The Tiger John Vaillant, 2010-08-24 It's December 1997 and a man-eating tiger is on the prowl outside a remote village in Russia's Far East. The tiger isn't just killing people, it's annihilating them, and a team of men and their dogs must hunt it on foot through the forest in the brutal cold. To their horrified astonishment it emerges that the attacks are not random: the tiger is engaged in a vendetta. Injured and starving, it must be found before it strikes again, and the story becomes a battle for survival between the two main characters: Yuri Trush, the lead tracker, and the tiger itself. As John Vaillant vividly recreates the extraordinary events of that winter, he also gives us an unforgettable portrait of a spectacularly beautiful region where plants and animals exist that are found nowhere else on earth, and where the once great Siberian Tiger - the largest of its species, which can weigh over 600 lbs at more than 10 feet long - ranges daily over vast territories of forest and mountain, its numbers diminished to a fraction of what they once were. We meet the native tribes who for centuries have worshipped and lived alongside tigers - even sharing their kills with them - in a natural balance. We witness the first arrival of settlers, soldiers and hunters in the tiger's territory in the 19th century and 20th century, many fleeing Stalinism. And we come to know the Russians of today - such as the poacher Vladimir Markov - who, crushed by poverty, have turned to poaching for the corrupt, high-paying Chinese markets. Throughout we encounter surprising theories of how

humans and tigers may have evolved to coexist, how we may have developed as scavengers rather than hunters and how early Homo sapiens may have once fit seamlessly into the tiger's ecosystem. Above all, we come to understand the endangered Siberian tiger, a highly intelligent super-predator, and the grave threat it faces as logging and poaching reduce its habitat and numbers - and force it to turn at bay. Beautifully written and deeply informative, *The Tiger* is a gripping tale of man and nature in collision, that leads inexorably to a final showdown in a clearing deep in the Siberian forest.

Tigers Bill Ivy, 1988 Text and photographs describe the physical characteristics and behavior of the several types of tigers.

Good Night Tiger Timothy Knapman, 2016-09-06 Emma is trying to sleep, but the animals in her wallpaper are making too much noise! The gorilla

bellows, the hippo stomps, the elephant trumpets, and tiger growls. Go to sleep! Emma tells them. We've tried and tried, but we can't! replies the tiger. Then Emma gets an idea. Can she help the noisy animals settle down so that everyone can get to sleep?

Tiger Joanna Skipwith, 2006 Some of the world's best-loved animals are also some of the most endangered. Though cherished as small manageable toys, ever-present in picture books, films and advertising, they fare badly in the wild and have been driven to the margins of their natural habitat. This book combines information about the real animals as well as fictional ones from literature, and striking images from all over the world. Find out where tigers live, how many toes they have, and which famous illustrator was considered 'hopeless' by an even more famous author.

Tiger Malayan Tiger Tiger Species That Are Now Extinct Publisher Introduction Tigers have always been fascinating animals to watch. Perhaps it is the way that they quietly stalk their prey, as they gracefully move through the tall grass. Or maybe it is the long leaps they take when they pounce on their victim. One of their most recognizable features is their bright orange colored fur and black stripes. But did you know that there is a reason for these black stripes? Do you know why the tigers have these black stripes? You may know that the tiger is a descendant of the saber tooth tiger. But did you know that the tigers weren't always the size that you see today? Or do you know how many types of tigers exist today? Were you aware that a new species of tiger was identified and named as recently as 2004? Are you aware that all of the tigers are on the endangered species list, and run a risk of becoming extinct? There are laws in place worldwide to save and protect these big cats. Some tigers live in very remote regions, and there is so much we still can learn about these amazing creatures. Welcome to the world of tiger, as we explore the many regions they live in, and learn more about these powerful, skillful hunters.

The Tiger Nadine Saunier, 1983 Text and illustrations introduce the physical characteristics, habits, and natural environment of the tiger.

Jennie's Tiger: A Woman's Pioneering Stand in an Untamed Corner of Washington State Eva Gayle Six,2011-11-15 The West's pioneering experience has been both documented and dramatized enough to give us all some impression - for right or for wrong - of what pioneers were and what they did. Some of those impressions are dryly accurate, and some are excitingly fictitious. Jennie's Tiger is neither - carefully researched and truthfully told, it gives a reliable view of the homesteading

experience as well as an engrossing and moving story of strong characters making for themselves the life they want. The real Wes and Jennie Wooding homesteaded 160 acres on the Pend Oreille river in northeast Washington state from 1900 till 1923. Life before this chapter of their lives had been consistently hardscrabble and sometimes tragic. Building their own home on their own land was the greatest success and the greatest contentment they had ever had. They arrived at Tiger's Landing by steamboat with three small boys and cut down enough trees to build a 14' X 24' one-story house to shelter them. In that house, named Hawthorn Lodge, they soon added a fourth boy. Like most settlers with no cash, Wes had to work "outside" to earn the money for Proving Up the homestead. He walked several hundred miles looking for the work he knew, in the mines. A devoted member of the Western Federation of Miners and a sincere Socialist, Wes was ambivalent about the Wobbly movement and glad when, after the required seven years, he could stay at home and make his life at Tiger's Landing with Jennie and the boys. While Wes was away, Jennie was entirely capable of sheltering, feeding, clothing and raising the boys with her own skills. With help from the children, she chinked the cabin with river mud; she kept the table laid with game and fish she provided and produce she grew; she made furniture for the bare house; she skillfully sewed clothes for the family. She gradually turned the subsistence farm into a lucrative business. Fearful of missing Wes's letters, she started the first post office in her community. As the boys

reached school age, she donated land and saw that the first school began to operate. Bringing with her skills and medicines, she became doctor, nurse and midwife to the growing community. Frustrated by goods that came from a riverboat that could run only half the year, she started the first store. Through all this, Jennie was eternally buoyant; she never felt misused or deprived, only content, proud and happy. But when the outside world threatened Hawthorn Lodge in the form of a railroad right against the house, Jennie found she had to swallow her anger and make the best of it. When World War I took two of her boys away, she did what she could to help the soldiers while hating the war. Having successfully raised the four boys to strong men, Jennie's years at Hawthorn Lodge, Tiger, Washington, come to a tragic end, and we last see her heading back to California and the outside world.

Irish Literature in the Celtic Tiger Years 1990 to 2008 Susan Cahill, 2011-04-01 When Irish culture and economics underwent rapid changes during the Celtic Tiger Years, Anne Enright, Colum McCann and Éilís Ní Dhuibhne began writing. Now that period of Irish history has closed, this study uncovers how their writing captured that unique historical moment. By showing how Ní Dhuibhne's novels act as considered arguments against attempts to disavow the past, how McCann's protagonists come to terms with their history and how Enright's fiction explores connections and relationships with the female body, Susan Cahill's study pinpoints common concerns for contemporary Irish writers: the relationship between the body, memory and history,

between generations, and between past and present. Cahill is able to raise wider questions about Irish culture by looking specifically at how writers engage with the body. In exploring the writers' concern with embodied histories, related questions concerning gender, race, and Irishness are brought to the fore. Such interrogations of corporeality alongside history are imperative, making this a significant contribution to ongoing debates of feminist theory in Irish Studies.

Tiger Polly Clark, 2019-05-02 **The thrilling new novel by the prize-winning author of *Larchfield***
'Passionate, remarkable and uplifting novel'
Guardian 'Grabbed me by the imagination and carried me into the wild' Laline Paull Set across two continents, *Tiger* is a sweeping story of survival and redeeming love that plunges the reader into one of the world's last wildernesses with blistering authenticity. Frieda is a primatologist, sensitive and solitary, until a violent attack shatters her ordered world. In her new role as a zookeeper, she confronts a very different ward: an injured wild tiger. Deep in the Siberian taiga, Tomas, a Russian conservationist, fears that the natural order has toppled. The king tiger has been killed by poachers and a spectacular tigress now patrols his vast territory as her own. In a winter of treacherous competition, the path of the tigress and her cub crosses with an Udeghe huntress and her daughter. Vengeance must follow, and the fates of both tigers and people are transformed. Learning of her tiger's past offers Frieda the chance of freedom. Faced with the savage forces of nature, she must

trust to her instinct and, like the tiger, find a way to live in the world.
