*Handmade Tile* Forrest Lesch-Middelton, 2019-10-01 *Handmade Tile* is a contemporary guide for ceramic artists and anyone interested in custom tile installations—from making, designing, and decorating to designing your space and installation. No matter how many years of experience you have as a ceramic artist or how many home-improvement projects you've tackled, nothing prepares you for the unique world of ceramic tile. From concept and design, through firing and installation, ceramic tiling is one of the few places in a home where art is permanently installed as a feature of a room. From his years as a one-man operation to his current production facility, Forrest has seen it all and helps you every step of the way. **5000 Years of Tiles** Hans Van Lemmen, 2013-10-22 A comprehensive, full-color exploration of tile art and production worldwide, from earliest times to the present day. The book is both an authoritative work of reference and a visual delight, ranging from ancient Greece, where the first fired roof tiles date from as early as the third millennium BC, to twentieth-century Mexico. Along the way we encounter stunning examples of the tiler's art: the enormous English medieval floor pavements from Byland Abbey and Clarendon Palace; figural tiles from China, intended to adorn roofs and ward off evil; the famous Iznik tiles from the Islamic world, with their richly decorative patterns; the highly stylised ceramic tiles of the Arts and Crafts movement; and the tiles created by some of the finest ceramic artists and potters of the twenty-first century. Placing the tiles firmly in their historical and cultural context, the book highlights both continuity and diversity, the dissemination of techniques and designs, and how tile art in one time and place has inspired and rejuvenated those in others. Tiles are also studied in terms of function as well as form, and the full range of architectural and practical purposes for which they have been used - from floors to roofs, stoves to bathrooms, cathedrals to metro stations - will be explored, along with the various techniques employed to create such versatile pieces. *5000 Years of Tiles* is the essential, most comprehensive single volume for anyone interested in the ceramic, decorative, and architectural arts.

*Latin Tiles* Gladding, McBean and Company, 1919 Consists chiefly of photographs of California buildings with tile roofs.

*Mexican Tiles* Masako Takahashi, 2000-04-01 Masako Takahashi, coauthor of the best-selling *Mexicolor*, now turns her attention to the vibrant tiles that are such a key element in Mexican style and design. Bring a festive new look to any home or garden with the ideas in *Mexican Tiles*. Masako Takahashi leads a colorful architectural tour through Mexico, revealing the many ways tiles are used for function and decoration, adding color and interest to everyday surroundings. Over 175 beautiful color photographs present inspirational

examples of classic and contemporary tile work, from colonial-era church facades ornately covered with talavera tiles to vividly detailed modern treatments of bathrooms and kitchens. Including a delightful introduction by Tony Cohen about the history of tile-making in Mexico, plus installation tips and a resource guide, *Mexican Tiles* is both a fascinating initiation and a practical guide to this key element of Mexican style and design.
