The Tiger John Vaillant, 2010-08-24 It's December 1997 and a man-eating tiger is on the prowl outside a remote village in Russia's Far East. The tiger isn't just killing people, it's annihilating them, and a team of men and their dogs must hunt it on foot through the forest in the brutal cold. To their horrified astonishment it emerges that the attacks are not random: the tiger is engaged in a vendetta. Injured and starving, it must be found before it strikes again, and the story becomes a battle for survival between the two main characters: Yuri Trush, the lead tracker, and the tiger itself. As John Vaillant vividly recreates the extraordinary events of that winter, he also gives us an unforgettable portrait of a spectacularly beautiful region where plants and animals exist that are found nowhere else on earth, and where the once great Siberian Tiger - the largest of its species, which can weigh over 600 lbs at more than 10 feet long - ranges daily over vast territories of forest and mountain, its numbers diminished to a fraction of what they once were. We meet the native tribes who for centuries have worshipped and lived alongside tigers - even sharing their kills with them - in a natural balance. We witness the first arrival of settlers, soldiers and hunters in the tiger's territory in the 19th century and 20th century, many fleeing Stalinism. And we come to know the Russians of today - such as the poacher Vladimir Markov - who, crushed by poverty, have turned to poaching for the corrupt, high-paying Chinese markets. Throughout we encounter surprising theories of how humans and tigers may have evolved to coexist, how we may have developed as scavengers rather than hunters and how early Homo sapiens may have once fit seamlessly into the tiger's ecosystem. Above all, we come to understand the endangered Siberian tiger, a highly intelligent super-predator, and the grave threat it faces as logging and poaching reduce its habitat and numbers - and force it to turn at bay. Beautifully written and deeply informative, *The Tiger* is a gripping tale of man and nature in collision, that leads inexorably to a final showdown in a clearing deep in the Siberian forest.

Memoirs Of A Flying Tiger: The Story Of A Wwii Veteran And Sia Pioneer Pilot Weng Toh

Ho,2019-11-15 This book is a poignant story of a small-town boy, who stumbled into a lifelong flying career spanning 38 years as a pilot. Now at 99, Captain Ho Weng Toh, one of the last few remaining Flying Tigers, recalls the many events that shaped his life. It takes the readers through his journey of good and bad years, the trials and tribulations encountered, his journey from being a refugee student to becoming a Chinese Air Force B-25 bomber pilot, his will to live, the burning desire to contribute towards the WWII effort and his endurance of all the trials and hardships all alone and often in silent solitude. Captain Ho shares memories of his childhood days and his growing-up years in Ipoh, his family and important values imparted by his father, his wonderful friendship with his buddy of eight decades, Meng Seng and his romantic encounters. In 1941, while being a student in Hong Kong, Captain Ho witnessed bombs dropped by Japanese bombers which signalled the start of WWII — a war which not only altered the course of history but was a major turning point in his life. Its impact consequently shaped the course of his life. He encountered many trials and uncertainties during the war years. But beyond the dark clouds and thunder storms, there was new hope and adventure. He encountered new adventures in Singapore, where he used his flying experience to carve out an illustrious career. In 1951, he started flying for Malayan Airways, the predecessor of Singapore Airlines (SIA). Through his 30 years of flying career with SIA, he saw the Airline grow from a fledgling Airline of three DC-3s to a modern international Airline. His strong passion for people, sports and travel were hallmarks of his life which enabled him to live a long and fulfilling life. Having a deep appreciation of the importance of friendship, he values his friends dearly and often travels the globe to reconnect. Being keenly interested in people and world affairs, he is extremely aware of human needs and is ever concerned for people that comes his way, fighting for the underdogs, offering guidance and a little helping hand to those in need. Such qualities together with his flying experience has helped him successfully train and groom several generations of young local pilots who eventually had successful careers at SIA. Related Link(s)

The Uninhabitable Earth David Wallace-Wells,2019-02-19 #1 NEW YORK TIMES BESTSELLER •

“The Uninhabitable Earth hits you like a comet, with an overflow of insanely lyrical prose about our pending Armageddon.”—Andrew Solomon, author of *The Noonday Demon* **NAMED ONE OF THE BEST BOOKS OF THE YEAR BY** The New Yorker • The New York Times Book Review • Time • NPR • The Economist • The Paris Review • Toronto Star • GQ • The Times Literary Supplement • The New York Public Library • Kirkus Reviews It is worse, much worse, than you think. If your anxiety about global warming is dominated by fears of sea-level rise, you are barely scratching the surface of what terrors are possible—food shortages, refugee emergencies, climate wars and economic devastation. An “epoch-defining book” (The Guardian) and “this generation’s *Silent Spring*” (The Washington Post), *The Uninhabitable Earth* is both a travelogue of the near future and a meditation on how that future will look to those living through it—the ways that warming promises to transform global politics, the meaning of technology and nature in the modern world, the sustainability of capitalism and the trajectory of human progress. *The Uninhabitable Earth* is also an impassioned call to action. For just as the world was brought to the brink of catastrophe within the span of a lifetime, the responsibility to avoid it now belongs to a single generation—today’s. **ONGLISTED FOR THE PEN/E.O. WILSON LITERARY SCIENCE WRITING AWARD** “The Uninhabitable Earth is the most terrifying book I have ever read. Its subject is climate change, and its method is scientific, but its mode is Old Testament. The book is a meticulously documented, white-knuckled tour through the cascading catastrophes that will soon engulf our warming planet.”—Farhad Manjoo, The New York Times “Riveting. . . . Some readers will find Mr. Wallace-Wells’s

outline of possible futures alarmist. He is indeed alarmed. You should be, too.”—The Economist “Potent and evocative. . . . Wallace-Wells has resolved to offer something other than the standard narrative of climate change. . . . He avoids the ‘eerily banal language of climatology’ in favor of lush, rolling prose.”—Jennifer Szalai, The New York Times “The book has potential to be this generation’s *Silent Spring*.”—The Washington Post “The Uninhabitable Earth, which has become a best seller, taps into the underlying emotion of the day: fear. . . . I encourage people to read this book.”—Alan Weisman, The New York Review of Books

The Photo Ark Joel Sartore, 2017 This book of photography represents National Geographic’s Photo Ark, a major cross-platform initiative and lifelong project by photographer Joel Sartore to make portraits of the world’s animals -- especially those that are endangered. His message: to know these animals is to save them. Sartore intends to photograph every animal in captivity in the world. He is circling the globe, visiting zoos and wildlife rescue centers to create studio portraits of 12,000 species, with an emphasis on those facing extinction. He has photographed more than 6,000 already and now, thanks to a multi-year partnership with National Geographic, he may reach his goal. This book showcases his animal portraits: from tiny to mammoth, from the Florida grasshopper sparrow to the greater one-horned rhinoceros. Paired with the prose of veteran wildlife writer Douglas Chadwick, this book presents an argument for saving all the species of our planet.
