

Tilt Racing

S. Collins, Gavin Ireland

American Dirt Track Racer Joe Scalzo, One of the most evocative eras in the history of American motorsport was the golden age of dirt-track racing, when hairy-knuckled drivers duked it out in open-wheel racers on half-mile ovals around the country. This photographic history spans the classic era from 1946 to 1970, featuring vintage photography of the Champ and Sprint cars that were driven by men like A.J. Foyt, Parnelli Jones, Roger Ward and Bobby Unser for very little monetary reward. The technologies of the most successful and unusual cars are discussed as are specific races, circuits and some of the more colorful personalities of the period. Midget and track roadsters are also featured, along with period color photography.

Physiologic Observations on Race Car Drivers

Vincent P. Collins, 1966 Performance under conditions of stress is the essence of athletic activities. These are commonly carried out by individuals equipped with certain physical advantages augmented by special training of varying degrees of intensity. Athletic contests provide a testing ground where performance is an index of ability and preparation. Many daily activities and occupations -- driving on city streets and highways, piloting commercial planes or manning spacecraft -- involve performance where error could endanger lives of individuals or projects of great national importance. In these activities, too, natural ability and preparation are elements in performance that become increasingly important where public welfare and safety are involved. Educational and training programs for a wide variety of occupations provide reasonable competence to cope with normal circumstances. Emergency situations involving physical danger are more difficult to study because simulated testing necessarily lacks the ingredient of genuine danger and its effect upon emotion and

performance. One sports activity which provides an opportunity for a study of individual performance under conditions of non-simulated stress is auto racing. This is the subject of this investigation. The underlying concept of the study is that environmental stimuli produce physiological and biochemical responses within the individual which govern the effectiveness and efficiency of his reaction. There are therefore two stages of investigation: the first is to identify and classify the range of physiological and biochemical responses; the second is to relate these to performance. This study deals with the first stage. Observations were carried out at four auto races which will be reported individually. This was augmented, when possible, by control studies in the radiology department at Baylor University College of Medicine.--Introduction.

Drag Racing 201 - Racing in the New Economy Ike Heckler Jr,2011-11-25 Following the success of his first book, *Drag Racing 101*, where IH Racing's Team Owner Ike Heckler Jr. explains how to build your first race car and secure sponsorship, Ike now brings you *Drag Racing 201* -

Racing in the New Economy. After racing at NHRA tracks in the northeast and southeast for the past 10 years in a booming economy where securing sponsorships was relatively easy, Ike takes you on an exciting journey through 2010 and explains what it is like to uproot your personal life in order to pursue the goal of semi-pro drag racing. With over 52 career round wins and national media exposure from SPEED TV's Pinks All Out, NHRA's National Dragster, and NMCA's Fastest Street Car magazine, Ike has secured corporate sponsorships from Lucas Oil, VP Racing Fuels, WIX Filters, O'Reilly Auto Parts, ReMax Realty, Holiday Inn Hotels & Resorts, CARQUEST Auto Parts, and Ken's Speed & Machine. IH Racing's primary sponsor, Premier Properties of the Space Coast, is owned by Mr. Heckler and develops residential and commercial properties in southeast Florida. In Drag Racing 201 Ike explains how to use your own company together with your other sponsors to be able to fund a full race season and be able to travel the hundreds of miles from racetrack to racetrack economically. From getting into the Final 32 at the Pinks All Out event in West Palm, FL to making the WIX All Out 16 at the Pinks All Out event at zMax Dragway in Charlotte, Ike brings you along to all the other races and other fun events he was able to attend in 2010 with the help of good friends and sponsors. You will also ride along as he moves from Florida to North Carolina, then back to Florida just so he could honor his commitment to all his sponsors and race the season. He will also show you how the degrading economy affected his racing operation in 2010 and how he had to adjust and sacrifice his personal life to be able to race and survive. Drag Racing 201 then looks into the future of the sport and projects how it may look a few years from now and gives the reader some valuable tips on how to afford racing a full season and how the racer may have to live

differently in order to race and live their dream. Ike also gives the reader some valuable sponsorship tips along the way that will help with sponsor exposure and could make securing sponsorships a little easier. This 80 page full color book has over 75 pictures highlighting the West Palm FL, Charlotte NC, and the Bristol TN Pinks All Out events (and getting on SPEED TV), the Atlanta, NHRA Unleashed event, and what it feels like to work for an NHRA national event. If your goal is to drag race in the New Economy, this book is a must read that will save you money and increase your sponsor exposure !!

Day One Martyn L. Schorr, 2017-11-01 In *Day One*, automotive journalist Marty Schorr recalls life on the front line in the classic muscle car era, thrashing brand-new cars that would become collector vehicles. Most muscle-car books celebrate beautifully-restored vehicles surrounded by hard facts; *Day One* tells the real story from the point-of-view of one of the period's most respected automotive journalists, Marty Schorr. For the first time in print, you'll get a unique perspective on what it was like to actually drive, race, and otherwise thrash what are some of today's most valuable collector cars. *CARS*, the iconic magazine Marty wrote and edited didn't rely on industry advertising for revenue. Instead, the magazine made money the old fashioned way, from newsstand sales, leaving it able to be honest and frank in its coverage of high-performance street cars. *CARS* magazine reported on both Day stock and modified cars, cars the traditional magazines wouldn't touch, like the ultra-high-performance vehicles from companies like Baldwin-Motion, Yenko Chevrolet, Nickey Chevrolet, Royal Pontiac, and Tasca Ford. Prepare yourself

for Day One to cover the most important cars of a given year, including: Pontiac's 1962-1963 lightweight Super-Duty 421 street and Swiss Cheese models Chevrolet's 1963 big-block 427 Mystery Motor and ZL-1 Impala. Ford 1963 ½ 427/425 Galaxie fastback The 1964 Ramchargers The first 426 Street Hemi Cotton-Owens prepared Hemi Coronet A 1966 Olds Twin-Engined (850 cubic inches) Grant Toronado, currently owned by Jay Leno A prototype 1966 Plymouth 426 Street Hemi Satellite One of two 427 SOHC Galaxies prototypes A '67 Royal Bobcat GTO Plymouth's original '68 Hemi Road Runner Hurst-built Plymouth & Dodge 1968 Hemi-Darts and Hemi-Cudas

Speedway S. Collins, Gavin Ireland, 2010-02-15 Around the world lies a number of long-forgotten raceways; windswept and abandoned, the derelict pit roads and crumbling concrete are all that remains of once great race tracks. From the NASCAR heartland of North Wilkesboro and Middle Georgia to the great European super speedways at Monza and Brooklands. All photographed as they are now, but remembered in their prime.

Running Full Tilt Michael Currinder,2018-10-16 A fast-paced convincing drama of a young runner whose legs circle him back to the many conflicts he is trying to escape.—Jack Gantos, Newbery Medal-winning author of *Dead End in Norvelt* An honest and sensitive debut that memorably captures a teen runner's relationship with his brother and his brother's experience of autism Like many siblings, Leo and Caleb have a complicated relationship. But Caleb's violent outbursts literally send Leo running. When the family is forced to relocate, Leo tries to settle into a new school, joining the cross-country team and discovering his talent for racing and endurance for distance. Things begin to look up for Leo when he befriends Curtis, a potential state champion who teaches Leo strategy and introduces him to a girl named Mary. But Leo's stability is short-lived as Caleb escalates his attacks on his brother, resentful of his sports success and new friendships. Leo can't keep running away from his problems. But, with a little help from Curtis and Mary, he can appreciate his worth as a brother and his own capacity for growth, both on and off the field.
