**Low Cost Carriers** Stephen Ison,2017-07-05 Low cost carriers (LCCs) represent one of the most exciting and dynamic yet often contentious developments in recent commercial aviation history. Formed as a direct result of policies of airline deregulation and liberalisation that were initiated in the United States in the late 1970s before being implemented in certain European, Australasian, Latin American and other world markets from the mid-1990s onwards to encourage competition, LCCs have been responsible for progressively reconfiguring the spatial patterns, operational practices and passenger experiences of flight. In the process, they have enabled growing numbers of people to fly to more places, more frequently, and at lower cost than had been previously possible. In so doing, however, they have generated a number of socio-economic and environmental challenges. The 23 essays included in this volume provide a detailed insight into the emergence, expansion and evolution of the low cost carrier sector worldwide. The volume covers deregulation and liberalisation of the global airline sector, the business models and operating characteristics of low cost carriers, the changing nature of the airline/airport relationship, LCC network characteristics, issues of pricing and competition and the current impacts and likely future trajectories.

The Southern Tiger Ricardo Lagos Escobar,Ricardo Lagos,Blake Hounshell,Elizabeth Dickinson,2012 A former Chilean president assesses his nation's recent reinvention while predicting its meteoric rise on the world stage, tracing five decades of effort during which Chile moved from a country of terror and repression to a thriving open society that embraces centrist government practices.

**The domestic, moral and political economies of post-Celtic Tiger Ireland** Kieran Keohane,Carmen Kuhling,2015-11-01 This book provides an analysis of neo-liberal political economics implemented in Ireland and the deleterious consequences of that model in terms of polarised social inequalities, impoverished public services and fiscal vulnerability as they appear in central social policy domains – health, housing and education in particular. Tracing the argument into the domains where the institutions are sustained and reproduced, this book examines the movement of modern

economics away from its original concern with the household and anthropologically universal deep human needs to care for the vulnerable – the sick, children and the elderly – and to maintain inter-generational solidarity. The authors argue that the financialisation of social relations undermines the foundations of civilisation and opens up a marketised barbarism. Civic catastrophes of violent conflict and authoritarian liberalism are here illustrated as aspects of the 'rough beast' that slouches in when things are falling apart and people become prey to new forms of domination.

*The Tiger* John Vaillant, 2010-08-24 It's December 1997 and a man-eating tiger is on the prowl outside a remote village in Russia's Far East. The tiger isn't just killing people, it's annihilating them, and a team of men and their dogs must hunt it on foot through the forest in the brutal cold. To their horrified astonishment it emerges that the attacks are not random: the tiger is engaged in a vendetta. Injured and starving, it must be found before it strikes again, and the story becomes a battle for survival between the two main characters: Yuri Trush, the lead tracker, and the tiger itself. As John Vaillant vividly recreates the extraordinary events of that winter, he also gives us an unforgettable portrait of a spectacularly beautiful region where plants and animals exist that are found nowhere else on earth, and where the once great Siberian Tiger - the largest of its species, which can weigh over 600 lbs at more than 10 feet long - ranges daily over vast territories of forest and mountain, its numbers diminished to a fraction of what they once were. We meet the native tribes who for centuries have worshipped and lived alongside tigers - even sharing their kills with them - in a natural balance. We witness the first arrival of settlers, soldiers and hunters in the tiger's territory in the 19th century and 20th century, many fleeing Stalinism. And we come to know the Russians of today - such as the poacher Vladimir Markov - who, crushed by poverty, have turned to poaching for the corrupt, high-paying Chinese markets. Throughout we encounter surprising theories of how humans and tigers may have evolved to coexist, how we may have developed as scavengers rather than hunters and how early Homo sapiens may have once fit seamlessly into the tiger's ecosystem. Above all, we come to understand the endangered Siberian tiger, a highly intelligent super-predator, and the grave threat it faces as logging and poaching reduce its habitat and numbers - and force it to turn at bay. Beautifully written and deeply informative, *The Tiger* is a gripping tale of man and nature in collision, that leads inexorably to a final showdown in a clearing deep in the Siberian forest.

*Lady in Shining Armor* Ramesh Malayappan, 2008-05-24 This book was first written and published in 2008 during the candidacy of Hillary Clinton who aspired to become America's first woman President. The book profiles twelve women heads of government of countries around the world and

shows how women have fared when they have been entrusted with the highest executive power of the land. These examples show that when women are trusted by being elected to the highest executive positions of their respective countries, they have risen to the occasion and proven worthy of that trust. Detroit Tigers 1984 Mark Pattison, David Raglin, The 1984 Detroit tigers roared out of the gate, winning their first nine games of the season and compiling an eye-popping 35-5 record after the campaign's first 40 games--still the best start ever for any team in major league history. The tigers led wire-to-wire in 1984, becoming only the third team in the modern era of the majors to have done so. And Detroit's determination and tenacity resulted in a sweep of the Kansas City Royals in the AL playoffs and a five-game triumph over the San Diego Padres in the World Series. And Tigers fans will tell you that the bottom of the eighth inning in Game Five was the first time Kirk Gibson hit an iconic home run in the Fall Classic. *Detroit Tigers 1984: What a Start! What a Finish!*, an effort by the society of American Baseball research's BioProject Committee, brings together biographical profiles of every Tiger from that magical season, plus those of field management, top executives, the broadcasters--even venerable Tiger Stadium and the city itself.
