John R. Dunlap

Handbook of Pig Medicine Peter G. G. Jackson, Peter D. Cockcroft, 2007 Filling a much needed place in veterinary medicine, Handbook of Pig Medicine provides the knowledge needed to recognize, diagnose, treat and control pig diseases in practice. The book includes high quality illustrations which, where appropriate, complement written descriptions of clinical signs. It deals with medical, surgical and reproductive problems in pigs. Clinical examination of the individual pig and the investigation of herd problems are covered in detail, along with a study on pig population medicine. Each body system is considered with special attention to clinical signs, diagnosis and treatment. Additionally, chapters in the book discuss obstetrics, pig haematology and biochemistry as well as differential diagnosis. Other topics discussed, include organic and outdoor pigs; problems of the pet pig, sampling, euthanasia and post-mortem examination. Written by two experienced clinicians and clinical teachers Succinct, reader-friendly text intended for quick and effective use Over 250 high quality colour illustrations support the text Detailed description of clinical examination of pigs - an essential part of diagnosis Provides students and clinicians with the knowledge and the skills to deal with pig patients effectively

Pig Disease Identification and Diagnosis Guide Steven McOrist, 2014-10-31 Pork is one of the world's most widely consumed meats, with the pig industry undergoing recent rapid expansion across Asia and Latin America. This textbook covers more than 100 of the most common pig diseases. With each presented as a case study, the book uses a question and answer format to enable students to recognise the key features of each disease, identify the problem and suggest a course of action. Fully illustrated throughout with colour photos, this is an invaluable learning tool for veterinary, animal science and agricultural students, as well as a useful resource for veterinarians.

Pig Health John Carr, Shih-Ping Chen, Joseph F. Connor, Roy Kirkwood, Joaquim Segalés, 2018-04-17
Maintaining the health of pigs is vital in pig farming and production. This new book written by experts from around the world focuses on the health of pigs, first with coverage of the disorders of pigs organised by clinical sign and body system. The book explores environmental medicine and then health maintenance. Treatment options are discussed, emphasizing a reduction in antimicrobial use and an increased awareness of a holistic approach to treatment. The book includes over 1,500 high-quality illustrations to enhance the clinical description, as well as a wealth of high-quality videos to test the reader in making differential diagnoses with treatment options. Quizzes at the end of each section also encourage reflective learning. International experts from the UK, USA, Australia, Spain and Taiwan cover clinical examination of the individual pig and groups along with environmental medicine, making this the ideal reference for veterinary practitioners and students. Those interested in population medicine (poultry, aquaculture, cattle and small ruminant and apiaries) will particularly enjoy the holistic approach to veterinary medicine. All those who appreciate the many talents of pigs will enjoy the practical approach to managing the health of their animals. This book moves veterinary science forward, promoting health rather than treating disease. It will be your number one reference for keeping your pigs healthy.

Labor of Love Linda Bridges,2018-09-25 Keeping the hope of the living Word with my grandchildren was a challenge when they move out of the state. I thought if I need a way to introduce the Lord to my children, others may as well. I want not just to introduce but also to remind them of their spiritual roots. It can be good conversation stimuli. It is my desire to stir and encourage many to be ready in these end days. Our children are challenged daily in their faith, belief, and in avenues we cannot imagine but Jesus can. I pray to aid in keeping the hope alive in my brethren. Pray before you read this book. I'll pray with you. Heavenly Father, I ask you to bless and shield the reader of this book and give them a clear understanding of what you have place in this book for them. In the blood of Jesus, I do pray. Jesus is Lord! Amen. Enjoy! We are watching revelation unfold before us. Jesus is the star of the revelation. We are to be ready. We need to trust Jesus. We are going up and not down. Our children need and deserve to know this. They must be prepared.
