh,2012-03-27 What does it take to lead a global business? What makes being a global business leader today such a complex task? It's more than mastering your knowledge of various geographies and cultures, though that is essential. But to succeed, you must also master the complex mind-set and competencies needed to lead in today's fully globalized world. Not an easy assignment. Enter Ángel Cabrera and Gregory Unruh. In *Being Global*, they pull from their extensive experience as well as research they conducted at the Thunderbird School of Global Management, which has been cited by the Financial Times, U.S. News and World Report, and The Economist for its authority on global business. In *Being Global*, Cabrera and Unruh define a new context for global leadership, vividly illustrating both the challenges and the opportunities facing today's executives. How can you be effective? What new skills must you learn in order to be successful? What do international teams do to stay connected while still producing results on a regional scale? *Being Global* is written for leaders at all levels of their careers—whether in big business or small, private sector or government—who aspire to think and act globally and who need some help getting there. Being a global citizen is just the starting point. Cabrera and Unruh provide the tools and guidance to help you develop even deeper leadership skills, to benefit both you and your organization.

*The Cost of Bad Behavior* Christine Pearson,Christine Porath,2009-07-09 Why incivility at work is a bigger problem than you suspect In an accessible and informative style, Pearson and Porath examine the toll that bad behavior can have on otherwise well-functioning companies. And they reveal strategies that successful organizations are using to stop incivility before it takes hold. Whether it's a standoffish coworker or an arrogant boss, incivility at the office doesn't just affect the moods of a few employees; it hurts an entire company. Consider these statistics: 12 percent of all employees say they've left jobs because they were treated badly. Fortune 1000 executives spend roughly seven weeks per year resolving employee conflicts. And an astonishing 95 percent of Americans say they've experienced rudeness at work. Christine Pearson and Christine Porath examine the devastating toll that bad behavior can have on otherwise well-functioning companies. Combining their own scientific research with stories from fields as diverse as criminology, education, and psychology, they show how to spot the roots of incivility, rip them out, and create a culture of respect. They urge managers to stop making excuses, set a zero-tolerance policy, and lead by example. Bestsellers like *The No Asshole Rule* and *The Power of Nice* have shown the hunger for more civility at work; now *The Cost of Bad Behavior* shows exactly what to do about it.

Harnessing Globalization Roy C. Nelson, 2015-10-29 How can countries in the underdeveloped world position themselves to take best advantage of the positive economic benefits of globalization? One avenue to success is the harnessing of foreign direct investment (FDI) in the “nontraditional” forms of the high-technology and service sectors, where an educated workforce is essential and the spillover effects to other sectors are potentially very beneficial. In this book, Roy Nelson compares efforts in three Latin American countries—Brazil, Chile, and Costa Rica—to attract nontraditional FDI and analyzes the reasons for their relative success or failure. As a further comparison, he uses the successes of FDI promotion in Ireland and Singapore to help refine the analysis. His study shows that two factors, in particular, are critical. First is the government’s autonomy from special interest groups, both domestic and foreign, arising from the level of political security enjoyed by government leaders. The second factor is the government’s ability to learn about prospective investors and the inducements that are most important to them—what he calls “transnational learning capacity.” Nelson draws lessons from his analysis for how governments might develop more effective strategies for attracting nontraditional FDI.

**Designing the New American University** Michael M. Crow, William B. Dabars, 2015-03-15 A radical blueprint for reinventing American higher education. America’s research universities consistently dominate global rankings but may be entrenched in a model that no longer accomplishes their purposes. With their multiple roles of discovery, teaching, and public service, these institutions represent the gold standard in American higher education, but their evolution since the nineteenth century has been only incremental. The need for a new and complementary model that offers broader accessibility to an academic platform underpinned by knowledge production is critical to our well-being and economic competitiveness. Michael M. Crow, president of Arizona State University and an outspoken advocate for reinventing the public research university, conceived the New American University model when he moved from Columbia University to Arizona State in 2002. Following a comprehensive reconceptualization spanning more than a decade, ASU has emerged as an international academic and research powerhouse that serves as the foundational prototype for the new model. Crow has led the transformation of ASU into an egalitarian institution committed to academic excellence, inclusiveness to a broad demographic, and maximum societal impact. In *Designing the New American University*, Crow and coauthor William B. Dabars—a historian whose research focus is the American research university—examine the emergence of this set of institutions and the imperative for the new model, the tenets of which may be adapted by colleges and universities, both public and private. Through institutional innovation, say Crow and Dabars, universities are apt to realize unique and differentiated identities, which maximize their potential to generate the ideas, products, and processes that impact quality of life, standard of living, and national economic competitiveness. *Designing the New American University* will ignite a national discussion about the future evolution of the American research university.

*Hope for Film* Ted Hope, Anthony Kaufman, 2020-08-18 “Essential for the aspiring filmmaker,” this is an inspiring, tell-all look at the independent film business from one of the industry’s most passionate supporters (Todd Solondz, director of *Welcome to the Dollhouse*) Hope for Film captures the rebellious punk spirit of the indie film boom in 1990s New York City and its collapse two decades later to its technology-fueled regeneration and continuing streaming-based evolution. Ted Hope, whose films have garnered 12 Oscar nominations, draws from his own personal experiences working on the early films of Ang Lee, Eddie Burns, Alan Ball, Todd Field, Hal Hartley, Michel Gondry, Nicole Holofcener, and Todd Solondz, as well

as his tenures at the San Francisco Film Society, Fandor, and Amazon Studios, taking readers through the decision-making process that brought him the occasional failure as well as much success. Whether navigating negotiations with studio executives over final cuts or clashing with high-powered CAA agents over their clients, Hope offers behind-the-scenes stories from the wild and often heated world of “specialized” cinema--where art and commerce collide. As mediator between these two opposing interests, Hope offers his unique perspective on how to make movies while keeping your integrity intact and how to create a sustainable business enterprise out of that art while staying true to yourself. Against a backdrop of seismic changes in the independent film industry, from corporate co-option to the rise of social media and the streaming giants, Hope for Film provides not only an entertaining and intimate ride through the business of arthouse movies over the last decades, but also hope for its future. “There is nobody in the independent film world quite like Ted Hope. His wisdom and heart shine through every page.” —Ang Lee, Academy Award winning director of *Brokeback Mountain*

**Strategic Leadership Across Cultures** Robert J. House, Peter W. Dorfman, Mansour Javidan, Paul J. Hanges, Mary F. Sully de Luque, 2013-08-07 Unique in its focus, methodology, and impact, *Strategic Leadership Across Cultures: The GLOBE Study of CEO Leadership Behavior and Effectiveness in 24 Countries* is a must-have for those studying or practicing in the fields of global leadership, cross-cultural leadership, and organization studies. Reporting on research obtained during the third phase of the ten-year GLOBE project, the book examines strategic leadership effectiveness for executive and top-level management based on data from more than 1,000 CEOs and over 6,000 top management team members in 24 countries. Authors Robert J. House, Mary Sully de Luque, Peter Dorfman, Mansour Javidan, and Paul L. Hanges offer a series of propositions about executive leadership based on the unified theory—developed after the publication of the first GLOBE book—and empirically test these propositions. They provide evidence that leadership matters, executive leadership matters greatly, and that societal cultures influence the kind of leadership that is expected and effective.

*Emerging Markets* Robert Grosse, 2015-11-03 The traditional dominance of international markets by companies from the US, Western Europe and Japan can no longer be taken for granted. Emerging market economies, from the powerhouse Chinese economy (set to pass the US in national income by 2020) to dynamic players such as Mexico, South Africa and Indonesia, are rapidly changing the competitive landscape. Companies that can successfully enter these emerging markets may reap rewards and benefits from cost reductions and market opportunities. By understanding their positioning in the global continuum of companies and customers - the global value chain - businesses can build their strategies for better competition, more effective resource allocation, cost reduction, and a heightened awareness of the risks and benefits. Packed with in-depth case studies of multinationals from both sides of emerging markets, including: Accenture, Walmart, Google, Nike, Novartis, PetroChina, Embraer, Tata Group and FEMSA; *Emerging Markets* is essential reading for anyone looking to understand the new competitive landscape and how they can maximise the business opportunities available. Online supporting resources include lecture slides that align with each chapter.

*Global Leadership 2e* Mark E. Mendenhall, Joyce Osland, Allan Bird, Gary R. Oddou, Martha L. Maznevski, Michael Stevens, Günter K. Stahl, 2013-04-26 Global leadership has been frequently heralded by writers and executives as the key to sustained competitive advantage on the part of organizations. In addition, it is clear that the possession of leadership qualities and the display of leader behavior are requirements for individuals attempting to progress in their careers. It is important for aspiring managers to learn about the nature of effective global leadership and how they can develop their own competencies in this area. This textbook provides an important overview of this key emerging area within business and management. Offering a view into the nature of global leadership and the competencies necessary for aspiring managers to succeed, *Global Leadership* is essential reading for students of leadership, organizational theory, strategic management, human resource management, and for

anyone working and managing in the global arena. Now in its second edition, it draws from recent research to both contemporize timeless topics and address today's relevant topics, from corporate social responsibility, to cultural competencies, to current technology.

**Culture, Leadership, and Organizations** Robert J. House, Paul J. Hanges, Mansour Javidan, Peter W. Dorfman, Vipin Gupta, 2004-04-29 Culture, Leadership, and Organizations reports the results of a ten-year research program, the Global Leadership and Organizational Behavior Effectiveness (GLOBE) research program. GLOBE is a long-term program designed to conceptualize, operationalize, test, and validate a cross-level integrated theory of the relationship between culture and societal, organizational, and leadership effectiveness. A team of 160 scholars worked together since 1994 to study societal culture, organizational culture, and attributes of effective leadership in 62 cultures. Culture, Leadership, and Organizations: The GLOBE Study of 62 Societies reports the findings of the first two phases of GLOBE. The book is primarily based on the results of the survey of over 17,000 middle managers in three industries: banking, food processing, and telecommunications, as well as archival measures of country economic prosperity and the physical and psychological well-being of the cultures studied.

Taking a cue from the famous World War II morale-boosting slogan (“Keep Calm and Carry On”), Gus Andrews shows us how to adapt the techniques our ancestors used to survive hard times, so we can live our best lives online. She explains why media and technology stress us out, and offers empowering tools for coping. Mindfulness practices can help us stay calm and conserve our attention purposefully. Andrews shares the secret of understanding our own opinions’ “family trees” in order to identify misleading “fake news.” She provides tools for unplugging occasionally, overcoming feelings that we are “bad at technology,” and taking charge of our security and privacy. Andrews explains how social media algorithms keep us from information we need and why “creepy ads” seem to follow us online. Most importantly, she urges us to work to rebuild the trust in our communities that the internet has broken.
