Thelma and the Thunderstorm Leah Scott,2020-04-15 Thelma wasn't always the prettiest tree on the town square. Even as a young willow, her limbs were dreadfully sloppy, and she always drooped. There was even talk of cutting her down to make room for a taller, tidier maple tree. So imagine the townspeople's surprise when the tangled willow blossomed into a beautiful treasure! Thelma and the Thunderstorm is the second selection in a series of books dealing with weather disasters, written especially for children. Thelma's story is one of strength and courage, and includes a two-page, non-fiction section discussing the phenomena of lightning and thunder for young readers.

A Wind-Storm in the Forests John Muir,2014-10-28 The nature writings of pioneering environmentalist and Sierra Club founder John Muir are like no other. In this essay from 1894, Muir describes the grandeur of the winds at play in the forests, with stunning and musical detail about the trees of the Sierra and their individual reaction to the wind. Muir's story of climbing a 100-foot Douglas Spruce to experience the sway and swirl of a storm for himself is unforgettable. This short work is part of Applewood's American Roots, series, tactile mementos of American passions by some of America's most famous writers.

Ball Lightning Mark Stenhoff,1999-10-31 Down comes a deluge of sonorous hail, Or prone-descending rain. Wide-vent, the clouds Pour a whole flood, and yet, its flame unquenched, Th'unconquerable lightning struggles through. Ragged and fierce, or in red whirling balls, And fires the mountains with redoubled rage. Black from the stroke, above, the smould'ring pine Stands a sad shattered trunk; and, stretched below, A lifeless group the blasted cattle lie. James Thompson, "The Seasons" (1727) have been investigating ball lightning for more than two decades. I published a ball lightning report in Nature in 1976 that received worldwide publicity and I consequently many people wrote to me with accounts of their own experiences. Within a very short time, I had accumulated about 200 firsthand accounts, and the file has continued to grow steadily since then. Several things impressed me. Few of those who wrote to me had any detailed foreknowledge of ball lightning at the time of their observation. Nonetheless, once reports of other phenomena such as St. Elmo's fire had been eliminated, the remaining descriptions were remarkably consistent. Furthermore, nearly all who contacted me were keen to have an explanation of what they had seen and seemed entirely sincere.

A Branch from the Lightning Tree Martin Shaw,2011 A BRANCH FROM THE LIGHTNING TREE is centered around several key elements: 1. It features four texts and commentaries ? Welsh, Russian, Siberian and Norwegian myths that explore the process of leaving what is considered safe and predictable and journeying out into wild, uncertain areas of nature and the psyche in search of new insights. The four stories have at their center a man, woman, and adolescent. 2. A narrative of why the author gave up a large musical publishing deal with Warner Brothers to spend four years living in a tent in the wilds and over a decade facilitating wilderness rites-of-passage for others. 3. Shaw's eloquent insistence that without a renewed attention to myth and the initiation process we are only partially equipped to reestablish a complementary relationship with the living world. 4. The core of these stories are paradoxical in nature, far from the clumsily perceived 'hero' myths, and point towards Trickster, or Coyote, as a way of existing in a world ambivalent to the insights of what you could call traditional knowledge. A BRANCH FROM THE LIGHTNING TREE is unique in the field of myth and ritual in several ways: 1. It carries an 'in-the-field' narrative of several hundred men and women who have gone out into wild places to fast for four days and nights. Not in the Amazon, or in Mongolia, but in a place that is indigenous to them, that grounds the experience in the wider context of their lives, rather than a one-off event that can be hard to reconnect with. This is part of a growing mood to get to the bones of initiatory experience, rather than the cultural affectations. The stories illustrate both the grandeur and struggle of this often subtle process. 2. Unlike many of the big mythological sellers (i.e. Bly's IRON JOHN or Pinkola Estes WOMEN WHO RUN WITH WOLVES), A BRANCH FROM THE LIGHTNING TREE is not a gender piece, but focuses on both men and women's movement into wildness as part of the bigger awareness of climate change and ecology. It presents the old stories as keys into any debate on these issues, that the ability to think metaphorically/mythologically loosens the grip of literalness, and can 're-enchanted' our perspectives. 3. As a wilderness teacher Shaw has noticed that the real point of crisis that is emerging is the return to community, rather than the time out in the wild. This is turning of rites-of-passage on its head: Shaw reasons that the rites-of-passage process requires three stages following an initial Call to the Soul: (i) Going out of the Village, and the severance from ordinary life and the stepping into the image-laden language of myth, story, ritual; (ii) Into the Forest, baring the soul to extraordinary forces, receiving the sacred wound, bonding with the living world; (iii) And Back Again, return to community, the performance of identity, and the confirmation in and of the Soul. A BRANCH FROM THE LIGHTNING TREE invokes Robert Graves work on the White Goddess, and the Crow poems of Ted Hughes-it is a combination of practical knowledge, imaginative insight and passionate storytelling that gives Shaw's book its persuasiveness and power. At times incantatory, at times novelistic and poetic, he writes as someone who has been to these places, undergone these trials and tested himself at the extremes of lived experience.

Thunderstorm Arthur Geisert,2020-05-25 Thunderstorm follows the course of a storm through midwestern farm country minute-by-minute, hour-by-hour, from late morning into late afternoon. As always with Arthur Geisert, it is a meticulously executed and visually stunning piece of work. Other than the timeline that runs along the bottom border of the illustrations, there is no text, and the illustrations are continuous. Through keen observation, Geisert beautifully captures the nuances and details of a midwestern thunderstorm, from the ever-changing color of the sky, to the actions of the human inhabitants, to the reactions of the natural world to the wind and rain. America's heartland is somewhat unfamiliar territory in the realm of picture books, but in Thunderstorm, Geisert has provided readers with valuable, breathtaking insight into one of its most natural occurrences. Arthur Geisert grew up in Los Angeles, California, and claims not to have seen a pig until he was an adult. Trained as a sculptor in college, Geisert learned to etch at the Otis Art Institute in Los Angeles. Geisert has published just about a book a year for the past thirty years. Every one of his books has been illustrated with etchings. His work has appeared in The New Yorker and The Horn Book Magazine. In 2010 his book Ice was selected as a New York Times Book Review Best Illustrated book of the year. Geisert currently lives in a converted bank building in Bernard, Iowa.
