**Creating Sustainable Work Systems** Peter Docherty,Mari Kira,A.B. (Rami) Shani,2008-10-30 Since the first edition of this book was published, the subject of sustainability has risen to the forefront of thinking in almost every subject within business and management. Tackling the latest developments and integrating practical perspectives with rigorous research, this new edition sheds light on a vital aspect of working life. Current trends reveal that increasing intensity at work has major consequences at individual, organizational and societal levels. Sustainability in work systems thus requires a multi-stakeholder approach, emphasising a value-based choice to promote the concurrent development of various resources in the work system. This sustainability grows from intertwined individual and collective learning processes taking place within and between organizations in collaboration. In exploring the development of sustainable work systems, this book analyzes these problems, and provides the basis for designing and implementing 'sustainable work systems' based on the idea of regeneration and the development of human and social resources. The authors, who are leading researchers and practitioners from around the world, consider the existing possibilities and emerging solutions and explore alternatives to intensive work systems.

**Votive Reliefs** Carol L. Lawton,2017-05-18 This volume includes all of the Classical, Hellenistic, and Roman votive reliefs found to date in the excavations of the Athenian Agora. In addition to providing a catalogue of the reliefs arranged according to their subjects, the author treats the history of their discovery, their production and workmanship, iconography, and function. A large part of the study is devoted to discussion of the original contexts of the reliefs in an attempt to determine their relationship to shrines in the

vicinity and to investigate what they can tell us about the character of religious activity in the vicinity of the Agora. The work will be an important reference for historians of Greek art as well as of Greek religion.
