Stability of Geodetic GPS Time Links and Their Comparison to Two-Way Time Transfer, 2004 We quantify and analyze the time differences between simultaneous results for several pairs of TAI laboratories using the Two-Way satellite Time Transfer (TWTT) and different techniques using geodetic GPS methods. These include the combined clock products from the International GPS Service (IGS) and dual-frequency P3 common-view time transfers. Usable results are available for a few baselines over several months. The IGS and P3 results derive from the same GPS receivers, but P3 uses only the code measurements, while the IGS geodetic clocks use code plus phase and much more comprehensive modeling of the signal propagation. In addition, we compare these results to those obtained with C/A code GPS time receivers in classical common-view mode. All comparisons show levels of short-term noise and longer-term systematic effects well below 1 ns, with the exception of those involving the C/A code time receivers and a specific TWTT link. From the different comparisons and their interpretation, we infer the level of short-term noise and longer-term systematic effects for all techniques.

5 Step Nurse Staffing Agency Business Formation and Operation Manual

Resource Nurse Staffing- Research and Development Co.,2021-05-28 The Nurse Staffing Agency: Business Formation and Operation Manual was created by Resource Nurse Staffing-Research and Development Company (RNS-RD). RNS-RD is comprised of a team of nurses with over thirty years experience in vastly different specialty areas in health care: business, research, clinical and managed care, to name a few. RNS-RD seeks to empower clinicians from all areas of health care to dominate and take charge of their career through collaboration and entrepreneurship. RNS-RD is not a consulting firm. We do not offer courses or seminars. RNS-RD offers easy- to-read, easy-to-comprehend step-by-step DIY (do it yourself) guidelines on how to start and operate a profitable, manageable nurse staffing agency. Why DIY? DIY guidelines are economical and drive the business owners to learn the process. According to data from the US Bureau of Labor Statistics, about 20 percent of US small businesses fail within the first year. By the end of their fifth year, roughly 50 percent have faltered. This is partly because new business owners are not studying and taking the time to truly learn their market. If you are thinking about becoming a nurse staff agency owner, let RNS-RD help you jump- start your plan!
